

IEEE COMMUNICATIONS SOCIETY

The field of interest of the Communications Society consists of all telecommunications, including telephony, telegraphy, facsimile, and point-to-point television, by electromagnetic propagation, including radio; wire; aerial; underground, coaxial, and submarine cables; waveguides, communication satellites, and lasers; in marine aeronautical, space, and fixed station services; repeaters, radio relaying, signal storage, and regeneration; telecommunication error detection and correction; multiplexing and carrier techniques; communication switching systems; data communications; and communication theory. All members of the IEEE are eligible for membership in the Society upon payment of the annual Society membership fee of \$33.00. Members may receive this publication upon payment of an additional \$19.00 (electronic). Society members can subscribe to a Digital Library of Multiple Communications Society publications, including this one, for \$171.00 (three years of access) or \$266.00 (access from 1953). Please contact www.comsoc.org, www.ieee.org, or write to IEEE at the address below. *Member copies of Transactions/Journals* are for personal use only.
