

## Review of Symbolic Logic

1. Scope
2. Submission of manuscripts
3. Electronic manuscripts
4. Layout of manuscripts
5. References
6. Illustrations
7. Proofreading
8. Offprints

### Scope

The Review of Symbolic Logic is designed to cultivate research on the borders of logic, philosophy, and the sciences, and to support substantive interactions between these disciplines. The journal welcomes submissions in any of the following areas, broadly construed:

The general study of logical systems and their semantics, including non-classical logics and algebraic logic;

Philosophical logic and formal epistemology, including interactions with decision theory and game theory;

The history, philosophy, and methodology of logic and mathematics, including the history of philosophy of logic and mathematics;

Applications of logic to the sciences, such as computer science, cognitive science, and linguistics; and logical results addressing foundational issues in the sciences.

The Review welcomes submissions in all these areas. (For information on how to submit papers, see Guidelines below.) The Review began publication in June 2008.

### Submission of manuscripts

Papers should be submitted to the Coordinating Editor, Professor Jeremy Avigad, at [rsl@uci.edu](mailto:rsl@uci.edu).

Electronic submission is encouraged: send e-mail with the paper attached in PDF or Postscript form. The body of the email should include the title of the paper, the authors, its length in pages, and a clear-text copy of the abstract. Any method of producing PDF or Postscript is fine, but LaTeX is recommended as it can also be used for typesetting the final paper; see below.

Alternatively, post two hard copies of the paper to the Coordinating Editor: Professor Jeremy Avigad, Coordinating Editor, Review of Symbolic Logic, Department of Philosophy, Baker Hall 135, Carnegie Mellon University, Pittsburgh, PA 15213, USA

### Electronic manuscripts

The publisher encourages submission of manuscripts written in LaTeX which can be used for direct typesetting. Authors using LaTeX should use the RSL LaTeX class file. This, along with related files, can be obtained using anonymous FTP from <ftp://ftp.cambridge.org/pub/texarchive/journals/latex/rsl-cls>. If you have difficulties obtaining these

files please contact [dtranah@cambridge.org](mailto:dtranah@cambridge.org) ; there is a help-line available via e-mail; please contact [texline@cup.cam.ac.uk](mailto:texline@cup.cam.ac.uk) . While use of the RSL LaTeX class file is preferred, plain LaTeX or TeX files can also be accepted.

### **Layout of manuscripts**

Manuscripts should begin with an abstract of not more than 300 words. Papers should conform to a good standard of English prose; please consult a style guide such as 'The Elements of Style' by Strunk and White, Macmillan, New York. It is encouraged to present programs in one of two styles: either with identifiers in italic and keywords in bold, or entirely in a fixed-width teletype font. Do not begin a sentence with a symbol or identifier name. Please supply Web URLs for the home page of each of the authors of the paper.

### **References**

The Harvard system of references should be used. Citations are by author's surname and year of publication, and may stand either as a noun phrase (e.g., "Curry (1933)") or as a parenthetical note (e.g., "(Curry 1933)"). List references at the end of the text in alphabetical order. A typical entry is: Curry, H.B. (1933) Apparent variables from the standpoint of mathematical logic, *Ann. of Math.*, **34** (2): 381-404.

### **Illustrations**

Figures should ideally be supplied electronically with captions embedded. Otherwise they must be drawn in indian ink on good quality white paper. Wherever possible they will be reproduced with the author's original lettering. Originals of figures should not be sent until the paper has been accepted. A list of captions for figures supplied as hardcopy should be attached separately.

### **Proofreading**

Only typographical or factual errors may be changed at the proof stage. The publisher reserves the right to charge for correction of non-typographical errors. No page charge is made. RSL policy is to follow the spelling convention (American or British) of the author(s).

### **Offprints**

No paper offprints are provided, but the corresponding author will be sent a link to the pdf of the published article.
