Human Ecology

An Interdisciplinary Journal

Editor: D. Bates

ISSN: 0300-7839 (print version)

ISSN: 1572-9915 (electronic version)

Journal no. 10745

Springer US

1. Manuscripts (and books for review) should be sent to:

Dr. Daniel G. Bates
Human Ecology: An Interdisciplinary Journal
Hunter College (CUNY)
Room HN 723
695 Park Avenue
New York, New York 10021

2. Submission is a representation that the manuscript has not been published previously and is not currently under consideration for publication elsewhere. A statement transferring copyright from the authors (or their employers, if they hold the copyright) to Plenum Publishing Corporation will be required before the manuscript can be accepted for publication. The Editor will supply the necessary forms for this transfer. Such a written transfer of copyright, which previously was assumed to be implicit in the act of submitting a manuscript, is necessary under the U.S. Copyright Law in order for the publisher to carry through the dissemination of research results and reviews as widely and effectively as possible.
3. Type double-spaced, and submit the original and three copies (including, where possible, copies of all illustrations and tables).
4. An abstract is to be provided, preferably no longer than 150 words.
5. A list of 4–5 key words is to be provided directly below the abstract. Key words should express the precise content of the manuscript, as they are used for indexing purposes, both internal and external.
6. Illustrations (photographs, drawings, diagrams, and charts) are to be numbered in one consecutive series of Arabic numerals. The captions for illustrations should be typed on a separate sheet of paper. Photographs should be large glossy prints, showing high contrast. Drawings should be prepared with india ink. Either the original drawings or high-quality photographic prints are acceptable. Identify figures on the back with author's name and number of the illustration. Electronic artwork submitted on disk should be in the TIFF or EPS format (1200 dpi for line and 300 dpi for half-tones and gray-scale art). Color art should be in the CYMK color space. Artwork should be on a separate disk from the text, and hard copy *must* accompany the disk.
7. Tables should be numbered and referred to by number in the text. Each table should be typed on a separate sheet of paper.
8. List references alphabetically at the end of the paper and refer to them in the text by name and year in parentheses. Where there are three or more authors, only the first author's name is given in the text, followed by et al. References should include titles of papers.
9. A more detailed instruction guide is available, upon request, from the Editor. In general, *Human Ecology: An Interdisciplinary Journal* follows the recommendations of *Style Manual for Biological Journals*, published by the American Institute of Biological Sciences, and it is suggested that contributors refer to this publication.

Author Instructions Human Ecology: An Interdisciplinary Journal

10. After a manuscript has been accepted for publication and after all revisions have been incorporated, manuscripts should be submitted to the Editor's Office as hard copy accompanied by electronic files on disk. Label the disk with identifying information -- software, journal name, and first author's last name. **The disk must be the one from which the accompanying manuscript (finalized version) was printed out.** The Editor's Office cannot accept a disk without its accompanying, matching hard-copy manuscript.
11. **The journal makes no page charges.** Reprints are available to authors, and order forms with the current price schedule are sent with proofs.
12. **Springer Open Choice.** In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springeronline.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
