

Instructions to Authors

Mathematical Research Letters publishes short complete papers, up to 20 journal pages, of original research in all areas of mathematics. Manuscripts that exceed 20 journal pages will not be considered. Expository papers and research announcements of exceptional interest are also occasionally published. Authors of research announcements may give the names of some mathematicians familiar with the details of their work and/or provide a detailed manuscript, if available.

All manuscripts must be submitted by email in electronic form as .pdf, .dvi, .ps or .tex files. Authors may submit manuscripts to any member of the [Editorial Board](#). An electronic copy of the paper should also be sent to the Editors-in-Chief at mrl@ucsd.edu. In most cases, a hard copy is not needed. When the paper is accepted, the authors must provide a source TeX file. (Latex2e is preferred, although other TeX formats are acceptable.) Authors will be asked to approve galley proofs posted online.

By submitting a manuscript for publication, authors acknowledge that the work is original and is not being submitted to another journal. When a paper is accepted for publication, authors transfer the copyright to International Press. However, they are permitted to reproduce their work for fair use, which should not include any profit making activity.

Authors will receive 50 free reprints of their articles. In the case of joint authors, the 50 reprints will be mailed to one of the authors. There are no page charges.
