

## INSTRUCTIONS TO AUTHORS

**Submission of manuscripts:** Four copies of the manuscript (including halftones and illustrations) together with a diskette or CD-ROM and one original copy should be sent to: John M. Pezzuto, Ph.D., Editor-in-Chief, Purdue University, Heine Pharmacy Building, Room 104, 575 Stadium Mall Drive, West Lafayette, IN 47907-2051, U.S.A. E-mail: [jpezzuto@purdue.edu](mailto:jpezzuto@purdue.edu)

Authors are strongly encouraged to submit manuscripts electronically, either via email or on disk. The files should be prepared using MS Word or WordPerfect and should be clearly labeled with the authors' names, file name, and software program. A hardcopy printout that exactly matches the disk must be supplied. Each manuscript must be accompanied by a statement that it has not been published elsewhere and that it has not been submitted simultaneously for publication elsewhere. Authors are responsible for obtaining permission to reproduce copyrighted material from other sources and are required to sign an agreement for the transfer of copyright to the publisher. All accepted manuscripts, artwork, and photographs become the property of the publisher.

All parts of the manuscript should be typewritten, double-spaced, with margins of at least one inch on all sides. Number manuscript pages consecutively throughout the paper. Authors should supply a shortened version of the title suitable for the running head, not exceeding 40 character spaces. Each article should be summarized in an abstract of not more than 250 words. Avoid abbreviations, diagrams, and direct reference to the text. The title page should contain the following elements: Title, author's names, affiliations, an abbreviated version of the title of no more than 40 characters (including spaces) for running heads, an abstract of about 250 words briefly summarizing the essential contents, a maximum of 10 keywords (in alphabetical order), the full address of the corresponding author in a footnote: phone, fax, postal address and e-mail address. The text may be divided into the following elements: Introduction, Materials and methods, Results, Discussion, Acknowledgements and References. The references of contributions to *Pharmaceutical Biology* should be listed in alphabetical order and by year on a separate page and formatted in the style as given on the website (<http://www.szp.swets.nl/szp/journals/pb.htm>). Journal titles should be abbreviated according to Chemical Abstracts Service Source Index (CASSI). All units of measurement should be given in metric or SI units. Botanical and chemical nomenclature should be consistent with Index Kewensis and Appendix IV of the Chemical Abstracts 1987 Index Guide, respectively. (Note that under this treatment trivial chemical names are acceptable where they will be commonly understood.) Trivial names for enzymes may be used but the provision of the Enzyme Commission number for the enzyme is strongly recommended. Similarly, the provision of the Chemical Abstracts registry numbers is encouraged. In all studies of plants or animals, specific identification should be made as to the material used, such as by citation of voucher specimens in herbarium or other collections, quoting name of collector, collection number (or date), place of collection, etc. Unless otherwise noted, it will be understood that such specimen(s) is/are to be found in the author's own collection or that of the institution at which the work was done. For non-English speakers: a native English speaker should read the article before submission.

Manuscripts will be considered for publications as full-length research papers, notes or reviews. Authors wishing to prepare a review on a special topic should contact the Editor prior to submission. As an exception, letters to the editor may be published when the situation warrants.

**Illustrations.** Illustrations submitted (line drawings, halftones, photos, photomicrographs, etc.) should be clean originals or digital files. Digital files are recommended for highest quality reproduction and should follow these guidelines:

- 300 dpi or higher
- sized to fit on journal page
- EPS, TIFF, or PSD format only
- submitted as separate files, not embedded in text files

Color illustrations will be considered for publication; however, the author will be required to bear the full cost involved in their printing and publication. The charge for the first page with color is \$900.00. The next three pages with color are \$450.00 each. A custom quote will be provided for color art totaling more than 4 journal pages. Good-quality color prints should be provided in their final size. The publisher has the right to refuse publication of color prints deemed unacceptable.

**Tables and Figures.** Tables and figures (illustrations) should not be embedded in the text, but should be included as separate sheets or files. A short descriptive title should appear above each table with a clear legend and any footnotes suitably identified below. All units must be included. Figures should be completely labeled, taking into account necessary size reduction. Captions should be typed, double-spaced, on a separate sheet. All original figures should be clearly marked in pencil on the reverse side with the number, author's name, and top edge indicated.

**Proofs.** Page proofs are sent to the designated author. They must be carefully checked and returned within 48 hours of receipt.

**Offprints.** The corresponding author of each article will receive one complete copy of the issue in which the article appears. Offprints or reprints of an individual article may be ordered from Taylor & Francis. A link to the ordering form is included at the proofs stage.
