

1. Legal requirements

The author(s) guarantee(s) that the manuscript will not be published elsewhere in any language without the consent of the copyright owners, that the rights of third parties will not be violated, and that the publisher will not be held legally responsible should there be any claims for compensation.

Authors wishing to include figures or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Manuscripts must be accompanied by the "Copyright Transfer Statement". This form can be obtained from <http://link.springer.de/link/service/journals/449/>. Please see page A5 for details relating to copyright.

2. Editorial procedure

The journal publishes Original papers, Short communications and Mini-reviews. The length of the original paper should not exceed six, and of short communications not more than two printed pages (including figures and tables).

Manuscripts should be submitted online using the link on the journal's homepage or directly via <http://bpbse.manuscriptcentral.com> and following the on-screen instructions. The e-mail address and fax number of the corresponding author should be provided. Only when you have no access to the internet you may submit your manuscript by regular mail. It should be accompanied by a disk containing the electronic version (one file including text and figures), preferably in Word or rtf format. The manuscripts and the figures will not normally be returned, unless specifically requested by the authors.

The author is responsible for the accuracy of the references.

Authors will be notified promptly about the acceptance of their contribution. Only those contributions which conform to the following instructions can be accepted for publication.

3. Manuscript preparation

General remarks

To help you prepare your manuscript, Springer offers a template that can be used with Winword 7 (Windows 95), Winword 6 and Word for Macintosh. For details see point 4. All manuscripts are subject to copy editing.

Title page

- A concise and informative title
- The name(s) of the author(s)
- The affiliation(s) and address(es) of the author(s)
- The e-mail address, telephone and fax numbers of the corresponding author

Abstract

Each paper must be preceded by an abstract presenting the most important results and conclusions in no more than 150 words.

Key words

Three to five key words should be supplied after the Abstract for indexing purposes.

Formulae and symbols

Will be typeset in italics and should be written or marked for such in the manuscript, unless they

require a different styling, Please use correct designations for standardized DIN-regulations.

Abbreviations

Abbreviations should be defined when first mentioned in the abstract and again in the main body of the text and used consistently thereafter.

SI units must be used throughout.

Footnotes

Footnotes should be avoided.

Essential footnotes to the text should be numbered consecutively and placed at the bottom of the page to which they refer.

References

The list of References should only include works that are cited in the text and that have been published or accepted for publication. Personal communications should only be mentioned in the text. In the text, references should be cited consecutively by arabic numerals in square brackets. Book titles are given, but titles of journal articles are not. References should follow the examples given below:

Examples:

1. Riesenberg D, Guthke R (1999) High cell density cultivation (HCDC) of microorganisms. *Appl Microbiol Biotechnol* 51:422-430
2. Faber K (2000) Biotransformations in Organic Chemistry - A Textbook, 4th edn. Springer, Berlin Heidelberg New York
3. Mauch K, Vaseghi S, Reuss M (2000) Quantitative Analysis of Metabolic and Signaling Pathways in *Saccharomyces cerevisidie*. In Schügerl K, Bellgardt KH (eds) *Bioreaction Engineering*. Springer, Berlin Heidelberg New York, pp 435-477

If available the Digital Object Identifier (DOI) of the cited literature should be added at the end of the reference in question.

Example: Dyal KG (1998) Relative and non-relative finite nucleus optimized double zeta basis sets for the elements. *Theor Chem Acc* 99: 366-371 DOI 10.1007/s002149800025

References such as "personal communications" or "unpublished data" cannot be included in the reference list, but should be mentioned in the text in parentheses: this also applies to papers presented at meetings but not yet published or accepted for publication. A date should be given for both "personal communications" and "unpublished data". Papers which have been accepted for publication should be included in the list of references with the name of the journal and "in press".

Illustrations and Tables

All figures (photographs, graphs, diagrams or chemical structures) and tables should be cited in the text, and each numbered consecutively throughout. The placement of figures and tables should be indicated using the button of the template or marked in the left margin.

Figure parts should be identified by lower-case roman letters.

For submission of figures in electronic form see below.

Line drawings. Please submit good-quality prints. The inscriptions should be clearly legible.

Half-tone illustrations (black and white and color).

Please submit well-contrasted photographic prints with the top indicated on the back. *Magnification* should be indicated by *scale bars*.

Plates:

Several figures or figure parts should be grouped in a plate on one page.

Size of figures:

The figures should either match the width of the column (8,6 cm) or be 13,1 cm or 17,6 cm wide. The maximum length is 23,6 cm.

Figure legends must be brief, self-sufficient explanations of the illustrations. The legends should be placed at the end of the text.

Tables should have a title and a legend explaining any abbreviation used in that table. Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).

For *color illustrations* the authors will be expected to make a contribution (€ 485, US \$ 475, plus 16% VAT) towards the extra costs, irrespective of the number of color figures.

Computer listings

Submitted with the text should be printed on a high-quality printer on white unmarked paper. To avoid errors, computer listings should not be retyped.

Preparing your manuscript

Text

The template is available via ftp:

Address: [ftp.springs.de/](ftp://ftp.springs.de/)

User ID: ftp

Password: your own e-mail address

- Directory: /pub/Word/journals

- File names: *either* sv-journ.zip or sv-journ.doc *and* sv-journ.dot

via www:

-<http://www.springer.de/chem/authors/>

-<http://www.springer.de/chem/authors/>.

The zip file should be sent uuencoded.

Layout guidelines

1. Use a normal, plain font (e.g., Times Roman) for text.

Other style options:

- for textual emphasis use italic types.
- for special purposes, such as for mathematical vectors, use boldface type.

2. Use the automatic page numbering function to number the pages.
3. Do not use field functions.
4. For indents use tab stops or other commands, not the space bar.
5. Use the table functions of your word processing program, not spreadsheets, to make tables.
6. Use the equation editor of your word processing program or MathType for equations.
7. Place any figure legends or tables at the end of the manuscript.
8. Submit all figures as separate files and do not integrate them within the text.

Data formats

Save your file in two different formats:

1. RTF (Rich Text Format) or Microsoft Word Compatible formats
2. PDF (a single pdf file including text, tables and figures)

Illustrations

The preferred figure formats are EPS for vector graphics exported from a drawing program and TIFF for halftone illustrations. EPS files must always contain a preview in TIFF of the figure. The file name (one file for each figure) should include the figure number. Figure legends should be included in the text and not in the figure file.

- *Scan resolution:* Scanned line drawings should be digitized with a minimum resolution of 800 dpi relative to the final figure size. For digital halftones, 300 dpi is usually sufficient.

- *Color illustrations*: Store color illustrations as RGB (8 bits per channel) in TIFF format.
- *Vector graphics*: Fonts used in the vector graphics must be included. Please do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size.
- *Chemical Structures* should be submitted using ChemDraw or ISISDraw in the original file format as well as in eps format.

4. Electronic supplementary material

Electronic supplementary material (ESM) for an article printed in this journal will be published free of charge to subscribers on Springer's server <http://link.springer.de>. After acceptance by the journal's Editors the data will be supplied as received from the author.

In the printed article, full reference will be given to the ESM and vice versa.

ESM may consist of:

- Original data that relate to the paper, e.g. tables, additional illustrations (color and black/white), etc.
- Information that is more convenient in electronic form.
- Information that cannot be printed: animations, video clips, sound recordings.

For details of acceptable formats, consult <http://link.springer.de/link/service/journals/449/instr.htm>

5. Proofreading

Authors should make their proof corrections on a printout of the pdf file supplied, checking that the

text is complete and that all figures and tables are included. After online publication, further changes can only be made in the form of an Erratum, which will be hyperlinked to the article. **The author is entitled to formal corrections only. Substantial changes in content, e.g. new results, corrected values, title and authorship are not allowed without the approval of the responsible editor. In such a case please contact the Editorial office or the Editor-in-Chief before returning the proofs to the publisher.**

6. Offprints, Free copy

One complimentary copy is supplied. Orders for offprints can be placed by returning the order form with the corrected proofs.
