Selecting the Right Issue for Your Manuscript

The screenshot displays the website for the Journal of the Korean Physical Society. At the top, there is a navigation bar with three tabs: "The Korean Physical Society", "KPS Journals", and "Editorial Board". Below this, a sidebar on the left contains a menu with categories: "Home" (with links for "More Highlights" and "News and Announcements"), "Journal" (with links for "Current Issue", "Past Issues", "Standard Search", "Advanced Search", and "About JKPS"), "Author" (with links for "New Submission", "Status of the Paper", "My Information", and "Certificate"), "Referees", "Editors", and "Guide to the Authors" (with links for "Author's Manual", "Templates for Authors", "TeX (eps,ps)", "TeX (png,jpg)", "Word (with figures)", and "Word (no figure)").

The main content area is titled "New submission" and is divided into two sections. The first section, "Regular Edition", features a thumbnail image of the journal cover on the left and the text "Regular Edition" in the center, with a sub-link "Submission : Open all the time". The second section, "Special Edition", is a table with two columns: "No images." and "No Editions."

Copyright © 2009 KPS. All rights reserved.

- Thank you very much for choosing the Journal of the Korean Physical Society to publish your valuable research work.
- Please be careful to select the right edition for your manuscript. At times, there may be several “Special Editions” simultaneously accepting contributions for each specific topical conference. If you are not related with any topical conference, please choose “Regular Edition”.

- This is the log-in window for the on-line submission of your manuscript, after selecting a specific issue.
- If you are a new user to the JKPS, then please type in your working e-mail id through the entry box at the lower half of the window. An e-mail including a password will be sent back to you immediately.
- Once you received your password, use your working e-mail id and password to log in.
- If you are a registered user, then you may use your old e-mail id and password.

Conversion to a PDF File

Check PDF file

PDF conversion

- Please check the converted PDF file and press "SUBMIT" button if the conversion was successful and found no problems in PDF file.
- You can return to the previous page if the conversion was not successful. You may get hints by reading the log file how to solve the problems arose during the conversion process.

Uploaded Files	1D_MI_Fluctuation.tex Fig1.eps Fig2.eps Fig3.eps Fig4.eps
PDF File	Temp-0007.pdf [PDF log file]

Pressing the "SUBMIT" button will place the manuscript into the review request queue. Note the submission cannot be "un-done" after this stage.

I have check the PDF file, and found no problems :

SUBMIT

I found problems in PDF file, and want to upload files again :

BACK

- Once in this page, the web system will attempt to produce a pdf file encompassing all the uploaded files. When the conversion to the pdf file is over, make sure to check the integrity of the file.
- From time to time, the conversion may fail to work. Before starting all over, try to refresh by going to the previous page and coming back.
- If submitted in a condition less than the JKPS's typographical standard, the manuscript may be returned to authors with no Manuscript Number, which is a prerequisite for the review process.

After Manuscript Submission

Title	Atomic-scale Phase Coexistence and Fluctuation at the quasi-1D Metal-Insulator Transition
abstract	Scanning tunneling microscopy of a quasi one-dimensional (1D) metal-insulator transition in In nanowire arrays on the Si(111) surface reveals unprecedented details in transition dynamics. The transition proceeds in microscopic first-order, namely, domain-by-domain conversion in nano scale from the metallic phase to the insulating one or vice versa. The coexistence of both phases is attributed to the influence of defects. Below the transition temperature, condensation and fluctuation of 1D charge density waves (CDW) are observed within isolated metallic domains, as well as at the domain boundaries. Appearance of such isolated condensates suggests strong intra-wire coupling, a manifestation of 1D nature of the critical fluctuation. The origin of the first-order transition is attributed to the interwire coupling.
Cover Letter	[Text] Dear Editor: we are submitting our work on the newly discovered quasar, No. ADE-4325, which represents a new class of quasars. Our analysis of the astronomical data succinctly show that this is indeed the case and we believe this gives a wake-up call for the search for the new quasars [Files] No files.

- This is the last screen authors will see after the manuscript submission in the previous page.
- This page is for your information only, and you may now log out.
- If the submitted manuscript meets the proof-reading standard of the JKPS, then you will be sent an e-mail with a unique Manuscript Number.
- Once the Manuscript Number is issued, the manuscript is formally under the review process. At this point, the withdrawal is the only option to cancel the process.
- In order to check on the status of your manuscript, you can log back in to the system anytime.

Checking Status of the Manuscript(s)

Current status of the paper(s)

Articles Under Review	Concluded Articles
-----------------------	--------------------

You can submit revised manuscript only if the current status of the article is "Waiting for a revision".
If you find red messages in "Current status column", manuscript code number will not be given until you follow the red links and finish the required actions as indicated.
You may check the history of the article by clicking the title of article.

Manuscript number	Received date	Title of the article	Current Status
		Trapping-Mediated Chemisorption of Ethylene on Si(001)-c(4 × 2)	Not submit yet Resubmit
IK1007-0007	2007-10-30	Fluctuating Behavior of One-dimensional Charge Density Waves at Critical Temperature	Under review
IK1007-0011	2007-11-05	Title of Your Manuscript Here	Revised manuscript submission Resubmit

This indicates your manuscript did not meet the editorial standard of JKPS and was not accepted into the review process. Resubmit after correction.

This indicates that revision is necessary for your manuscript.

- You may check on the status of your manuscripts by logging back in.
- You will see the list of all manuscripts still under review, which have been submitted by you as a corresponding author.
- If you need more specific information on the manuscript, click on the title of a manuscript, and the details will be shown.

Submission of Revised Manuscript

- To resubmit, log in and click on the “Resubmit” button on the first window.

Manuscript number	Received date	Title of the article	Current Status
IK1007-0011	2007-11-05	Title of Your Manuscript Here	Revised manuscript submission Resubmit

Click to submit your revised manuscript.

- In response to your click, you will see a window similar to the initial submission one, except for the following one. This is where you can type in or upload your response to referees' comments.
