

The journal publishes results of basic and applied research from all fields of horticulture. Original scientific papers, short communications and review articles are published in the journal. Papers are published in English. Manuscripts should have English and Czech abstracts (including keywords). The author is fully responsible for the originality of the paper and formal correctness. The paper must not be published previously elsewhere. The manuscript should not exceed 12 pages including tables, figures, references, abstracts and summary. The Board of Editors decides on the publication of papers, taking into account peer reviews, scientific importance, and manuscript quality. The SI international system of measurement units should be used. Two complete copies of manuscripts must be submitted. A properly labeled floppy disk with identical contents, including figures should be enclosed. Alternatively, the manuscript can be sent by e-mail as attachment.

Copyright. The journal is protected by copyright held by the publisher after the manuscript has been accepted for publication. As concerns the transfer of rights, the corresponding author takes over responsibility for all authors. No part of this publication may be reproduced, stored, or transmitted in any form or by any means, without the written permission of the publisher.

Manuscript layout. Standard size of paper (A4 format), type size 12 font, double-space lines, 2.5cm margins on each edge of the page. MS Word (version of Word used must be specified) should be used. Tables, graphs, and other material are to be submitted separately to the text. Each document should be printed, commencing on a separate sheet of paper, and its title and detailed description including the measurement units used should be indicated. Word editor should be used to create tables, for tables each item should be placed into a separate cell. Tables are to be numbered with Arabic numerals in the order in which they are referred to in the text. Graphs should be provided in Excel and they should be stored with original data (the font and type size should be consistent with the general journal format requirements to be incorporated in to the text). Autotypes (black and white ones are preferred) should be submitted in TIF or JPGE format. All graphs and photos should be numbered, continually according to the order in which they are included in the text, again using Arabic numerals. All other material should be submitted in digital form, in high resolution black and white format. Colored photos or maps may be published following agreement, but this will be at the authors' own cost. All material to be included in a paper should be referred to in the text. If any abbreviations are used in a paper, they shall be explained appropriately when they are used in the text for the first time. It is not advisable to use any abbreviations in the paper title or in the abstract.

Paper title should be short, not exceeding 85 characters. No subtitles shall be used.

Abstract is a short summary of the whole paper. It should describe all essential facts of a scientific paper. Keywords must be included. The abstract should not go to more than 170 words. The abstract is an important part of the paper because it is published and cited in world databases. Czech authors should submit the paper title and abstract with keywords in English and in Czech, too. Foreign authors can submit an English abstract only.

Introduction should outline the main reasons why the research was conducted, describe a brief review of literature consisting of refereed periodicals, journals and books, and the goal of the authors.

Material and Methods. All preliminary material, experiments conducted, their extent, conditions and course should be described in detail in this section. All original procedures that were used for the processing of experimental material and all analytical methods used for evaluation should also be detailed. Data verifying the quality of acquired data should be indicated for the used methods. The whole methodology is only to be described if it is an original one, in other cases it is sufficient to cite the author of the method and to mention any particular differences. Methods of statistical processing including the software used should also be listed in this section.

Results and Discussion. The results obtained from the experiments including their statistical evaluation and any commentary should be presented graphically or in tables in this section. The author should confront partial results with data published by other authors, whose names and year of publication are to be cited by including them in the text directly [NOVAK (2002)] or indirectly [(NOVAK, SIDLO 2002), (JAKL et al. 2002)].

References should be a list of refereed periodicals arranged in alphabetical order according to the surname of the first authors. The full title of all authors should be followed by the year of publication cited in brackets, the original title of the paper, the name of the periodical, the relevant volume and page number, in the case of a book or proceedings the title should be followed by the name of the publisher and the place of publication. Literary sources should be cited in the original language. Only papers cited in the text should be included in the list of references.

Examples: ZOHARY D., 1991. The wild genetic resources of cultivated lettuce (*Lactuca sativa* L.). *Euphytica*, 53: 31–35.
DOSTÁL J. (eds.), 1989. *Nová květena ČSSR*, 2. díl. Praha, Academia: 1112–1115.
LEVITT R.E.C., 1972. *Responses of Plants to Environmental Stresses*. New York, Academic Press: 250.

The Authors' Address. On a separate page the author should include his or her full name (co-authors' full names), including all academic, scientific and pedagogic titles and detailed address of the institution with postal code, phone and fax numbers and/or e-mail address. The author who is responsible for any correspondence with the journal should be clearly indicated.

Offprints: Every author will receive a free "electronic reprint" in Portable Document Format (pdf) sent via e-mail as an attachment. Free reprints are also available at <http://www.cazv.cz>.

Compliance with these instructions is obligatory for all authors. If a manuscript does not comply exactly with the above requirements, the editorial office will not accept it for a consideration and will return it to the authors without reviewing.
