

Guidelines for authors

Journal scope and publication

1. The 'European Journal of Horticultural Science' publishes original contributions, which have not been published elsewhere, from the wide range of horticultural science. This includes the science of fruit, vegetable, ornamental and nursery crops and their breeding, protection, nutrition, economics and technology.
2. The original contributions can be full papers, short communications, subject reviews and book reviews.
3. Manuscripts are peer-reviewed and published after acceptance by two referees. The editorial office reserves the right of final judgement.
4. Manuscripts are only accepted in English.

Manuscript format

1. Two copies of the printed manuscript should be submitted accompanied by a floppy disk. The floppy containing the manuscript should be marked with the author's affiliation, manuscript title and type of word processor used. All parts of a manuscript series should be submitted together.
2. Text should be printed single-sided in 12 point font with 2.5 cm (one-inch) margins and double-spaced with lines numbered consecutively.
3. Full papers do not exceed 15 manuscript pages including references plus up to 8 figures or tables.
4. Short communications should not exceed 2,000 words, equivalent to 2 printed pages, and less than one table or figure.
5. Full papers should be arranged in the following order: English Summary, German Summary, 6-8 key words based on CABI in alphabetical order and excluding words already used in the title, Introduction, Materials and Methods, Results, Discussion, Acknowledgements and References. Exceptions are possible for contributions on horticultural economics. Results should also be discussed with respect to their application to practical horticulture. The Summary should be short and concise. The editorial office will provide the German summary if necessary.
6. Please consult a recent issue of the journal for style, formatting and layout.
7. The manuscript comprises a cover page, stating the number of text pages, words, tables and figures, short running title, author's name(s) and address, telephone, FAX number and e-mail of the corresponding author.
8. Citations in the text should be in UPPER CASE, e.g. SMITH 2001.
9. Species should be written in *italics*, e.g. *Malus domestica* Borkh.
10. SI units should be used, e.g. t ha⁻¹ or kg m⁻²
12. Only internationally recognised abbreviations should be used or otherwise explained on first mention.

Tables and figures

1. Tables and figures are numbered with Arabic numerals in the sequence they occur. Their positions should be indicated in the text or margin. Tables and figures have to be submitted on separate pages (one page per table or figure). Captions and legends to figures and tables have to be listed on a separate page. Font size of legends should be sufficiently large for readability after reproduction and reduction for printing.
2. Photographs should be well focussed with high contrast and submitted as either slides or prints. Negatives cannot be processed. Digital photos should be of the highest possible resolution. Graphic patterns rather than different grey levels should be used to distinguish bars in the figures.
3. Photos etc. can be reproduced in colour at the author's expense of € 644 for the first photo and € 51 for each subsequent colour reproduction on the same print sheet.

References

1. Restrict references to the most relevant and internationally accessible references only, preferentially in English.
2. References are cited in the text using UPPER CASE for authors, e.g. (JONES 1999; JACKSON 2000, 2001), (TING et al. 2001), (WILLMER and FRICKER 2003).
3. References are cited in alphabetical order in the Reference section.
 - 3.1 Journals:
DEBENER, T., C. BARTELS and W. SPETHMANN 2003: Parentage analysis in interspecific crosses between rose species with RA PD markers. *Europ. J. Hort. Sci.* **68**, 180-184.
 - 3.2 Books:
LAWLOR, D.W. 2001: PHOTOSYNTHESIS. 3rd edition. Bios, Oxon, England.
4. References are cited in their original language.

Requirements for floppies and CDs or contributions submitted by e-mail

1. *Word processor*: Manuscripts should be submitted in MSDOS Word format with the version employed, e.g. Word 6.0, indicated on the floppy cover. Alternatively, text formats such as ASCII files or rich text format (*.rtf) can be used.
2. *Formatting*: The beginning of a new paragraph is not indented. The manuscript should be typed continuously without forced line breaks and without hyphenation. Forced line breaks should only be used at the end of a paragraph.
3. Master files can be downloaded from the homepage: <http://www.ejhs.de>
4. *Tables*: Tables are printed without lines; table columns, including space columns, are separated by tabs. Each table line ends with a forced line break.
5. *Figures*: The following formats and resolutions are acceptable for pictures: halftones 300 dpi in TIF format, colour reproductions 300 dpi in TIF-CMYK or JPG format, line sketches 700 dpi in TIF format or as EPS file and equivalent in Macintosh.

Reprints

Authors receive either 25 free reprints of their paper by post or a pdf file thereof by e-mail. Further reprints can be purchased; prices are available from the publisher.

Copyright

The legal implications of the author's and publisher's copyright for published papers are printed in the journal. German authors are advised to contact Verlagsgesellschaft WORT, Goethestr. 49, 80336 München to apply for their copyright royalties.

Submission of manuscripts

Manuscripts should be submitted to the editor-in-chief:
Prof. Dr. Gert Forkmann
Lehrstuhl für Zierpflanzenbau der TU München
D-85350 Freising-Weihenstephan
Germany
E-Mail: gawi@lzw.agrar.tu-muenchen.de

Manuscript receipt is acknowledged. Page proofs are provided by post or email for the correction of typos only. Further amendments will be charged to the author(s). Rejected manuscripts will be returned.
