Manuscript Preparation Format, and Style

Submit **two** manuscripts that are typed and double-spaced with page numbers, and at least 1" margins.

A computer disk that is IBM Windows compatible is essential.

All product trade names must be accompanied by the manufacturer, city, state, and country.

All doctors' names should be accompanied by their degrees and not by Dr.

Every manuscript should be accompanied by a title page that includes the author's name, academic degrees, and institutional affiliations. These institutional locations should be noted as well. The title page must also include disclosure of funding received for this work from any of the following organizations: National Institutes of Health (NIH); Wellcome Trust; Howard Hughes Medical Institute (HHMI); and other(s).

A mailing address should accompany the manuscript, whether it is the same or different than the institutional address.

List fax numbers and e-mail addresses of the principal author only for correspondence and reprint requests.

A second page should consist of an abstract which should be typed and double-spaced on a separate page.

Key words (four to eight) and not trade names should then be listed on the same page.

The manuscript text:

1. All legends, pertaining to figures, graphs, or tables, and all references should be keyed to the text.
2. All scientific or clinical research papers should have an introduction, materials and methods, discussion, and conclusion.
3. All clinically related and/or anecdotal articles should stipulate its own format in a manner that is conducive for the clinician to read and to apply to his/her own practice.
4. *References:* References must be accurate and must include the following format:

Less than four authors:

Amet REM, Ganz SD. Implant treatment planning using a patient acceptance prosthesis, radiographic record base, and surgical template. Part I: Presurgical phase. *Implant Dent* 1997;6:193-197.

More than three authors:

Haganman CR, Holmes DC, Aquilino SA, et al. Deflection and stress distribution in three different IMZ abutment designs. *J Prosthodont* 1997;6:110-121.

Journal articles in press:

Same format as above, but must state (In Press) as well.

Chapter of Book:

No complete book will be listed. Only chapters of books will be included.

Hickey JC, Zarb GA, Goldenter CL. Boucher's prosthodontic treatment for edentulous patients. 9th ed. St. Louis: CV Mosby, 1985:312-323.

5. *Tables:* Two copies of each table are required. Each table must be on a separate page with an explanatory legend. *These must be keyed to the text.*

6. *Illustrations:* All illustrations that accompany a manuscript must be submitted in duplicate. These must be no larger than 5 ? 7 inches unmounted, with clarity and contrast in color or black-and-white glossy. Acknowledgment or credit should be given to the illustrator.

7. *Radiographs:* All radiographs should be submitted in their original form and already cropped (wherever necessary) by the author. If they are transferred to a 35-mm slide, they must show the same clarity and contrast in black-and-white as the original radiograph. These will not be returned to the author.

8. *Photographs:* All photographs are to be submitted in duplicate in the form of 35-mm slides or glossy prints and must arrive cropped as wanted for publication. The use of color is limited and regulated. Authors might be sent color estimates at the Editors' and Publisher's discretion. Figures published in black and white are gratis. If the figures in sum total, or in part, have been those of another clinician, acknowledgments must be made accordingly.

Please Note:

1. Any copyrighted material or previously published material must be accompanied by a letter of permission from the copyright holder and first author. This applies to any data, text, tables, illustrations, photographs, or slides, even if modified from the original.

2. Authors must refrain from using articles to sell a particular trade name or product.

3. Patients' full faces are not allowed to be reproduced unless written consent forms accompany these photographs or slides. If permission of facial views is not obtained by the author, it is the author's responsibility to block out identifying features such as the eyes.

4. A copyright assignment form statement must accompany each manuscript in accordance with the Copyright Act of 1976: The undersigned author(s) transfer all copyright ownership of the manuscript (title of article) to Lippincott Williams & Wilkins in the event the work is published. The undersigned author(s) warrant(s) the article is original, does not infringe upon any copyright or other proprietary right of any third party, is not under consideration for publication by any other journal, and has not been published previously. The author(s) confirm that they have reviewed and approved the final version of the manuscript.

Compliance with NIH and Other Research Funding Agency Accessibility Requirements

A number of research funding agencies now require or request authors to submit the post-print (the article after peer review and acceptance but not the final published article) to a repository that is accessible online by all without charge. As a service to our authors, LWW will identify to the National Library of Medicine (NLM) articles that require deposit and will transmit the post-print of an article based on research funded in whole or in part by the National Institutes of Health, Wellcome Trust, Howard Hughes Medical Institute, or other funding agencies to PubMed Central. The revised Copyright Transfer Agreement provides the mechanism.
