

AUTHOR INSTRUCTIONS

ATOMIZATION AND SPRAYS

DESCRIPTION OF PAPERS CONSIDERED FOR PUBLICATION: *Technical Papers* should specifically describe emerging techniques, such as the development or design of a new process, product or device, the definition of industrial standards or a collection of measurement data for round-robin and test cases comparing numerical simulations. Generally the submission should be limited to 30 double spaced pages, including all figures, tables and references.

Short Letters should specifically describe breakthroughs — particularly relevant new results. They should accelerate the dissemination and the priority of a particular discovery. Submissions should be limited to eight double-spaced pages, including figures, tables, and references. Short Letters will be processed through the editorial system more quickly than standard manuscripts.

GENERAL INSTRUCTIONS: Articles should be submitted through the Begell House Online Submission Program by registering on the website (<http://submission.begellhouse.com/>), and then navigate to the *Atomization and Sprays* submission site.

SUBMISSION INSTRUCTIONS: If you are a first-time user of our Submission Site, begin at <http://submission.begellhouse.com/>, click on *Journals* from the list of products, then click on the *New User* icon located at the top of the screen. Complete the registration form and then click the *Submit* button at the bottom left side of the form. Your completed form will be reviewed and an email confirmation will be sent to you within 24 hours (not including weekends). Please make sure you keep your username and password available for further use on the submission site. Please note logon information is case sensitive and must be entered how they were created. Although you will have the option to change your password you should never register again on the submission site.

If you have previously completed a registration form begin at http://submission.begellhouse.com/usr/login.html?prod_code=journals, enter your username and password and click on the *Login* button.

PREPARATION OF ELECTRONIC ARTICLE FILES:

- (1) Write in clear, concise English. The author is responsible for all aspects of article preparation. Extensive changes to the article will not be undertaken by the Editor or during the production process. Each manuscript must be accompanied by a statement that it has not been published elsewhere and that it has not been simultaneously submitted for publication elsewhere.
- (2) **ORIGINAL ARTICLES SUBMITTED**, for possible publication in *Atomization and Sprays*, should be in a single file that includes all figures and tables in single column text and be submitted as a PDF. Please use 12-point type and Times New Roman typeface for all text and figure captions. Please ensure that high quality figures and tables are provided and that any text that is an actual part of the figure be no less than 9-point type. Please remember that although your original submitted manuscript is required to be in PDF format for reviewing purposes, your accepted article must be provided to the publisher using your program files (see #4 below).
- (3) **REVISIONS:** After your article has been reviewed, the Editor will inform you if any revisions must be made before your article can be accepted for publication. If revisions are required you must upload your revised files onto the submission. After uploading your files onto the submission site please remember to click the Submit icon.
- (4) **ACCEPTED ARTICLE:** After your article has been accepted for publication, please provide your electronic files in the following format: 12-point type, on US Letter (preferred) or A4, double spaced with 1-inch margins all around. Times New Roman is the preferred typeface for text. Acceptable formats for text files are Microsoft Word (using .doc or .docx extension) or LaTeX. All pages should be numbered consecutively, centered at the bottom of each page. Your article should begin with the title information and end with pages containing references, tables, and figure legends. Figures must be submitted in either a separate file containing all figures or individual figure files. All figures must be labeled (example: 1, 2, 3, etc) clearly for proper placement within the text. Figures can be submitted in the following formats: tiff, jpeg, eps or similar program files. All files should be uploaded onto the submission site using your original username and password. If you have several files to upload you can combine all files into one ZIP file, when you upload the ZIP file the system will automatically extract the files. This process can only be done with ZIP. Although you can use other compressed software programs (such as RAR) to upload your files they will not automatically extract files. After uploading your files onto the submission site please remember to click the Submit icon.

LaTex File: *If you are providing your final approved article in LaTeX please follow all the above instructions, however, please also include a PDF file that is double spaced, no figures only figure captions at the end of the article.*

Accepted manuscripts are eligible for rapid online posting if a valid copyright form is received and nothing is missing, such as word or latex files, applicable figure files, permissions, key words, etc. Along with your program files we ask that you provide a PDF file that includes text, figures, and tables. This PDF which is the accepted uncorrected version of your article will be available on the Begell House Journal Home page, listed under "Forthcoming Articles." Posted articles will include DOI numbers so that papers can be cited and referenced immediately. Authors will receive notification from Begell House when the typeset proofs are available and when the final version is posted. Papers listed under Forthcoming Articles will be removed once the edited and final typeset version is completed and posted online under the appropriate Journal volume and issue.

- (5) **TRANSMITTAL AND COPYRIGHT FORM:** These forms can be found on the Begell House submission site when you upload your original manuscript files. Copyright forms can also be found at <http://submission.begellhouse.com/help/hub.html>. Each article submitted for publication must include a signed copyright form. All accepted articles, artwork, and photographs become the property of the publisher. We also require that you fill out a transmittal form. The transmittal form includes the following information: article title, short title for running heads, keywords (no more than 10 keywords), and all author names (include affiliation and e-mail addresses). Corresponding authors must include their complete mailing address, e-mail address, telephone number, and fax number.
- (6) **PERMISSIONS:** Authors are responsible for obtaining permission to reproduce copyrighted material from other sources and are required to sign an agreement for the transfer of copyright to the publisher. **ALL PERMISSIONS MUST BE INCLUDED WITH THE FINAL DRAFT OF YOUR ARTICLE.**
- (7) **DECLARATION OF ORIGINALITY:** Each article submitted must be accompanied by a statement that the article has not been published elsewhere and that it has not been simultaneously submitted for publication elsewhere. The original electronic files of drawings, photos and the article should be retained by the author until the conclusion of the publication process.
- (8) **ALL ARTICLES MUST INCLUDE THE FOLLOWING:**

Author Information: Senior authors full name, affiliation, and e-mail address. Corresponding authors complete mailing address and e-mail address. Co-authors' affiliation and email address.

Abstract: All articles must have an abstract not to exceed 250 words. Avoid abbreviations, diagrams, and reference to the text.

Key Words: All articles should have a list of key (indexing) terms. Three to ten key words or terms not in the title will assist indexers in cross-indexing your article.

Body: Group all tables, figures, and figure captions at the end of the article, following the references. Equations should be numbered sequentially. Use no more than two levels of headings. Number headings sequentially using numerals, as follows: level 1 headings 1., 2., 3., etc.; level 2 headings 1.1., 2.1., etc. For articles containing more than a few symbols, include a nomenclature list in alphabetical order, with Greek symbols (also in alphabetical order and with a separate heading) following the alphabetical listing in English. The nomenclature section should be placed after key words and before introduction. All articles must use SI units throughout; English units may be included parenthetically. Equations should not be provided as pictures, use programs such as MathType, Microsoft Equation, etc.

Figures: Prepare figures so that they do not exceed the size of the journal pages (size requirements can be obtained by emailing journals@begellhouse.com). Use only Arial and Symbol fonts for text within figures. Acceptable formats for figures are TIFF, JPEG, EPS, or similar program files saved from the original application at 300-600 dpi. Because of the loss of resolution, embedding figure files in MS Word is not recommended. The preferred format is TIFF; however, maintaining a clear quality of the figures is most important. Do not use gray rules, only black. If the text is printed over gray backgrounds for any reason, the gray must be at least 50% lighter than the text. If possible, avoid gray-scales entirely. In general, for best results, figures must be submitted at the highest possible quality. Figure captions should be typed, on a separate sheet. The author can submit color figures that appear in color online, but will print in black and white. Color reproduction of figures is possible at the author's expense, rates will be provided upon request. Please be sure to call out all figures in the text.

Tables: Tables should not be embedded in the text or provided as a picture, provide tables at the end of the article and be sure to call out the table in the text. A short descriptive title should appear above each table with a clear legend and any foot-notes suitably identified below. All units must be included.

Reference Format: Cite references in the text using the last name of the author(s) and the year of publication, either as "(Doe and Johnson, 1992)" or "Doe and Johnson (1992)." For more than two authors, use "(Doe et al., 1992)" or "Doe et al. (1992)." If any references contain identical authors and year of publication, cite in the form "Doe et al. (1992a)." Order the reference list alphabetically and format according to the following samples. Incorrectly formatted reference lists will be returned to the author for correction before acceptance.

AUTHOR PROOFS: Corresponding Authors will be notified by email when the typeset proof of their article is ready for them to review. Upon receipt of the email please logon to the submission site to review the proofs. After reviewing your Author Proofs you must return to the submission site to either approve your article as is or upload your corrections. If approving your article as is logon to the submission site, click on the article, click Submit, follow the prompts to the comment field, in the comment field indicate that you are approving the article as is, then click Submit. If you are providing corrections, logon to the submission site, click on the article, upload your corrections file, click Submit, follow the prompts to submit the article to the typesetter. Alterations made in proof should be absolutely minimal. The usual turnaround time for corrections is 48 hours (not including weekends).

OFFPRINTS: An order form for offprints, copies of issues, subscriptions, and orders for color figures will be sent to the corresponding author with the author proofs. Authors who wish to purchase any of the above should fill out the order form and return it with author's corrections. Corresponding authors are asked to provide their co-authors with the above information. Corresponding Authors will receive a complimentary PDF file of their article upon publication of the journal issue in which the article will appear. This PDF file is for your own personal use and should not be posted on any other websites or used for distribution.
