1. Manuscripts, in triplicate and in English, should be submitted to the Editor:

Dr. Stanley Ducharme  
Sexuality and Disability Training Center  
Boston University Medical Center  
88 East Newton Street  
Boston, Massachusetts 02118

Tel.: (617) 638-7358  
E-mail: [ducharme@bu.edu](mailto:ducharme@bu.edu)

and should be checked for content *and* style (correct spelling, punctuation, and grammar; accuracy and consistency in the citation of figures, tables, and references; stylistic uniformity of entries in the References section; etc.), as the typesetter is instructed to follow (accepted) manuscripts as presented. Page proofs are sent to the designated author for proofreading and checking. Typographical errors are corrected; authors' alterations are not allowed.

2. Submission is a representation that the manuscript has not been published previously and is not currently under consideration for publication elsewhere. A statement transferring copyright from the authors (or their employers, if they hold the copyright) to Human Sciences Press, Inc. will be required before the manuscript can be accepted for publication. The Editor will supply the necessary forms for this transfer. Such a written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the U.S. Copyright Law in order for the publisher to carry through the dissemination of research results and reviews as widely and effectively as possible.
3. Type double-spaced on one side of 8-1/2 x 11 inch white paper using generous margins on all sides, and submit the original and two copies (including, where possible, copies of all illustrations and tables).
4. A title page is to be provided and should include the title of the article, author's name (with degree), author's affiliation, and suggested running head. The affiliation should comprise the department, institution (usually university or company), city, and state (or nation) and should be typed as a numbered footnote to the author's name. The suggested running head should be less than 80 characters (including spaces) and should comprise the article title or an abbreviated version thereof. The title page should also include the complete mailing address and telephone number of the one author designated to review proofs.
5. An abstract is to be provided, preferably no longer than 100-150 words.
6. A list of 3-5 key words is to be provided directly below the abstract. Key words should express the precise content of the manuscript, as they are used for indexing purposes.

## Author Instructions Sexuality and Disability

7. Illustrations (photographs, drawings, diagrams, and charts) are to be numbered in one consecutive series of Arabic numerals. The captions for illustrations should be typed on a separate sheet of paper. Photographs should be large, glossy prints, showing high contrast. Drawings should be prepared with india ink. Either the original drawings or good-quality photographic prints are acceptable. Identify figures on the back with author's name and number of the illustration. Electronic artwork submitted on disk should be in the TIFF or EPS format (1200 dpi for line and 300 dpi for half-tones and gray-scale art). Color art should be in the CYMK color space. Artwork should be on a separate disk from the text, and hard copy *must* accompany the disk.
8. Tables should be numbered and referred to by number in the text. Each table should be typed on a separate sheet of paper. Center the title above the table, and type explanatory footnotes (indicated by superscript lowercase letters) below the table.
9. List references numerically at the end of the paper in order of text appearance, and cite them in the text by Arabic numerals in parentheses on the baseline. References should include (in this order): last names and initials of *all* authors, title of article, name of publication, volume number, inclusive pages, and year published. The style and punctuation of the references should conform to Index Medicus style — illustrated by the following examples:

### *Journal Article*

1. Kennedy S, Over R: Psychophysiological assessment of male sexual arousal following spinal cord injury. *Arch Sexual Behav* 19:15–27, 1990

### *Book*

2. Sales BD, Powell DM, Van Duizend R, Associates: *Disabled Persons and the Law: State Legislative Issues*. New York, Plenum Press, 1982

### *Contribution to a Book*

3. Higgins GE Jr: Aspects of sexual response in adults with spinal-cord injury: A review of the literature. *In Handbook of Sex Therapy*, J LoPiccolo, L LoPiccolo (eds). New York, Plenum Press, 1978, pp 387–410

10. Footnotes should be avoided. When their use is absolutely necessary, footnotes should be numbered consecutively using Arabic numerals and should be typed at the bottom of the page to which they refer. Place a line above the footnote, so that it is set off from the text. Use the appropriate superscript numeral for citation in the text.
11. Consult a journal issue (Volume 9, Number 1 or later) for general article style.
12. After a manuscript has been accepted for publication and after all revisions have been incorporated, manuscripts should be submitted to the Editor's Office as hard copy accompanied by electronic files on disk. Label the disk with identifying information — software, journal name, author's last name. **The disk must be the one from which the accompanying manuscript (finalized version) was printed out.** The Editor's Office cannot accept a disk without its accompanying, matching hard-copy manuscript.
13. **The journal makes no page charges.** Reprints are available to authors, and order forms with the current price schedule are sent with proofs.
