

1. Legal requirements

The author(s) guarantee(s) that the manuscript will not be published elsewhere in any language without the consent of the copyright owner, that the rights of third parties will not be violated, and that the publisher will not be held legally responsible should there be any claims for compensation.

Authors wishing to include figures or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Manuscripts must be accompanied by the "Copyright Transfer Statement". The form is regularly published in this journal or can be obtained from <http://link.springer.de/link/service/journals/00466/copyright.htm>.

2. Editorial procedure

Manuscripts should be submitted in English. Authors should submit their manuscripts either electronically as PDF-files or in triplicate together with three sets of illustrations to the Editor-in-Chief. Please be sure to include your e-mail address and your fax number.

Please do not transmit electronic data to the publisher until your manuscript has been reviewed and accepted for publication. Please follow the instructions below.

3. Manuscript preparation

General remarks

To help you prepare your manuscript, Springer offers a template that can be used

with Winword 7 (Windows 95), Winword 6 and Word for Macintosh. For details see point 4.

Manuscripts should normally not exceed 10 printed pages (appr. 40 double-spaced typewritten pages including figures, tables, illustrations, and the reference list).

All manuscripts are subject to copy editing.

Formulae and symbols. These must be written legibly and will be typeset in italics. They should be written or marked as such in the manuscript unless they require different styling. Please use correct designations for standardized DIN regulations.

Title page

- A concise and informative title
- The name(s) of the author(s)
- The affiliation(s) and address(es) of the author(s)
- The e-mail address, telephone and fax numbers of the communicating author

Abstract

Each paper must be preceded by an abstract presenting the most important results and conclusions in no more than 150 words.

References

The list of References should only include works that are cited in the text and that have been published or accepted for publication. Personal communications should only be mentioned in the text.

Citations in the text should be identified by *numbers in square brackets*, and the list of

references at the end of the paper should be both *alphabetized* under the first author's name and numbered. References by the same author or team of authors should be listed in chronological order. Here are a few examples for the style of references:

Examples:

Journal articles:

1. Grissom LE, Harcke HT (1997) Ultrasonography of nondevelopmental dysplasia of the hips. *Pediatr Radiol* 27: 70-74

Books:

2. Larcher W (1995) *Physiological plant ecology*, 3rd edn. Springer, Berlin Heidelberg New York

Multiauthor books:

3. Hovind HJ (1986) Traumatic birth injuries. In: Raimondi AJ, Choux M, Di Rocco C (eds) *Head injuries in the newborn and infant. (Principles of pediatric neurosurgery)* Springer, Berlin Heidelberg New York, pp 87-109

If available the Digital Object Identifier (DOI) of the cited literature should be added at the end of the reference in question.

Example: Dyall KG (1998) Relative and non-relative finite nucleus optimized double zeta basis sets for the elements. *Theor Chem Acc* 99: 366-371 DOI 10.1007/s002149800025

Illustrations and Tables

All figures (photographs, graphs or diagrams) and tables should be cited in the text, and each numbered consecutively throughout. The placement of figures and tables should be indicated in the left margin. For submission of figures in electronic form see below.

Line drawings. Please submit good-quality prints. The inscriptions should be clearly legible.

Half-tone illustrations (black and white and color). Please submit well-contrasted photographic prints with the top indicated on the back. *Magnification* should be indicated by *scale bars*.

Figure legends must be brief, self-sufficient explanations of the illustrations. The legends should be placed at the end of the text.

Desired type	Examples
roman	$E', \nabla, \int, \Pi, \Sigma, \text{div}, \text{ad}, \text{arg}, \text{Coker}, \cos, \cosh, \cot \text{ (or ctg)}, \text{coth}, \det, \dim, \text{exp}, \text{GL}, \text{hom}, \text{Im}, \text{Inf}, \text{ker}, \text{lim}, \text{inf}, \text{lim sup}, \ln, \log, \text{lub}, \text{max}, \text{min}, \text{mod}, \text{P}, \text{PL}, \text{Re}, \sin, \sinh, \text{SL}, \tan, \tanh, \text{tr}, \text{wr},$ all indices
bold roman	matrices of variable order (also column and line vectors), e.g. K, V, P , matrix of solution trials
bold italics	function fields C^K , vector fields R^N , Euclidian vectors, e.g. power vector F
<i>Mark-up code:</i>	
— <i>italics</i>	straight underline (in: text, tables, not in eqs.)
~~~~ <b>bold</b>	wavy underline (in: text, eqs., tables)
~~~~ <b>bold italics</b>	wavy and straight underline (in: text, eqs., tables)
○ roman	circle round (in eqs.)

For colour illustrations the authors will be expected to make a contribution (€ 485 or US \$ 534 (plus 16 % VAT) per article) towards the extra costs, irrespective of the number of color figures.

Tables should have a title and a legend explaining any abbreviation used in that table. Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).

4. Electronic submission of a manuscript

Please send only the final version of the article, as accepted by the editors.

Preparing your manuscript

Text. This journal accepts either LaTeX or Word documents.

LaTeX: The electronic version should include the original source (including all style files and figures) and a postscript version of the compiled submission.

Word: The Word template is available:

* via ftp:

Address: ftp.springer.de/

User ID: ftp

Password: your own e-mail address

– Directory: /pub/word

– file names: sv-journ.zip or sv-journ.doc and sv-journ.dot

* via browser:

– ftp://ftp.springer.de/pub/Word

– file names: sv-journ.zip or sv-journ.doc and sv-journ.dot

The zip file should be sent uuencoded.

Layout guidelines

1. Use a normal, plain font (e.g., Times Roman) for text.
Other style options:
– for textual emphasis use italic types.
– for special purposes, such as for mathematical vectors, use boldface type.
2. Use the automatic page numbering function to number the pages.
3. Do not use field functions.
4. For indents use tab stops or other commands, not the space bar.

5. Use the table functions of your word processing program, not spreadsheets, to make tables.
6. Use the equation editor of your word processing program or MathType for equations.
7. Place any figure legends or tables at the end of the manuscript.
8. Submit all figures as separate files and do not integrate them within the text.

Data formats

Save your work in two versions:

1. Word compatible Word 95/97
2. In RTF (Rich Text Format).

Illustrations

The preferred figure formats are EPS for vector graphics exported from a drawing program and TIFF for halftone illustrations. EPS files must always contain a preview in TIFF of the figure. The file name (one file for each figure) should include the figure number. Figure legends should be included in the text and not in the figure file.

- **Scan resolution:** Scanned line drawings should be digitized with a minimum resolution of 800 dpi relative to the final figure size. For digital halftones, 300 dpi is usually sufficient.
- **Color illustrations:** Store color illustrations as RGB (8 bits per channel) in TIFF format.
- **Vector graphics:** Fonts used in the vector graphics must be included. Please do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size.

General information on data delivery

Please send us a zip file (text and illustrations in separate files) either:

- * Via ftp.springer.de (to our ftp.server; log-in “anonymous” password: your e-mail address; further information in the readme file on the server)

* By e-mail (only suitable for small file sizes)

or on any of the following media:

- On a diskette [you may use .tar, .zip, .gzip (.gz), .sit, and compress (.Z)]
- On a ZIP cartridge
- On a CD-ROM

Please always supply the following information with your data: journal title, operating system, word processing program, drawing program, image processing program, compression program.

The file name should be memorable (e.g., author name), have no more than 8 characters, and include no accents or special symbols. Use only the extensions that the program assigns automatically.

4. Proofreading

Proofreading is the responsibility of the author. Corrections should be clear; Standard correction marks should be used. Corrections that lead to change in the page layout should be avoided.

The author is entitled to formal corrections only. Substantial changes in content, e.g. new results, corrected values, title and authorship are not allowed without the approval of the responsible editor. In such a case please contact the Editorial Office or the Editor-in-Chief before returning the proofs to the publisher.

5. Offprints

Offprints are available at cost price, provided the order form is returned together with the corrected page proofs.

When you order offprints, you are entitled to receive in addition a pdf-file of your article for your own personal use. The corresponding author will receive three complimentary copies.
