

## INFORMATION FOR CONTRIBUTORS

### EDITORIAL POLICY

The **Chiang Mai Journal of Science** is an English language peer-reviewed journal which is published 3 times a year in January, May and September by the Faculty of Science, Chiang Mai University. *Review Articles, Research Papers* and *Short Communications* in any area of science are welcomed for publication free of charge. Papers which have already been published in other journals or which are currently under consideration by other journals should not be submitted. Similarly, papers published here should not be submitted to other journals.

Personal views expressed by contributors in their articles are not necessarily those of the **Chiang Mai Journal of Science** or the Faculty of Science, Chiang Mai University.

### PREPARATION OF MANUSCRIPTS

Manuscripts submitted for publication will normally consist of the following sections: *Title, Authors Names and Addresses, Abstract (including Keywords), Introduction, Materials and Methods, Results and Discussion, Conclusions, Acknowledgements (if any), and References*. For format and general style, authors should refer to current issues (see also the Journal website) as a guide. Photographs, figures and line drawings should be of optimum quality. Colour photographs are acceptable where necessary but the extra costs involved in their reproduction must be borne by the author(s).

Only references actually cited in the main text should be included in the *References* section and should be cited in consecutive order. Manuscripts should be typed using double-spacing on one side of A4-sized paper with justified text. They should be typed as MSWord documents with tables and figures printed separately (and saved in separate files) from the main text. While no limitation is imposed on the number of pages, manuscripts should be as concise as possible. SI units of measurement should be used throughout.

*It is strongly recommended that, where appropriate, the paper should be proof-read by a native English speaker, or at least someone proficient in the English language, before being submitted so as to avoid the possibility of rejection on language rather than scientific grounds.*

### FORMAT FOR REFERENCES

#### Journals :

## **SUBMISSION PROCEDURE**

Manuscripts can be submitted either by post or by e-mail to the Editor and/or the appropriate Associate Editor at the following addresses:

Editor (or Associate Editor)  
Chiang Mai Journal of Science  
Faculty of Science  
Chiang Mai University  
Chiang Mai 50200  
THAILAND  
E-mails : See inside front cover

If submitted by post, three hardcopies of the manuscript (laser-printed) together with an electronic copy on a diskette or CD should be provided.

When submitting a paper, authors are also requested to *provide the names and addresses (including e-mail addresses if known) of at least two referees* whom the authors consider to be well qualified to review the paper. However, this is not meant to imply that the paper will be sent to these referees. This is simply a measure designed to avoid long delays in the review process in the event that other suitable referees are difficult to find.

## **REVIEW PROCEDURE**

Following receipt of the paper, the Editor will then send it to appointed referees for review and will make every effort to ensure that the review process is completed as quickly as possible. Manuscripts considered to be unsuitable for publication may not be returned to the authors but reasons for rejection will be given. In some cases, an article submitted as a *Research Paper* may be recommended for acceptance as a *Short Communication* instead (usually not exceeding 5 journal pages in length), especially where the work is of topical interest but is of limited scope and length.

Following acceptance, a formal letter of acceptance together with a copy of the paper as it will appear in the Journal (for final proof-reading) and a *Copyright Transfer Agreement* will be sent to the *Author for Correspondence*. The paper (indicating any final corrections) and the signed *Copyright Transfer Agreement* should be returned as soon as possible. Finally, following publication, one hardcopy of the Journal together with an electronic copy of the paper will be sent to the *Author for Correspondence* free of charge.

## **COVERAGE BY INDEXING SERVICES**

The Journal is covered by the following indexing services:

- **Science Citation Index Expanded (also known as SciSearch®)**
- **Journal Citation Reports / Science Edition**
- **Biological Abstracts**
- **BIOSIS Previews**
- **Chemical Abstracts**
- **SciFinder Scholar**
- **Zentralblatt für Mathematik**

## **JOURNAL WEBSITE**
