

Journal of Environmental Protection and Ecology- JEPE of B.EN.A.
(www.jepe.gr)

Call for papers
Rapid Publication Journal

The International Board of B.EN.A. has decided that from the 1st of January, 2009 the publications of papers in JEPE will cost **50 EURO per each paper**. The payment of 50 EURO will be made in advance (before the submission of the paper), either during the Symposia/ Conferences, or in the bank account of B.EN.A. (see below the convenient addresses):

BENA account in Greece:

IBAN: GR71014071607160021101037169

SWIFT CODE: CRBAGRAAXXX

Address: ALPHA BANK, Ampelokipi Branch, 29 Alexander the Great Str.,
56121 Ampelokipi, Thessaloniki, Greece.

BENA account in Romania:

CONT IBAN: RO33 BUCU 013567662511EU01 (for Euro) or

CONT IBAN: RO49 BUCU 013567662511RO02 (ROL)

ALPHA BANK, Sucursala Unirii, Blvd. Unirii 62, Sector 3, cod 030834 Bucuresti, Romania.

INSTRUCTIONS FOR AUTHORS

The language of the Journal is exclusively English. Contributions will be considered only if they have not been previously published or been submitted elsewhere.

Authors are requested to submit manuscripts in duplicate, typewritten using double spacing and ca. 60 characters per line and 30 lines per page. Receipt of a contribution for consideration will be acknowledged immediately by the Editorial Office. The acknowledgement will indicate the paper reference number assigned to the contribution. Authors are particularly asked to quote this number on all subsequent correspondence.

ORGANISATION

The title page should include the title, authors and their affiliations, complete address of the author to whom correspondence should be sent and an Abstract.

Abstract – should not exceed 200 words and should give the subjects and conclusions of the article and all results of general interest. References and compound numbers should not be mentioned in the Abstract. A maximum of five keywords should follow the Abstract.

Aims – should include brief and clear remarks outlining the specific purpose of the work.

Background – a short summary of the background material including numbered references.

Experimental – should be sufficiently detailed (but concise) to guarantee reproducibility.

Results and Discussions – should indicate the logic used for the interpretation of data without lengthy speculations. Authors submitting material on purely theoretical problems or on a new experimental technique might unite the sections Experimental, Results and Discussions into one section under the heading Discussion.

Conclusions – short summary of the main achievements of the research.

References – should be typed on a separate sheet and numbered in the order of first cited in the text. They should be indicated by superscript Arabic numerical in the text. Abbreviations of journal titles should follow the style used in Chemical Abstracts Service Source Index, 1970 edition and supplements. Sequence and punctuation of references should be:

1. F.K. VOSNIAKOS, K.S. FARMAKIS: Radioactive Releases from Nuclear and Thermoelectric Power Plant Operation and Their Effect to the Environment of Northern Greece. *Journal of Environmental Protection and Ecology*, **1** (2), 255 (2000).
2. E.P. PAPANIKOLAOU, P. KRITIDIS: Contamination of the Agricultural Land of Greece with Cs-137 and Its Effect on Crops. In: Intern. Conf. on Radioactivity in the Mediterranean Areas, Barcelona, May 1988, 457-466.
3. K. TASCHNER: Environmental Management and Audit Scheme. EEB Industry Handbook (Eds C.Key, K. Tashner). Brussels, Belgium, 1998.

In preparing the list of References attention must be drawn to the following points:

a) Names of all authors of cited publications should be given. Use of 'et al.' in the list of references is not acceptable;

b) Only the initials of first and middle names should be given.

Tables – each bearing a brief title and typed on a separate sheet, should be numbered in Arabic numerals. The tables should be placed after the list of references.

Figures and captions – Should be grouped together at the end of the manuscript with figures numbered consecutively and captions typed on a separate sheet. Figures (graphs) should be marked by pencil on the margin or at the back with the name of the first author and the beginning of the title.

Particular attention is drawn to the use of SI Units, IUPAC nomenclature for compounds and standard methods of literature citation.

Manuscripts (without figures) should not exceed 6 typewritten pages.

ELECTRONIC SUBMISSION OF MANUSCRIPTS

Manuscripts should be submitted in electronic form. Submission not in electronics form may face a delay in publication. The disc should accompany the manuscript. The version on the disc must exactly match the version of the hardcopy. It is essential that the name and the version of the word-processing package, type of computer on which the text was prepared and format of the files are clearly indicated.

All text (including the title page, abstract, keywords, all sections of the manuscript, figures captions, and references) and tabular material should be in one file, with the complete text first, followed by the tabular material. The manuscript must be prepared using MS Word 6.0 and above.

Chemical equations must be supplied using equation editor. Tables must be created using table format feature.

Graphics, i.e. figures, schemes, etc. should be in separate file. The file name should be descriptive for the graphic. Structures and schemes may be supplied in ChemWindow format and other graphics as .TIF format at a resolution of 300 dpi.

The authors submitting contributions for publications in Journal of Environmental Protection and Ecology by E-mail must obligatory send those as paper copy (in duplicate with disc) to the Editorial Office. Otherwise they will not proceed for publication.

SUBMISSION OF MANUSCRIPTS

Manuscripts should be sent to the following address:

Prof.Dr. Fokion K. Vosniakos

Alexander Technological Educational Institution, P.O. Box 141, 57400-Sindos, Thessaloniki, GREECE

E-mail: bena@gen.teithe.gr <http://www.gen.teithe.gr/~bena>

All manuscripts are subject to critical review and the names of references will be not disclosed to the authors. The manuscript sent back to the author for revision should be returned within 2 months in duplicate. Otherwise it will be considered withdrawn. Revised manuscripts are generally sent back to the original references for comments, unless (in case of minor revisions) the editors accept them without seeking further opinions. Proofs should be corrected and returned as soon as possible because the paper will not be released fro printing without the author's proof.
