The Protein Journal

Editor: M.Z. Atassi

ISSN: 1572-3887 (print version)

ISSN: 1573-4943 (electronic version)

Journal no. 10930

Springer US

1. Manuscripts should be sent to:

Dr. M. Z. Atassi  
Department of Biochemistry  
Baylor College of Medicine  
One Baylor Plaza  
Houston, Texas 77030

Tel: 713 798-6050  
Fax: 713 798-6437  
E-mail: [matassi@bcm.tmc.edu](mailto:matassi@bcm.tmc.edu)

2. Submission is a representation that the work has not been published previously and is not currently under consideration for publication elsewhere. It is also a representation, in the case of multiple authorship, that the communicating author has obtained approval of all the co-authors for submission of the manuscript.

The manuscript should be accompanied by a cover letter indicating that:

- (a) All co-authors have agreed to submit the manuscript to the journal.
- (b) The findings have not been published elsewhere.
- (c) The manuscript is not currently under consideration by another journal.

A statement transferring copyright from the authors (or their employers, if they hold the copyright) to Kluwer Academic/Plenum Publishing Corporation will be required before the manuscript can be accepted for publication. The Editor-in-Chief will supply the necessary forms for this transfer. Such a written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the U.S. Copyright Law in order for the publisher to carry through the dissemination of research results and reviews as widely and effectively as possible. Submit the original and two copies (including, where possible, copies of all illustrations and tables).

3. In general, the style of the manuscripts should follow the recommendations of the American Institute of Physics in its *Style Manual*. It is recommended that authors consult a recent issue of the journal before writing their manuscript. The Editors, upon accepting a manuscript, reserve the right to introduce the style changes consistent with the overall style of the journal.
4. Type is double-spaced.
5. Authors should indicate on the face sheet of their manuscript the name and address of the author to whom correspondence and proofs should be sent. To expedite communication, please give the **Fax number and E-mail address** of the corresponding author.
6. An abstract is to be provided, no longer than 150 words.

## Author Instructions Journal of Protein Chemistry

7. A list of 4–5 key words is to be provided directly below the abstract. Key words should express the precise content of the manuscript, as they are used for indexing purposes.
8. All abbreviations used should be defined in a footnote following the title page.
9. Footnotes should be numbered using a separate set of numerals and should be typed at the bottom of the page to which they refer. Place a line above the footnote, so that it is set off from the text. Use the appropriate superscript numeral without parentheses for citation in the text.
10. The manuscript should be divided into the following sections: 1. INTRODUCTION; 2. MATERIALS AND METHODS; 3. RESULTS; 4. DISCUSSION. It should be written concisely but in a manner that would enable repetition of the experiments by an interested investigator in the field. The Results and Discussion Sections may be combined, if it would improve presentation of the work. The pages should be numbered consecutively, starting with the face sheet and including the pages containing the References, tables and figure legends.
11. Citation of references in the text should be given in parentheses by author's name and year. Where there are three or more authors, only the first author's name is given in the text, followed by *et al.*, and year. List references alphabetically at the end of the paper as in the following examples.

### *Journal references:*

Bradford, M. M. (1976). *Anal. Biochem.* **72**, 248–254.

Antharavally, B. S., and DasGupta, B. R. (1997). *J. Protein Chem.* **16**, 787–799.

### *Book references:*

Colman, R. F. (1989). In *Protein Structure and Function: A Practical Approach* (Creighton, T. E., ed.), IRL Press, New York, pp. 77–99.

12. Illustrations (photographs, drawings, diagrams, and charts) are to be numbered in one consecutive series of Arabic numerals. The captions for illustrations should be typed on a separate sheet of paper. Photographs should be large, glossy prints, showing high contrast. Drawings should be prepared with India ink. Either the original drawings or good-quality photographic prints are acceptable. Identify figures on the back with author's name and number of the illustration. Reproduction of illustrations in color is possible by special arrangement, with the total cost, which is significant, borne by the author.
13. Tables should be numbered (with Roman numerals) and referred to by number in the text. Each table should be typed on a separate sheet of paper.
14. After a manuscript has been accepted for publication and after all revisions have been incorporated, manuscripts should be submitted to the Editor's Office as hard copy accompanied by electronic files on disk. Label the disk with identifying information – software, journal name, and first author's last name. **The disk must be the one from which the accompanying manuscript (finalized version) was printed out.** The Editor's Office cannot accept a disk without its accompanying, matching hard-copy manuscript.
15. **The Protein Journal makes no page charges.** Reprints are available to authors, and order forms with the current price schedule are sent with proofs.
16. **Springer Open Choice.** In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit [www.springeronline.com/openchoice](http://www.springeronline.com/openchoice) to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
