

## Information for Authors

The *Bulletin of the Brazilian Mathematical Society* is published four times a year. It contains papers in all areas of Mathematics. Selected expository surveys may also be published.

**Legal Requirements.** The author(s) guarantee(s) that the manuscript will not be published elsewhere in any language without the consent of the copyright owners, that the rights of third parties will not be violated, and that the publisher will not be held legally responsible should there be any claims for compensation.

Authors wishing to include figures or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Manuscripts must be accompanied by the "Copyright Transfer Statement". The form can be obtained from [springeronline.com/journal/11334](http://springeronline.com/journal/11334).

**Submission of Manuscripts.** Authors submitting a paper for publication should send a copy of it by e-mail, in attach file, in PS or PDF to the Chief Editor Prof. Jacob Palis, or to any member of the Editorial Board. Papers should be written preferably in English.

**Form of Manuscript.** Manuscripts submitted for publication should be prepared using an electronic text processing system, and printed double spaced on one side of the paper (see instructions at the end of this document concerning electronic submission). Page 1 should contain the article title, author and coauthor names, e-mail addresses and complete affiliation(s) (name of institution, city, state, zip code and country). Any footnotes to the title and acknowledgement of assistance or financial support should be placed at the bottom of page 1, and they should be numbered. Page 2 should contain a proposed running head (abbreviated form of the title) small enough to be printed on the top of each page. Manuscripts with more than one author should contain an indication of the author for contact.

**Footnotes, Pictures and Tables.** Footnotes should be avoided; if present, they should be numbered. Figures and Tables should also be numbered and they must be referred to in the paper by their number. The final art for camera ready proof of the pictures must be provided by the author, preferably in electronic format.

**Abstract, Keywords and Subject Classification.** The inclusion of an abstract is required. It should come at the beginning of the manuscript and should be 50-100 words long. The list of keywords should follow the abstract. Papers in French should

also include abstract and keywords in English. Also, the manuscript should contain the Mathematics Subject Classification (MSC). For detailed information on MSC visit [www.ams.org/msc](http://www.ams.org/msc).

**References.** The list of references must be in alphabetic-chronological order; abbreviations of names of journals and references to books should follow the standard form established by *Mathematical Reviews*. The following is a typical example:

[Po] Poincaré, H. *Sur une classe nouvelle de transcendentes uniformes*. J. de Math. 4<sup>e</sup> Sér. 6 (1890), 313–365.

**Proofs and Reprints.** Proofs will be sent to the author in charge of the contact in Adobe Acrobat format (.pdf). Fifty reprints will be provided, free of charge, to the authors. If additional reprints are required, send an e-mail to [bulletin@impa.br](mailto:bulletin@impa.br), as soon as your paper has been accepted for publication, so that additional reprints may be purchased.

**Electronic Submission.** Manuscripts may be submitted electronically to the *Bulletin* after the article has been accepted for publication and all revisions have been incorporated. A hardcopy, a postscript (.ps) or an Adobe Acrobat (.pdf) version of the manuscript, that matches the electronic version, must be supplied. Illustrations must be provided either in postscript or encapsulated postscript (.eps) format. Grayscale or color images should be provided using a postscript or a tiff format (.tif). Preferably the electronic version should be prepared using some  $\text{T}\text{E}\text{X}$  or  $\text{L}\text{A}\text{T}\text{E}\text{X}$  format, including  $\mathcal{A}\mathcal{M}\mathcal{S}\text{-T}\text{E}\text{X}$  and  $\mathcal{A}\mathcal{M}\mathcal{S}\text{-L}\text{A}\text{T}\text{E}\text{X}$ . We offer three options to submit the electronic files:

1. Send them attached on an e-mail to [bulletin@impa.br](mailto:bulletin@impa.br) (The sum of the size of all of the attached files should not exceed 2 Mbytes).
2. Save the files on a portable storage (floppy disk, zip disk, CD etc.) and send them by regular mail to:

IMPA – Instituto de Matemática Pura e Aplicada  
Bulletin of the Brazilian Mathematical Society  
Estrada Dona Castorina, 110  
22460-320, Rio de Janeiro, RJ  
Brazil

3. Transfer the file by anonymous ftp to [ftp.impa.br/bulletin/](ftp://ftp.impa.br/bulletin/). In this case the author should send a message to [bulletin@impa.br](mailto:bulletin@impa.br) communicating the transference of the files, and include the name of each file in this message.
