Contents

List of contributing authors — V

Alessandra Giordani, Bruna Del Busso Zampieri, Elis Watanabe Nogueira, Rafael Brito de Moura, Leonardo Henrique Soares Damasceno, Gunther Brucha
Acidophilic microbial communities: remediating acid mine drainage waters — 1

Suchhanda Ghosh, Samarpita Banerjee
The extremophiles indigenous to acid mines — 23

Nandita Rajeev Menon, Renitta Jobby
Halophiles: properties, adaptations, diversity, and applications — 43

Anita Suresh Parsekar, Renitta Jobby
Deep-sea extremophiles and their diversity in the Indian Ocean — 65

Freny Shah, Bablesh Ranawat, Sonam Dubey, Sandhya Mishra
Extremozymes: exclusive outlook toward the white biotechnology — 95

Shreyasi Biswas, Mahuya Mukhopadhyay
Extremophiles: a potential source of extremozymes — 113

Priyadarshini Dey, Krishna Murthy TP, Gangaraju Divyashri,Birendra Kumar, Chinmaya Shivaswamy, Devdatta Chatterjee, Gowrishankar Balu, Mellvan Prakash, Meldon Annson Dsouza, Mridula Bekal, Nikhil Chandrashekar, Papiya Das, Sharan Kumar Belamagi
Prospects of biofuels, biofertilizers, and therapeutics from extremophiles — 131

Riddhi Basu, Sanjana Ghosh, Bikram Dhara, Ishita Roy, Elizabeth Basumatary, Supriti Paul, Arup Kumar Mitra
Extremophilic pigments in eukaryotic microbes: a tool for survivability — 149

Sougata Ghosh, Bishwarup Sarkar
Bioactive compounds from extremophilic bacteria — 171

Pranjal Bharali, Bhagyudoy Gogoi, Bupesh Giridharan
Psychrophiles survival strategies: insights into the comprehensive adaptive behavioral approaches in cold-habituated bacteria — 197

Bashita Basu, Camellia Roy, Samayita Saha, Annie Selma Tirkey, Rupanjana Biswas, Asmita Dey, Bikram Dhara, Arup Kumar Mitra
Extremophiles to polyextremophiles: survival of the fittest — 221

Shahana Chowdhury, A.B.M. Rezwanul Kabir, Anirban Jyoti Debnath, Syed Akib Hossain, Dwaipayan Sinha
An overview of extremophiles as microbial armament for bioremediation — 245

Bedaprana Roy, Debapriya Maitra, Rajeshwari Podder, Jaydip Ghosh, Arup Kumar Mitra
Biotechnological applications extremophiles: the golden epoch ahead — 269

Suchetana Mukherjee, Usman Atique, Rashmi Mukherjee, Sukanya Chatterjee, Muhammad Altaf, Dwaipayan Sinha, Rahul Dey, Surhid Ranjan Dutta, Ayan Mondal, Shahana Chowdhury
Potential of extremophiles: a review of current research in nanoparticle synthesis — 289

Sreemanti Banerjee, Ruma Pal
Cyanobacteria in nanotechnology — 315

Maghimaa Mathanmohun, Nivedhitha Kabeerdass
Use of extremophiles in nanotechnology — 339

Madhulika Gupta
Contribution of cyanobacteria and microalgae as extremophiles in the field of biotechnology — 365

Subhasish Dutta, Joyani Bhattacharjee, Samayita Chakraborty
Exploring the potential extremophilic microbes for bioremediation — 383
