

Scope of the journal

The aim of International Journal of Clinical Pharmacy is to provide a medium for the publication of articles on clinical pharmacy and related practice-oriented subjects in the pharmaceutical sciences. The scope of the journal is clinical pharmacy, its research and its application in e.g. pharmaceutical care. The editors therefore welcome contributions on the above-mentioned topics and especially on the following:

- Pharmacotherapy and outcome research
- Clinical pharmacy
- Pharmacoepidemiology
- Pharmacoeconomics
- Pharmaceutical care
- Medicines and medical devices utilisation
- Medicines and medical devices information
- Pharmacy services research
- Medication management
- Other clinical aspects of pharmacy

The journal welcomes papers in the following categories: Review articles, Research articles, Case reports, Short research reports, Commentaries, and Letters to the Editor. All submissions (including Commentaries and, if necessary, Letters) will be peer-reviewed by experts. Until 2010 the journal was called Pharmacy World & Science.

Manuscript submission

International Journal of Clinical Pharmacy has a fully web-enabled manuscript submission and review system. This system offers authors the option of tracking the review process of their manuscripts in real time. The online manuscript and review system offers easy and straightforward log-in and submission procedures. It supports a wide range of submission file formats, including Word, WordPerfect, RTF, TXT and LaTeX for article text and TIFF, EPS, PS, GIF, JPEG and PPT for figures. PDF manuscripts cannot be accepted.

All Manuscripts should be submitted through: www.editorialmanager.com/IJCP. Please register as a user before submitting the first manuscript to us.

NOTE: It is NOT necessary to submit the manuscript also in print or on disk. In case you encounter any difficulties while submitting your manuscript online, please get in touch with the responsible Editorial Assistant by clicking on 'CONTACT US' from the toolbar.

Electronic figures

Electronic versions of your figures must be supplied. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures - 600-1200 dpi; photographs - 300 dpi; screen dumps - leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier, and Helvetica.

Cover letter & Submission statement

Please describe the article type of your submission (see 'Article types' below) and the reason why International Journal of Clinical Pharmacy should publish your article in your cover letter. This letter should also contain a submission statement with a sentence that the paper has not been submitted elsewhere in similar form, and should state that all authors have contributed significantly to the publication. There should also be a statement concerning the fact that all authors are aware of the submission and agree with it.

Additionally we expect all authors' details in the cover letter, as well as the number of words of the article, of the abstract, and of the references. Please do not insert author details in the manuscript itself.

Language

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language and improve the chances of the manuscript being accepted by the reviewers.

What happens after submission?

You will receive an acknowledgement of receipt of the submission. The paper will be checked for adherence to the instructions and the editorial policy of the journal. If approved, the submission will be sent to reviewers. The review procedure should be finished in approx. 6 weeks, but may sometimes take up to 3 months. You will then receive information about acceptance, needed revisions or rejection of your submission. Unless otherwise stated in the cover letter, the corresponding author will be regarded as the author for correspondence and proofs. You can follow the progress of the reviewing process on line in Editorial Manager.

Once your paper is accepted for publication, you will receive an edited version electronically for proofreading. The authors are responsible for checking and correcting the proofs. The main author will receive 25 offprints free of charge of the article within 8 weeks after its publication. More offprints can be ordered, at additional costs, when returning the proofs to the publisher. Consent to publish forms should be signed by the corresponding author and returned to Springer prior to publication. The copyright will be established in the name of Springer.

Manuscript presentation

The journal's language is English. British English is preferred but American English spelling and terminology may be used. Either one should be followed consistently throughout the article. Manuscripts should be prepared for A4 paper. Double spacing of abstract and main body of the article is appreciated.

Title

The title of your manuscript should not be longer than 120 characters.

Abstract & keywords

When submitting in Editorial Manager, you are requested to enter the authors (with their first name) and their affiliations, the abstract, and the key words of your publication separately. Therefore there is no need to include abstract, nor keywords in the manuscript.

Impact of findings on practice statements

Please submit, with the abstract, 2-5 bulleted statements on the impact of the research findings on daily pharmacy or clinical practice. Note that this is not the same as abbreviated conclusions. Please attach these statements to the abstract of your paper.

Authors

Author names should not appear in the manuscript. International Journal of Clinical Pharmacy allows for a maximum of eight authors. We expect the first author in the author list to be the 'real' author, and the last author to be the supervisor. Either can be corresponding author.

Quotations

Quotations of more than 40 words should be set off clearly, by indenting the left-hand margin. Use double quotation marks for direct quotations and single quotation marks for quotations within quotations and for words or phrases used in a special sense. Number the pages consecutively.

Article types & requirements

Reviews

Review articles should not exceed 3000 words, excluding abstract and references. Reviews should be structured as follows: Introduction, Aim of the review, Method, Results, Discussion and Conclusion. Please provide a structured abstract of max. 350 words with the headings: Background, Aim of the Review, Method, Results, and Conclusion.

Research articles

Research articles should not exceed 3000 words, excluding tables, figures, abstract, or references. Research articles should be structured as follows: Introduction, Aim of the study, Method, Results, Discussion, and Conclusion. Please provide a structured abstract of max. 350 words with the headings: Background, Objective, Setting, Method, Main outcome measure, Results, Conclusion. Articles describing qualitative research may be 4000 words in length.

Short research reports

Short research reports give the preliminary or limited results of original research. Short research reports should not exceed 1500 words, excluding abstract and a maximum of 10 references. They may only contain 2 tables or figures, and should be structured like a research article. Please provide a structured abstract of max. 200 words with the headings: Background, Objective, Method, Results, Conclusion.

Case reports

Case reports should not exceed 1500 words excluding abstract, but including a maximum of 10 references, and may only contain 1 table or figure. Case reports should be structured as follows: Introduction, Case description, Discussion, Conclusion. Please provide a structured abstract of max. 150 words with the headings: Case (description) and Conclusion.

Commentaries

Commentaries should not exceed 2000 words, including a maximum of 20 references. They may only contain 2 tables or figures. An unstructured abstract of max. 150 words is required.

Letters

Letters should not exceed 1000 words, including a maximum of 5 references. Letters may contain a maximum of 1 table or figure. No abstract required.

Abbreviations

Abbreviations should be explained upon first occurrence. Do not use abbreviations in the abstract.

Symbols and units

Please use the recommended SI units.

Section headings

First-, second-, third-, and fourth-order headings should be clearly distinguishable but not numbered.

Appendices

Supplementary material (like the questionnaire used or very large tables) should be collected in an

Appendix and placed after the Reference section.

Notes

Please use footnotes sparingly. Footnotes should be indicated by means of superscript marks (*, #, \$) in the text and listed at the bottom of the appropriate page.

Acknowledgements

Acknowledgements should be placed in a separate section after the conclusion. If external funding has been obtained for the study, then this should be mentioned under a separate header 'Funding', after the acknowledgements.

Conflict of interests

Conflicts of interest (also if none) should be stated in a separate section before the References.

References

In the text, a reference is identified by means of a superscript number that should be placed at the end of a sentence before the punctuation. Please use cross-referencing if the same reference is used more than once.

References to books, journal articles, articles in collections and conference or workshop proceedings, and technical reports should be listed at the end of the article in numbered order according to the Vancouver style (abbreviations of journal names according to Index Medicus). Articles in preparation or articles submitted for publication, unpublished observations, personal communications, etc. should not be included in the reference list but should only be mentioned in the article text (e.g., T. Moore, personal communication). Use a maximum of 6 names (authors, editors) plus 'et al.'

For the Vancouver format see: International Committee of Medical Journal Editors (ICMJE). Uniform Requirements for Manuscripts Submitted to Biomedical Journals: Writing and editing for biomedical publication [document on the Internet]. ICMJE; 2003 [updated 2004 Oct; cited 2005 Apr 14]. Available from: <http://www.icmje.org/>.

Figures

All photographs, graphs and diagrams should be referred to as a 'Figure' and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labelled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and note its approximate location as 'Insert Fig... here' in the text. Please place the figures and legends in the manuscript on a new page after the references.

Tables

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without abbreviations) to each table, refer to the table in the text and note its approximate location as 'Insert Table... here' in the text. Finally, please place the tables after the figures at the end of the manuscript.

Page charges and colour figures

No page charges are levied on authors or their institutions except for colour pages. The author will be contacted regarding costs and invoicing if the manuscript includes colour figures.

Copyright

Authors will be asked, upon acceptance of an article, to transfer copyright of the article to the Publisher. This will ensure the widest possible dissemination of information under copyright laws.

Permissions

It is the responsibility of the author to obtain written permission for a quotation from unpublished material, or for all quotations in excess of 250 words in one extract or 500 words in total from any work still in copyright, and for the reprinting of figures, tables or poems from unpublished or copyrighted material.

Springer Open Choice

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular 'subscription-based' article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springer.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will be published as regular subscription-model articles. We regret that Springer Open Choice cannot be offered for published articles.
