

BIOLOGIA

Biologia

Established in 1946, Biologia publishes high-quality research papers in the fields of high-quality research papers in the fields of microbial, plant and animal sciences.

- Microbial sciences papers span all aspects of Bacteria, Archaea and microbial Eucarya including biochemistry, cellular and molecular biology, genomics, proteomics and bioinformatics.
- Plant sciences topics include fundamental research in taxonomy, geobotany, genetics and all fields of experimental botany including cellular, whole-plant and community physiology.
- Zoology coverage includes animal systematics and taxonomy, morphology, ecology and physiology from cellular to molecular level.

Full-paper contributions should present original experimental, methodological or theoretical research. Review articles are preferably by invitation, but unsolicited reviews are equally welcome.

Biologia also publishes short and preliminary communications of outstanding scientific importance.

Coverage Includes:

- Microbial sciences,
- Plant sciences,
- Animal sciences.

Abstracted / Indexed in:

- Academic OneFile,
- Biological Abstracts,
- BIOSIS,
- CAB Abstracts,
- CAB International,
- Chemical Abstracts Service (CAS),
- CSA,
- Current Contents/ Agriculture, Biology & Environmental Sciences,
- EMBiology,
- Gale,
- GeoRef,
- Global Health,
- Google Scholar,
- IBIDS,
- INIS Atomindex,
- International Bibliography of Periodical Literature (IBZ),
- Journal Citation Reports/Science Edition,
- OCLC,
- Science Citation Index Expanded (SciSearch),
- SCOPUS,
- Summon by Serial Solutions,
- Zoological Record.

How to Submit?

Manuscripts should be submitted by email:

Section Botany:

igor.mistrik@savba.sk

Section Zoology:

biologia.zoo@savba.sk

Section Cellular and Molecular Biology:

biologia.c@savba.sk

Journal Homepage:
