---

**Manuscript submission**

Authors should submit their manuscripts to "Journal of Ornithology" by e-mail to facilitate even quicker and more efficient processing, or in triplicate to the Editor-in-Chief or one of the Subject Editors (see Editorial Board).

**Editorial Office**

Franz Bairlein (Editor-in-Chief)  
Institute of Avian Research  
'Vogelwarte Helgoland'  
An der Vogelwarte 21

26386 Wilhelmshaven, Germany  
e-mail: franz.bairlein@ifv.terramare.de

## Legal requirements

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract, or as part of a published lecture, or thesis); that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities - tacitly or explicitly - at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

The "Copyright Transfer Statement" has to be signed and faxed to the publisher together with the corrected proofs (see below) with which it will be provided by the publisher shortly after the manuscript has been accepted for publication.

## Manuscript preparation

All manuscripts are subject to peer review and copy editing.

Manuscripts must be written in English and should be typed double-spaced throughout (including acknowledgements, references, tables, and figure legends) with at least 2.5 cm (1 inch) margins. Reviews should cover a topic of current interest.

Original articles and Short Notes must present scientific results that are essentially new and that have not been published or been submitted for publication elsewhere. They should be structured according to the guidelines given below.

Commentaries must concern papers previously published in this journal. They should not exceed 4 manuscript pages.

Use a normal, plain font (e.g., Times New Roman) for text.

Use the automatic page numbering function to number the pages.

Lines should be numbered consecutively through the entire text.

For indents use tab stops or other commands, not the space bar.

Abbreviations should be defined at first mention in the abstract and again in the main body of the text and used consistently thereafter.

Essential footnotes to the text should be numbered consecutively and placed at the bottom of the

- page to which they refer.  
Genus and species names should be in italics. The common names of animals should not be
- capitalized.

Please arrange your manuscript as follows:

Title page

- Including name(s) of author(s), a concise and informative title, affiliation(s) of the author(s), e-mail address, telephone and fax numbers of the corresponding author. The title of papers focusing on a particular species should include both the genus/species name and the common name.

Abstract (no more than 250 words)

■

3–5 keywords

■

Introduction

■

Methods

■

Results

■

Discussion

■

Acknowledgements

- Please include, at the end of the acknowledgements, a declaration that the experiments comply with the current laws of the country in which they were performed. The editors reserve the right to reject manuscripts that do not comply with this requirement. The author will be held responsible for false statements or for failure to fulfil the above-mentioned criteria.

References

- Literature citations in the text should indicate the author's surname with the year of publication in parentheses, e.g. Carlin (1992); Brooks and Carlin (1992). If there are more than two authors, only the first should be named, followed by "et al."

References at the end of the paper should be listed in alphabetical order by the first author's name. If there is more than one work by the same author or team of authors in the same year, a, b, etc. is added to the year both in the text and in the list of references.

\*Journal papers: name(s) and initial(s) of all authors; year; full title; journal title abbreviated in accordance with international practice; volume number; first and last page numbers

Example:

Ottich I, Dierschke V (2003) Exploitation of resources modulates stopover behaviour of passerine migrants. *J Ornithol* 144: 307-316

If available, the Digital Object Identifier (DOI) of the cited literature should be added at the end of the

reference in question.

Example:

Korner-Nievergelt F, Leisler B (2004) Morphological convergence in conifer-dwelling passerines. *J Ornithol* DOI 10.1007/s10336-004-0027-8

\*Single contributions in a book:

name(s) and initial(s) of all authors; year; title of article; editor(s); title of book; edition; volume number; publisher; place of publication; page numbers

Example:

Helbig A (2003) Evolution of bird migration. In: Berthold P, Gwinner E, Sonnenschein E (eds) *Avian Migration*. Springer, Berlin Heidelberg, pp 3-20

\*Book:

name and initial(s) of all authors; year; title; publisher; place of publication

Example:

Pinto-Correia C (2003) *Return of the Crazy Bird*. Springer, Berlin Heidelberg New York

## Tables and figures

Tables must be numbered consecutively with arabic numerals and submitted separately from the text. They should have a heading explaining any abbreviation used in that table. Footnotes to tables should be indicated by superscript lower-case letters.

Illustrations must be restricted to the minimum needed to clarify the text. All figures (photographs, graphs or diagrams) should be cited in the text, and numbered consecutively throughout. Figure parts should be identified by lower-case roman letters (a, b, etc.). If illustrations are supplied with uppercase labeling, lower-case letters will still be used in the figure legends and citations.

Figure legends must be brief, self-sufficient explanations of the illustrations. The legends should be placed at the end of the text. Submit all figures on separate sheets, each bearing the figure number and the author's names, and do not integrate them within the text.

Line drawings

- Inscriptions should be legible, with initial capital letters and appropriately scaled to the size of the drawing. Letters 2 mm high are recommended. Scanned line drawings should be digitized with a resolution of 800 dpi relative to the final figure size.

Computer drawings

- Computer drawings are acceptable provided they are of comparable quality to line drawings (minimum resolution of 300 dpi). Computer-drawn curves and lines must be smooth. Lettering must be of high

quality; Helvetica is the preferred font. Lettering fonts must be consistent within and among all figures.  
Halftone illustrations (black and white and color)

- Sharp, well-contrasted photographic prints trimmed at right angles and in the desired final size should be submitted. Magnification should be indicated by scale bars. For scanned halftone illustrations, a resolution of 300 dpi is usually sufficient, TIFF is the preferred file format.

Color illustrations

- Color figures will always be published in color in the online version. In print, however, they will only appear in color if the author agrees to make a contribution of Euro 950/US \$ 1,150 (plus VAT) per article. Otherwise the figures will be printed in black and white.

Save color illustrations as RGB (8 bits per channel) in TIFF format.

Plates

- Several figures or figure parts should be grouped in a plate on one page.

Vector graphics

- Fonts used in the vector graphics must be included. Please do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size. EPS is the preferred file format. EPS files must always contain a preview in TIFF of the figure.

Size of figures

- The figures, including legends, should either match the column width (86 mm) or the print area of 176 x 236 mm. In case reduction is absolutely necessary, please state the alternative scale desired. The publisher reserves the right to reduce or enlarge illustrations.

### **General information on data delivery**

Please send your data, preferably a zip file (text and illustrations in separate files, unencoded) to the Editor-in-Chief or one of the Subject Editors either:

by e-mail (only suitable for small file sizes)

or on any of the following media:

- - On a diskette [you may use .tar, .zip, .gzip (.gz), .sit, and compress (.Z)]
- On a ZIP cartridge
- On a CD-ROM

Please save your file in two different formats:

RTF (Rich Text Format) or Microsoft Word compatible formats

PDF (a single PDF file including text, tables and figures)

In case you have not sent electronic files of your manuscript together with the accepted version, you

should send your data, preferably a zip file (text and illustrations in separate files, unencoded) to Springer-Verlag either:

- Via ftp.springer.de (to our ftp.server; log-in "anonymous"; password: your e-mail address; further information in the readme file on the server)
- or by e-mail (only suitable for small volumes of data)
- 

Please always supply the following information with your data: journal title, manuscript number, operating system, word processing program, drawing program, image processing program, compression program.

The file name should be memorable (e.g., author name), have no more than 8 characters, and include no accents or special symbols. Use only the extensions that the program assigns automatically.

### **Electronic Supplementary Material**

Electronic Supplementary Material (ESM) for a paper will be published in the electronic edition of this journal provided the material is:

- submitted in electronic form together with the manuscript
- accepted after peer review
- 

ESM may consist of:

- information that cannot be printed: animations, video clips, sound recordings (use QuickTime, .avi, .mpeg, animated GIFs, or any other common file format)
- information that is more convenient in electronic form: sequences, spectral data, etc.
- large quantities of original data that relate to the paper, e.g. additional tables, large numbers of illustrations (color and black & white), etc.

Legends must be brief, self-sufficient explanations of the ESM. ESM is to be numbered and referred to as S1, S2, etc.

After acceptance for publication, ESM will be published as received from the author in the online version only. Reference will be given in the printed version.

### **Proofreading**

Authors are informed by e-mail that a temporary URL has been created from which they can obtain their proofs. Proofreading is the responsibility of the author. Authors should make their proof corrections (formal corrections only) on a printout of the pdf file supplied, checking that the text is complete and that all figures and tables are included. Substantial changes in content, e.g. new results, corrected values, title and authorship are not allowed without the approval of the responsible editor. In such a case please contact the Editorial Office before returning the proofs to the publisher. After online publication, corrections can only be made in exceptional cases and in the form of an Erratum, which will be hyperlinked to the paper.

### **Online First**

Papers will be published online about one week after receipt of the corrected proofs. Papers published online can already be cited by their DOI. After release of the printed version, the paper can also be cited by issue and page numbers.

### **Offprints**

Twenty-five offprints of each contribution are supplied free of charge. If you wish to order additional offprints you must return the order form which is provided with the proofs and return it together with the corrected proofs. When ordering additional offprints, an author is entitled to receive, upon request, a pdf file of the article for own personal use.

### **Springer Open Choice**

In addition to the traditional publication process, Springer now provides an alternative publishing option: Springer Open Choice (Springer's open access model). A Springer Open Choice article receives all the benefits of a regular article, but in addition is made freely available through Springer's online platform SpringerLink. To publish via Springer Open Choice upon acceptance of your manuscript, please click on the link below to complete the relevant order form and provide the required payment information. Payment must be received in full before free access publication.
