

Preparation of your paper

We welcome manuscripts written in T_EX and L_AT_EX, and can in most cases use the source files when publishing such papers. Authors wishing to use the *Springer L_AT_EX macro package SVJour* should obtain the relevant files from our ftp server (ftp.springer.de) in the directory ftp://ftp.springer.de/pub/tex/latex/svjour/prothe/

For any other information concerning the journal, please contact angela.schulze-thomin@springer.de

Specific problems concerning the macro package or suggestions should be transmitted by e-mail to texhelp@springer.de

Articles may be submitted to the Editor who is most closely concerned with the subject matter of the paper. Articles may also be submitted directly to the Managing Editor.

Authors should provide an e-mail address and/or fax number, as well as a full postal address.

Articles may be submitted electronically, preferably as *postscript* or *pdf* files. Authors are responsible for providing electronic files which may be viewed without undue difficulty.

Papers may be written in English, French, or German.

The **list of references** at the end of the paper should always be in alphabetical order and include the names and initials of all authors and the year of publication. Titles of journals and book series should be abbreviated in accordance with *Zentralblatt MATH* / *Compact MATH* (index volumes).

Please fill in the Copyright Transfer Statement overleaf and enclose it with your manuscript.

After you have carried out all final revisions and have been notified of acceptance, please send the electronic version of your paper via e-mail to: angela.schulze-thomin@springer.de or on diskette to:

Probability Theory
Journal Production (Mathematics)
Springer-Verlag
Tiergartenstrasse 17
D-69121 Heidelberg, Germany

Make sure that the final printed version of your paper is identical in content with the electronic version sent.

Normally only typesetting errors should be corrected in the page proofs.

A charge is made for extensive changes introduced after the paper has been typeset. No later corrections will be accepted electronically.

Fifty (50) **offprints** of each paper will be supplied free of charge. Additional offprints are available in lots of 100, provided the order form is received with the corrected proofs.

Final check

- ✓ All formula characters unambiguous?
- ✓ Names and complete affiliations of all authors provided on title page?
- ✓ Abstract enclosed?
- ✓ Running head provided?
- ✓ Beginning and end of theorem, lemma, etc. clearly identified?
- ✓ All figures enclosed on separate sheet?
- ✓ References styled consistently?
