

# LASER & PHOTONICS REVIEWS

## Instructions to Authors

### 1. GENERAL

Manuscripts should be submitted on invitation of the Editor or the Editorial Board.

Only original papers that have not been published elsewhere or have been submitted simultaneously to another journal will be considered.

Language of publication is English.

### 2. MANUSCRIPT SUBMISSION

*Laser & Photonics Reviews* operates the online submission and peer-review system ScholarOne Manuscripts that allows authors to submit articles online and track their progress via a web interface.

All papers must be submitted via the online system.

Manuscripts which are clearly inappropriate for the journal can be rejected without consulting referees.

Please read the remainder of these instructions and then visit <http://mc.manuscriptcentral.com/lpr> to navigate to the *Laser & Photonics Reviews* online submission site.

#### Using the Online Submission System

\* Go to <http://mc.manuscriptcentral.com/lpr>.

\* If you use the system for the first time, you need to click on the "Create Account" link.

**IMPORTANT:** Please check whether you already have an account in the system before trying to create a new one. If you have reviewed or authored for the journal in the past you will have had an account created. If you have forgotten your login details, enter your email address under "Password Help" on the Log In screen. You will receive an automatically generated Email, providing you with the details to access your personal site (login and password).

\* Once logged in, please click on "Authoring Center" and let the system guide you through the submission process. Online help is available at all times. It will be

possible to exit and re-enter the system without losing any information at any stage of the submission process. All submissions are kept strictly confidential.

\* Authors can follow the progress of their manuscripts on their personal site: All manuscripts of the authors submitted to and all review reports written for *Laser & Photonics Reviews* are archived here. This author site should also be used to upload the revised and final versions of manuscripts.

\* Note that when multiple files are uploaded ("Main Document" and "Image"), the system generates a single PDF file.

All queries regarding manuscripts or the online submission process should be addressed to the journal's Editorial Office:

*Editorial Office LPR*  
*Wiley-VCH Verlag GmbH & Co. KGaA*  
*Rotherstrasse 21*  
*10245 Berlin, Germany*  
*Phone: ++49-(0)30-47 03 13 21*  
*Fax: ++49-(0)30-47 03 13 99*  
*E-mail: [laser@wiley-vch.de](mailto:laser@wiley-vch.de)*

#### Initial Submission

**File types:** Only electronic files conforming to the journal's guidelines will be accepted. Preferred formats for the text and tables of your manuscript are Word DOC, RTF, XLS. LaTeX files are also accepted. Authors may use the LPR LaTeX style sheets to format their manuscript. Figures should be provided in TIFF or EPS format.

**Non-LaTeX users:** Text and tables (if included in the text) should be uploaded as "Main Document" on the File Upload screen. Graphics, including the graphic abstract for the table of contents, should be uploaded separately.

**LaTeX users:** For reviewing purposes, authors should submit a single PDF generated from the source files. At this stage, further source files are not required.

## Reviewing

All contributions will be evaluated according to the standard procedures of peer review, usually by two referees. To facilitate the refereeing process, please **provide the names and email addresses of at least four referees** capable of reviewing your manuscript. Please make sure that the suggested referees are not too closely related to your own publications.

## Revised Manuscripts

Revised manuscripts must be uploaded within 2 weeks (for minor revisions) or 4 weeks (for major revisions) of authors being notified of conditional acceptance pending satisfactory revision.

→ Please note that when uploading a revised version of your files you need to delete the previous version first.

**Text and tables** need to be uploaded as a single Word DOC or RTF file. Upload this file as "Main Document". Tables should be preferably on separate pages after the reference list, and not be incorporated into the main text.

**Figures** should preferably be submitted in full color, but should also be easily readable on a black/white printout. They need to be uploaded as separate files in a graphic format such as TIFF, EPS or JPG with a resolution of 300 dpi or higher (see 'Artwork'). For graphic files choose the designation "Image" on the File Upload screen in ScholarOne Manuscripts.

**LaTeX users:** Revisions must still be uploaded as a single PDF generated from the revised source files. Please use the File Designation "Main Document" from the dropdown box. In addition please upload your TeX source files. For all source files the File Designation "Supplemental Material not for review" must be used. Previous versions of uploaded documents must be deleted. If the manuscript is accepted for publication the uploaded files will be used to typeset the article within a totally digital workflow.

## Supporting Information

Authors may also submit Supporting Information, for example videos or animations. The author bears full responsibility for the content of the Supporting Information. Color and animated multimedia applications are welcome and published online at no cost to the author or reader. In general, the contents of the Supporting Information should be mentioned shortly in the article, e.g. as a footnote.

Please use suitable compression technology to avoid exceedingly large movie files (>10 MB) for the benefit of referees' and readers' bandwidth and storage

capacity. Also, please make sure that your movies are saved in a common format (such as MPEG, AVI, QuickTime, GIF) that can be played on at least two different computer platforms (out of Windows/MacOS/Linux).

Please choose the File Designation "Supplemental Material for review" on the File Upload screen.

## 3. FORMAT AND STYLE

The manuscript should contain the following elements:

- Full title (up to 150 characters)
- Names and addresses of all authors
- Full address, including email, telephone and fax, of the corresponding author
- Abstract (up to 150 words)
- Eye-catching abstract figure and short legend
- Short title inclusive author names (A. Firstauthorname, B. Secondauthorname, and C. Thirdauthorname: Short title)
- Key words (at least four, up to eight key words)
- Main text
- Short CV (max. 500 characters) and photo of each author
- List of references (numbered in the order of appearance in the text)

Please use one of the standard fonts Times, Helvetica, or Courier. Some fonts (e.g. Asian or Russian character fonts) may cause problems and should be avoided.

Please include the name(s) of any **sponsor(s)** of the research contained in the paper, along with **grant number(s)**.

## Equations

Equations may be numbered sequentially. Except for small in-line equations, they should appear on separate lines.

In the text, equations may be referred to by writing "... in Eq. (1)". At the beginning of a sentence, use the full form "Equation (1) shows ...".

## Artwork

Figures must be carefully prepared and submitted ready for reproduction. Upload each figure as a separate file in either TIFF or EPS format. Compound figures e.g. 1a, b, c should be uploaded as one figure. Tints are not acceptable.

Please make sure to use only standard fonts (Arial, Times, Symbol) or include the fonts in the figure file. Lettering and symbols should be clear and large

enough in the final figure size (the typical width of a figure in the journal is about 6 cm; smallest letters should not be smaller than 1.5 mm).

Avoid small open symbols, small dots, small decimal points, hairlines, close-dotted or short-dashed lines. Draw a closed axes frame in diagrams with the axis titles (quantity followed by the unit in brackets) parallel to the corresponding axis, outside the frame. For numbers, use a decimal point instead of a comma.

All figures must be supplied at the correct resolution:

- Black and white and color photos: 300 dpi
- Graphs, drawings, etc: 800 dpi preferred; 600 dpi minimum
- Combinations of photos and drawings (black and white and color): 500 dpi

**Color figures** will generally remain in color in the online PDF version of an article at no cost. The print version will be black/white unless color figures are purchased using the color print authorization on the Reprint Order form, when returning proof corrections.

**Tables** must be on separate pages after the reference list, and not be incorporated into the main text. If the table is created in excel the file should be uploaded separately.

In the text, the figures or tables are referred to as "... in Fig./Table 1" or as "Figure/Table 1 shows ...".

## References

References should be numbered (in square brackets, such as [1, 2] or [1-3] and listed in the order of citations in the text at the end of the manuscript. Please apply the format used in *Laser & Photonics Reviews* for journal article and book citations.

→ Please give the names of all authors.

### Journals:

The preferred citation scheme for journals is: Initials. Surnames, Journal Title (according to the INSPEC List of Journal abbreviations) **Vol. No.** (in bold face), pages (year of publication in brackets), e.g.:

- [1] S. Calvez, J. E. Hastie, M. Guina, O. G. Okhotnikov, and M. D. Dawson, *Laser & Photon. Rev.* **3**, 407-434 (2009).
- [2] M. A. Short, H. Lui, D. I. McLean, H. Zeng, and M. X. Chen, *Proc. SPIE* **6093**, 60930E/1-60930E/6 (2006).
- [3] C. A. Lieber and A. Mahadevan-Jansen, *Opt. Exp.* **15**, 11874-11882 (2007).

When citing conference proceedings, please add all available data such as title, date, and place of the conference as well as publisher, place, and year of publi-

cation or, alternatively, the corresponding journal information, e.g.:

- [4] B. J. Ansell, in: *Proceedings of the 4th International Conference on Nitride Semiconductors*, Denver, Colorado, USA, 16-20 July 2001, Part B.1.
- [5] V. Piatnitsa, D. Kholodnyak, P. Kapitanova, I. Fischuk, T. Tick, J. Jantti, H. Jantunen, and I. Vendik, in: *Proceedings of the 37th European Microwave Conference*, Munich, Germany, October 2007, pp. 636-639.

### Books:

For books, the following order is required (skip irrelevant information): Authors of Article or Chapter, in: Book Authors or Editor[s] (ed[s].), Book Title, edited by Editors, Book Series Vol. No. (Publisher, Place, Year), Chap. No., p./pp. page numbers, e.g.:

- [6] P. Deak, Th. Frauenheim, and M. R. Pederson (eds.), *Computer Simulation of Materials at Atomic Level* (Wiley-VCH, Berlin, 2000), p. 89.
- [7] H. Ibach, *Electron Energy Loss Spectrometers: The Technology of High Performance*, Springer Series in Optical Sciences Vol. 63 (Springer, Berlin, 1990), chap. 5.

### Miscellaneous:

- [8] A. Studentname, PhD thesis, University of Newcastle (UK), 1991.

## Further Requirements

**Ethics:** In cases where a study involves the use of live animals or human subjects, authors must include in the appropriate section of the manuscript a statement that all experiments were performed in compliance with the relevant laws and institutional guidelines in accordance with the ethical standards of the Declaration of Helsinki. The institutional committees that have approved the experiments must be named.

Authors must also include a statement that informed consent was obtained for any experimentation with human subjects.

For more information see also:

[www.euchems.org/binaries/Ethicalguidelines\\_tcm23-54057.pdf](http://www.euchems.org/binaries/Ethicalguidelines_tcm23-54057.pdf)

**Conflict of interest:** The Publisher requests that authors provide a statement of any conflicts of interest. The statement of declared interests will be published at the end of the article. Conflict of interest for a given manuscript exists when a participant in the peer review and publication process - author, reviewer, or editor - has ties to activities that could inappropriately influence his or her judgment, whether or not judgment is in fact affected. Financial relationships with industry (i.e. through employment, consultancies, stock ownership, honoraria, expert testimony), either

directly or through immediate family, are usually considered to be the most important conflicts of interest. However, conflicts can occur for other reasons, such as personal relationships, academic competition, and intellectual passion.

For more information see also [www.icmje.org/index.html](http://www.icmje.org/index.html)

#### 4. PROOF CORRECTION

Prior to publication, authors will receive page proofs by e-mail in PDF format. Authors should keep in mind that reading proofs is their responsibility. Corrections should therefore be clear and unambiguous. Corrections listed in an electronic file should be sorted by line numbers. The use of standard proof correction marks is recommended. LaTeX files are sometimes slightly modified by the production department to follow the general presentation rules of the journal. The main aim of proofreading is to correct errors that may have occurred during the production process, and not to modify the content of the paper. The reproduction of art work, the layout of the pages and breaks in equations introduced by the production staff should carefully be checked. Corrections that may lead to a change in the page layout should be avoided. Note that sending back a corrected manuscript file is of **no use**. Please correct your galley proofs and return them within **5 working days**.

#### 5. REPRINTS

The corresponding author will receive a PDF file (300dpi) for 50 printouts of his contribution free of charge. Hardcopy reprints (at least 50 copies), or a PDF file for an unlimited number of printouts are available for purchase. Reprints of your article and journal copies can be ordered at any time before and after publication. Reprints will be delivered in full colour (regardless of black/white printing in the journal) and with colour cover (either standard or individually customised with abstract or a selected figure). The order form can be downloaded here:

[www.lpr-journal.org](http://www.lpr-journal.org) → For Authors

#### 6. COVER PICTURE

*Laser & Photonics Reviews* provides the possibility to have your article featured on the journal's cover page with an illustrative and eye-catching figure which graphically represents the essence of your contribution.

If your picture is chosen, it will be featured in the Table of Contents first place. We would provide you with a high-resolution PDF file of the cover page.

For this individual service we would have to ask you to cover part of the production costs. They will amount to 1,395 Euro incl. VAT. Note, however, that the number of interested contributors usually exceeds that of available cover pages. So we cannot guarantee that your article will be chosen.

#### 7. COPYRIGHT AND PERMISSIONS

To enable the publisher to disseminate the author's work to the fullest extent, the author must sign a **Copyright Transfer Agreement** (Download: <http://www.wiley.com/go/ctavchglobal>), transferring copyright in the article from the author to the publisher, and submit the signed agreement with the article presented for publication.

If the manuscript contains extracts, including illustrations, from other copyright works (including material from online or intranet sources), it is the author's responsibility to obtain written permission from the owners of the publishing rights to reproduce such extracts. The **Permission request** form can be downloaded from the journal homepage [www.lpr-journal.org](http://www.lpr-journal.org) → For Authors).

The Copyright Transfer Agreement and any permissions should be uploaded as "Supplementary files not for review" with the online submission of your article.

If you do not have access to a scanner, you may send the signed Copyright Transfer Agreement by mail or fax to the editorial office:

*Editorial Office LPR*  
WILEY-VCH Verlag GmbH & Co. KGaA  
Rotherstrasse 21  
10245 Berlin, Germany  
Fax: ++49-(0)30-47 03 13 99  
E-mail: [laser@wiley-vch.de](mailto:laser@wiley-vch.de)
