Instructions to Contributors

1. Manuscripts, in English, should be submitted to the Editor's Office via the journal's web-based **online manuscript submission and peer-review system**:

<http://jonb.edmgr.com>

Inquiries regarding journal policy and other such general topics should be sent to the Editor (do **not** e-mail manuscripts to Editor Friedman):

Dr. Howard S. Friedman
Editor, *Journal of Nonverbal Behavior*
Department of Psychology
900 University Avenue
University of California
Riverside, CA 92521
Tel.: (951) 827-3672
Fax: (951) 827-3985
e-mail: JofNB@ucr.edu or friedman@citrus.ucr.edu

The online system offers easy straightforward log-in and submission; supports a wide range of submission file formats (Word, WordPerfect, RTF, TXT, and LaTeX for manuscripts; TIFF, GIF, JPEG, EPS, PPT, and Postscript for figures (artwork)); eliminates the need to submit manuscripts as hard-copy printouts, disks, and/or e-mail attachments; enables real-time tracking of manuscript status by the author; and provides help should authors experience any submission difficulties (click on "Contact Us" from the toolbar). Manuscripts should be checked for content *and* style (correct spelling, punctuation, and grammar; accuracy and consistency in the citation of figures, tables, and references; stylistic uniformity of entries in the References section; etc.), as the typesetter is instructed to follow (accepted) manuscripts as presented. Page proofs are sent to the designated author for proofreading and checking. Typographical errors are corrected; authors' alterations are not allowed. A cover letter should accompany the manuscript indicating whether the author(s) wish(es) "open" or "masked" reviewing of the paper (i.e., whether or not the author is to be identified to the reviewers prior to the review). Manuscripts submitted without this information or not submitted in the form specified for "masked" review will be treated as "open" review.

2. Submission is a representation that the manuscript has not been published previously and is not currently under consideration for publication elsewhere. A statement transferring copyright from the authors (or their employers, if they hold the copyright) to Springer Science+Business Media, Inc. will be required before the manuscript can be accepted for publication. The Editor will supply the necessary forms for this transfer. Such a written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the U.S. Copyright Law in order for the publisher to carry through the dissemination of research results and reviews as widely and effectively as possible.
3. All pages should be typed double-spaced and numbered (including pages containing the title, authors' names and affiliation footnotes, abstract, acknowledgments, references, tables, and figure-caption list).
4. A title page is to be provided and should include the title of the article, author's name (no degrees), and author's affiliation. The affiliation should comprise the department, institution (usually university or company), city, and state (or nation) and should be typed as a footnote to the author's name. The title page should also include the complete mailing address, telephone number, fax number, and e-mail address of the one author designated to review proofs.
5. An abstract is to be provided, preferably no longer than 100 words.
6. A list of 3–5 key words is to be provided directly below the abstract. Key words should express the precise content of the manuscript, as they are used for indexing purposes.
7. Illustrations (photographs, drawings, diagrams, and charts) are to be numbered in one consecutive series of Arabic numerals. The captions for illustrations should be typed on a separate sheet of paper.
8. Tables should be numbered (with Arabic numerals) and referred to by number in the text. Each table should be typed on a separate sheet of paper. Center the title above the table, and type explanatory footnotes (indicated by superscript lowercase letters) below the table.
9. List references alphabetically at the end of the paper and refer to them in the text by name and year in parentheses. References should include (in this order): last names and initials of *all* authors, year published, title of article, name of publication, volume number, and inclusive pages. The style and punctuation of the references should conform to strict APA style.
10. Footnotes should be avoided. When their use is absolutely necessary, footnotes should be numbered consecutively using Arabic numerals and should be typed at the bottom of the page to which they refer. Place a line above the footnote, so that it is set off from the text. Use the appropriate superscript numeral for citation in the text.
11. All manuscripts must conform to the style of the *Publication Manual* (5th Edition, 2001) of the American Psychological Association, 750 First St., NE, Washington, D.C. 20002-4242.
12. **The journal makes no page charges.** Reprints are available to authors, and order forms with the current price schedule are sent with proofs.
13. **Open Choice Publication:** In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer's online platform, SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springeronline.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will be published as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
