

An international journal of physiology produced jointly by the International Union of Physiological Sciences and the American Physiological Society

Editor-in-Chief Gary C. Sieck, Rochester, MN
Associate Editors Pamela Lucchesi, Columbus, OH
 Carlos B. Mantilla, Rochester, MN
Consulting Editor Michael Joyner, Rochester, MN

Editorial Board
 David Allen, Sydney, Australia
 Hannah Carey, Madison, WI
 Hsaio Chang Chan, Hong Kong, China
 Roger M. Enoka, Boulder, CO
 Jeffrey Fredberg, Boston, MA
 Joey Granger, Jackson, MS
 Gaby Haddad, La Jolla, CA
 Rolf Hubmayr, Rochester, MN
 Amira Klip, Toronto, Canada
 Siqi Liu, Beijing, China
 Benedito H. Machado, Ribeirão Preto, Brazil
 Asrar B. Malik, Chicago, IL
 Virginia Miller, Rochester, MN
 Heini Murer, Zurich, Switzerland
 Ole Petersen, Cardiff, UK
 Nanduri Prabhakar, Chicago, IL
 Jane Reckelhoff, Jackson, MS
 Michael Spyer, London, UK
 Merryn Tawhai, Auckland, New Zealand
 Tobias Wang, Aarhus, Denmark

Editorial Coordinators
 April L. Larson
 Shirley Kingsley-Berg

APS Publications Office
 Rita Scheman, Director of Publications
 Sean Boyer, Journal Copy Editor

IUPS/APS Joint Managing Board
 Kim E. Barrett, Chair
 Peter Hunter
 Hershel Raff
 Tobias Wang

Physiology (ISSN 1548-9213; ESN 1548-9221) is published bimonthly (one volume per year) by the International Union of Physiological Sciences and the American Physiological Society. Subscription Prices (U.S. dollars): For information on the APS tiered model for institutional print and online pricing, please see <http://www.the-aps.org/publications/subs>. Nonmember individual print only, \$270 U.S., \$280 Canada and Mexico, \$280 elsewhere; nonmember individual print and online, \$285 U.S., \$300 Canada and Mexico, \$300 elsewhere; nonmember individual online only, \$220; members of IUPS-affiliated societies print and online, \$90, postpaid. Subscriptions are accepted on a calendar year basis only. Single Copies, Back Issues: when available \$35 each subscriber, \$65 each nonsubscriber, postpaid. Copyright © 2014 by the International Union of Physiological Sciences and the American Physiological Society. Printed in the United States of America. The code at the bottom of the first page of an article indicates copyright owner's consent that copies may be made beyond that permitted by sections 107 and 108 of the U.S. Copyright Law—unless the copies are for general distribution, advertising, creating new works, or resale—provided the percopy fee is paid through the Copyright Clearance Center, Inc., 222 Rosewood Dr., Danvers, MA 01923. 1548-9213/14 \$8.00. Change of Address: The journal must be advised of a change of address at least 6 weeks before date of issue, with both the subscriber's new and old addresses given. Undelivered copies resulting from an address change will not be replaced. Editorial Inquiries: Gary C. Sieck, Editor-in-Chief, Physiology, c/o April L. Larson, Editorial Coordinator, Physiology, Mayo Clinic, 200 First St. SW, Rochester, MN 55905. Subscription and Advertising Inquiries: Physiology, The American Physiological Society, 9650 Rockville Pike, Bethesda, MD 20814-3991.

Disclaimer: The statements and opinions contained in the articles of Physiology are solely those of the individual authors and contributors and not of the American Physiological Society. REVIEWS

Adaptation to Heat and Water Shortage in Large, Arid-Zone Mammals 159
 Andrea Fuller, Robyn S. Hetem, Shane K. Maloney, and Duncan Mitchell
 Thermoregulatory plasticity is a key adaptation for large mammals to cope with hotter and drier habitats likely with climate change.

Apoptotic Cell Death Under Hypoxia 168
 Ataman Sendoel and Michael O. Hengartner
 This review covers the effects of hypoxia at the cellular level, discusses adaptational mechanisms to hypoxia, and describes the consequences with regard to apoptotic cell death induction.

Beyond the Genome: Epigenetic Mechanisms in Lung Remodeling 177
 James S. Hagood
 This review focuses on epigenetic mechanisms in lung parenchymal remodeling.

Ion/Water Channels for Embryo Implantation Barrier 186
 Xin-Mei Liu, Dan Zhang, Ting-Ting Wang, Jian-Zhong Sheng, and He-Feng Huang
 This review discusses new insights in recent years about the contribution of ion/water channels to the embryo implantation barrier construction during early pregnancy.

The Brain Melanocortin System, Sympathetic Control, and Obesity Hypertension 196
 Alexandre A. da Silva, Jussara M. do Carmo, Zhen Wang, and John E. Hall
 This review highlights the importance of melanocortin 4 receptors in regulating energy balance and sympathetic activity, and its major role in linking obesity with sympathetic overactivity and hypertension.

Alcohol Abuse: Critical Pathophysiological Processes and Contribution to Disease Burden 203
 Patricia E. Molina, Jason D. Gardner, Flavia M. Souza-Smith, and Annie M. Whitaker
 This review gives a brief overview of the principal mechanisms of nonneuronal tissue and organ injury and their contribution to alcohol-associated comorbid conditions.
