

# Economic Theory

## Instructions to authors

A fundamental prerequisite before papers will be considered for publication is that they have not been and will not be published elsewhere without permission from the publisher.

The Editor and Co-editors reserve the right to return to the author(s) any manuscript that in their opinion is not suitable for publication in *Economic Theory*, without expressly stipulating the reasons for doing so. Under no circumstances will the identity of the reviewer(s) and referee(s) be disclosed to the author(s) or to any other third party not involved in the editorial process.

When an article is accepted for publication the author must supply to Springer a signed "Copyright Transfer Statement". The form can be obtained from [springer-online.com/journal/00199](http://springer-online.com/journal/00199). The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form); it also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Papers should be submitted electronically via the web to: <http://gemini.econ.umd.edu/et>. Please include a general cover letter with every submission.

All inquiries about submitted papers should be addressed to:

Editorial Assistant  
*Economic Theory*

Tel.: +1-765-496-2912  
Fax: +1-765-496-7434

When preparing manuscripts for the journal, please note the following points:

1. The form and content of the manuscript should be carefully checked to exclude the need for corrections at the proof stage. The costs involved in making any subsequent changes in the text will be charged to the authors. References, tables and figure legends should be sent on separate sheets.
2. The *first manuscript page* should contain the title (with any footnote to the title), the names and affiliations with complete postal addresses of all authors, *keywords and phrases*, and the *JEL classification*. Please refer to articles in this issue for examples of how to set up the first manuscript page.
3. The cover letter to the Editor should include the corresponding author's e-mail, telephone, fax, and full postal address.
4. Each paper is to be preceded by a short *summary* in English, which may not exceed 100 words.
5. The *list of references* should include only publications that are cited in the text and that have been published or accepted for publication. Personal communications should only be mentioned in the text. If available, the DOI can be added at the end of the reference in question. The references should be listed in alphabetical order by the first author's name and numbered consecutively. References are cited in the text by *numbers* enclosed in square brackets.

*Journal papers:* (1) names and initials of all authors; (2) full title of paper cited; (3) full title of journal; (4) boldface volume number in arabic figures; (5) first and last page numbers; (6) year in parentheses.

Aliprantis, C. D., Burkinshaw, O.: When is the core equivalence theorem valid? *Economic Theory* **1**, 169–182 (1991)

*Books:* (1) names and initials of all authors; (2) full title; (3) edition; (4) place of publication; (5) publisher; (6) year of publication.

Aliprantis, C. D., Brown, D. J., Burkinshaw, O.: Existence and optimality of competitive equilibria. Berlin Heidelberg New York: Springer 1989

6. *Figures* should be cited in the text, and each numbered consecutively throughout. Please submit good-quality prints. The inscriptions should be clearly legible.

7. *Tables* should be cited in the text, and each numbered consecutively throughout. Each table should have a short title.

8. *Formulas* should be typewritten whenever possible with special signs marked in color. Formulas should be numbered consecutively on the right-hand side of the page.

9. A pdf file of the *proofs* is sent to the author. The provisional page numbers given on the *proofs* may be referred to during the correction procedure. However, the final page numbers are inserted by the publisher when an issue is ready to go to press.

10. One complimentary copy of the concerning issue is supplied for each author. Thirty (30) offprints of each contribution are provided free of charge. Orders for additional offprints can be placed by returning the order form with the corrected proofs. When the author orders additional offprints, he is entitled to receive a pdf file of his article for his own personal use. The author is entitled to formal corrections only. Substantial changes in content, e.g. new results, corrected values, title and authorship are not allowed without the approval of the responsible editor. In such a case please contact the Editorial Office before returning the proofs to the publisher.

11. **Manuscripts in electronic form.** Submission of data is encouraged. The author should not transmit any such data to the publisher until his manuscript has been reviewed and accepted for publication. After the paper has been accepted by the editor(s), the author should submit the electronic version in final form as well as a pdf file. Further information can be found at: <http://www.springeronline.com>.

The preferred format is LaTeX. **Authors who prepare their papers with LaTeX** are encouraged to ask for Springer's TeX macropackage via:

- <http://www.springeronline.com>
- by e-mail to Springer: [Brigitte.Latzel@springer-sbm.com](mailto:Brigitte.Latzel@springer-sbm.com)

The electronic version should include the original source (including all style files and figures) and a PDF version of the compiled submission.

12. **Open Choice Publication.** In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customer who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular 'subscription-based' article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit [www.springeronline.com/openchoice](http://www.springeronline.com/openchoice) to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will be published as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
