

Journal of Plasma Physics

Editorial policy

The journal welcomes submissions in any of the areas of plasma physics. Its scope includes experimental and theoretical work on basic plasma physics, the plasma physics of magnetic and inertial fusion, laser-plasma interactions, industrial plasmas, plasma devices and plasmas in space and astrophysics. This list is, of course, merely illustrative of the wide range of topics on which papers are invited, and is not intended to exclude any aspect of plasma physics which is not explicitly mentioned.

Authors are urged to ensure that their papers are written clearly and attractively, in order that their work will be readily accessible to readers. Manuscripts must be written in English. *Journal of Plasma Physics* employs a rigorous peer-review process whereby all submitted manuscripts are sent to recognized experts in their subjects for evaluation. The Editor's decision on the suitability of a manuscript for publication is final.

Submission of manuscripts

Papers may be submitted to the Editor or to any of the Associate Editors. Three copies should be sent accompanied by the author's address, telephone and fax number, and if possible, an electronic mailing address. Submission of a paper is taken to imply that it has not been previously published and that it is not being considered for publication elsewhere. Upon acceptance of a paper, the author will be asked to transfer copyright to the publisher.

The publisher encourages submission of manuscripts written in LaTeX for which a JPP style file can be obtained using anonymous FTP from the internet address `ftp.cup.cam.ac.uk`. Go into the directory `/pub/texarchive/journals/latex/` where you will find a concatenated file called `jpp.all`. This contains `readme.txt`, `jpp.sty` and `jppguide.tex`. If you `TeX jppguide.tex` you will get a full set of instructions for using the style file. In case of difficulties obtaining these files, there is a help-line available via e-mail; please contact `texline@cup.cam.ac.uk`. The publisher may also be able to typeset papers submitted on disc in ordinary LaTeX or plain TeX using 'article style'.

When submitting the final manuscript ready for publishing, authors may send an email attachment of the file. This should be the TeX source code file with any additional files used. Do not attempt to send the TeX in the body of an email message. The file should be named: `JPPauthor surname.tex`. Any artwork files should be sent as `.eps` format and should be named `JPPauthor surname1` (where the number is the figure number). Hardcopies, including all artwork are sent to the **Editor** as normal, **BUT all electronic files** are to be sent to a central email address: `lchatterton@cambridge.org`. The publisher reserves the right to typeset any article by conventional means if the author's TeX code presents problems in production.

Layout of manuscripts

Papers should be typewritten using **double spacing throughout**, on one side of the paper, allowing generous margins on all sides of the paper. Papers should begin with an abstract of not more than 300 words and should end with a brief concluding section.

Illustrations

Figures should be drawn in black ink on white paper or produced from a high-quality laser printer. Figure captions should be supplied separately from the figures themselves. Colour illustrations can be accepted, but will be subject to a charge that will be notified to authors on acceptance of their paper. Authors who are not able to pay the charges for colour figures, and whose figures will be printed in black and white in the Journal, should include a URL in the caption to affected figures to direct readers to a website where figures can be viewed in colour.

References

These should follow either the Harvard (name/date) or Vancouver (numbered) system. In the Harvard system, each reference should be cited in the text as 'author(s) (date)' or '(author(s) date)', and the reference list at the end of the paper should be in *alphabetical order*. In the Vancouver system, references should be indicated in the text by numbers in square brackets (e.g. [1], [1,2], [1-4], etc.), and should be listed at the end of the paper in *numerical order of citation*. For details of the style of entries within the reference list, please see any recent issue of the journal.

Proof Reading

Only typographical or factual errors may be changed at proof stage. The publisher reserves the right to charge authors for correction of non-typographical errors. No page charge is made.

Offprints

50 offprints of each article will be supplied free to each first named author. Extra offprints may be purchased from the publisher if ordered at proof stage.
