

## Information for Authors

*SCIENCE CHINA Mathematics*, a peer-reviewed mathematical journal cosponsored by the Chinese Academy of Sciences and the National Natural Science Foundation of China, and published by Science China Press and Springer, is committed to publishing high-quality, original results in both basic and applied research.

*SCIENCE CHINA Mathematics* is published monthly in both print and electronic forms. It is indexed by Science Citation Index (SCI), Chemical Abstracts Service, Current Contents Connect, CompuMath Citation Index, Inspec, Zentralblatt Math (Z Math), Aquatic Sciences & Fisheries Abstracts (ASFA), Current Mathematical Publications (CMP), MathSciNet, etc.

Categories of articles:

**Reviews** summarize representative results and achievements in a particular topic or an area, comment on the current state of research, and advise on the research directions. The author's own opinion and related discussion are requested.

**Research papers** report on important original results in all areas of mathematics.

**Brief reports** present short reports in a timely manner of the latest important results.

## How to submit

To submit a manuscript, please visit the website of Science China Press at [math.scichina.com](http://math.scichina.com), click the button "Online submission", and use the Academic Journal Management System. For a new user, please register an "Author Account", and then submit a manuscript following the guidance.

Please introduce the research background, innovation and scientific value of your work, as well as your latest publications in a cover letter when submitting. The detailed contact information of the first author and corresponding author is required (please promptly inform the editorial office of any change of contacting addresses). The authors may recommend 3–8 qualified reviewers and/or request the exclusion of specific reviewers. An informative cover letter is considered helpful for editors and reviewers to make evaluation of your paper.

Duplicate submission is forbidden. In this case, we will inform the author's institution and the relevant journal.

Poor English expression of a submitted manuscript may lead to the final rejection.

File format: single columned, A4 size, 10 pt, single spaced, word or pdf file, with figures and tables inserted in the text.

## Reviewing policy

All submissions will be reviewed by referees selected by the editorial board. The decision of acceptance or rejection of a manuscript is made by the editorial board based on the referees' reports. The entire review

process may take 60 to 90 days, and the editorial office will inform the author of the decision as soon as the process is completed.

## Authorship

Authorship should be limited to those who have contributed substantially to the work, and every author has responsibility for the data and argument mentioned in the paper. The corresponding author must have obtained permission from all authors for the submission of each version of the paper and for any change in authorship.

## Copyright

A completed form assigning copyright to Science China Press must be returned to the office of *SCIENCE CHINA Mathematics* when the paper is accepted for publication. The copyright covers the exclusive right to reproduce and distribute the article (in various languages), including reprints, translations, photographic reproductions, microform, electronic form (offline, online) or other reproductions of similar nature. The Copyright Transfer Statement is available at [www.scichina.com](http://www.scichina.com)

## After acceptance

For the paper with a great breakthrough result, quick publication will be arranged. After typesetting, electronic proof is sent to the corresponding author for checking. The proof plus any minor corrections must be returned to the managing editor within 36 hours. Failure to do this will result in delays in publication. Corrections can be noticed in different ways: 1) highlight the corrections and send us the print proof pages; 2) fax us the corrections; 3) highlight the corrections and send us the corrected page proof as email attachment.

## After publication

Authors will be presented one sample copy and 30 offprints. If more reprints and sample copies are required, please contact the managing editor and pay the extra fee. The full text in English opens free to the readers in China at [www.scichina.com](http://www.scichina.com) or [math.scichina.com](http://math.scichina.com), and the full text in English is available to overseas readers at [www.springerlink.com](http://www.springerlink.com)

## Publication charge

For English manuscripts, only the color page charge is required.

## Contact

Editorial Office of *Sci China Math*  
Science China Press  
No. 16, Dong-huang-cheng-gen North Street  
Beijing 100717, China  
Tel: 8610-64016232

Fax: 8610-64036350  
Email: mathematics@scichina.org

## Manuscript format

Contributions are required of a concise, focused account of the findings and reliable essential data. They should be well organized and written clearly and simply, avoiding exhaustive tables and figures. Authors are advised to use internationally agreed nomenclature, express all measurements in SI units, and quote all the relevant references.

**Title:** Titles must be limited to no more than 20 words, and should be concise, indexable, and informative for a broad scientific audience. Authors should avoid using colons, questions, nonstandard abbreviations, etc. in titles.

**Author(s):** Authorship should be limited to those who have contributed substantially to the work.

The order of the authors listed should be agreed by all the coauthors, and every author should have the responsibility for the published content.

Family names are written in upper case. The email address of the corresponding author is required.

**Author affiliation:** Affiliation should be the institution where the work was done. Complete addresses are required with post codes.

**Abstract:** An abstract is a summary of the content of the manuscript. It should briefly describe the research purpose, method, result and conclusion. The extremely professional terms, special signals, figures, tables, chemical structural formula, and equations should be avoided, and citation of references is not allowed.

**Keywords:** A list of three to eight keywords should follow the abstract. The chosen keywords are required to reflect the theme of a manuscript.

**Text:** A paper should begin with a brief introduction of the significance of the author's research. Nomenclature, signal and abbreviation should be defined at their initial appearance. All the figures and tables should be numbered in numerical order.

**Introduction:** Being the most important part of an article, the introduction introduces the relevant research background and the progress in 2 or 3 years, with references cited in numerical order, then presents the problem to be solved in this article, and finally briefly describes the method adopted in this work. Before the end, the aim of the work should be mentioned. Subtitle is forbidden in this part, and introduction of the article structure is considered unnecessary.

**Figures and tables:** Figures and tables should be numerically numbered, inserted in the text, and cited in order within the text. The figures should have resolution not lower than 600 dpi and clear lines of 5 px, with signals and letters in Times New Roman at 8 pt. A space should always be maintained between the variable and the unit.

**Equations:** An equation is numerically numbered (Arabic numeral), and has the number put on its right side.

**Acknowledgements:** The author expresses his/her thanks to the people helping with this work, and acknowledges the valuable suggestions from the peer reviewers. Financial support also appears in this part, with grant number(s) following. The full title of each fund is required.

**References:** Reference is regarded as an important indicator of the paper's quality. If the relevant references, especially the results published in 2 to 3 years are not cited in the paper, or most citations are from the author's publications, the editor will consider this paper unattractive. References should be numerically numbered and cited in order within the text, with the numbers expressed in square brackets. The author should carefully check the author names, article title, journal title, year, and volume number of references, and create the listing according to the format of *Sci China Math*.

## Reference format

1. For an author's name, full spelling of family name appears before abbreviation of given name, with a spacing in the middle.
2. If there are more than 3 authors, the first 3 names are followed by et al.
3. The article title should be identified by an initial capital letter with the remainder of the title in lowercase.
4. For correct abbreviations of journal titles, refer to ISO, e.g., *Chin Sci Bull* for *Chinese Science Bulletin*, *Sci China Math* for *SCIENCE CHINA Mathematics*.
5. For books and proceedings, the initial letter is capitalized for all the notional words and for function words with more than 4 letters.
6. Do not forget to list the editor names of the proceedings, the publisher, the publishing address, and the beginning and terminating pages.
7. All the cited references are listed after the text. Accepted but unpublished reference should be indicated with "in press".
8. Websites or homepages cannot be cited as references.
