Scope

The International Journal of Marine and Coastal Law (ESTU) addresses all aspects of marine and coastal law. In addition to normal in-depth scholarly articles, the Journal contains a distinctive feature: a vigorous 'Current Legal Developments' section which provides notes and commentary on international treaties and case law, national statute law, national court decisions, and other aspects of state practice; includes the relevant original documentation where appropriate; and monitors developments in relevant international organizations at a global and regional level. The format also includes a book review section.

Submission of an article for publication in any of Brill's journals implies the following:

2. The contents of the manuscript have been tacitly or explicitly approved by the responsible authorities where the research was carried out.
3. The manuscript has not been published previously, in part or in whole, in English or any other language, except as an abstract, part of a published lecture or academic thesis.
4. The manuscript has not and will not be submitted to any other journal while still under consideration for this journal.
5. If accepted, the author agrees to transfer copyright to BRILL and the manuscript will not be published elsewhere in any form, in English or any other language, without prior written consent of the Publisher.
6. If the submission includes figures, tables, or large sections of text that have been published previously, the author has obtained written permission from the original copyright owner(s) to reproduce these items in the current manuscript in both the online and print publications of the journal. Online Submission

The Journal now uses online submission only. Authors should submit their manuscript online via the Editorial Manager (EM) online submission system at: editorialmanager.com/estu.

First-time users of EM need to register first. Prior to submission, authors are encouraged to read the 'Instructions for Authors' and the EM instructions available by following the above link and clicking on the 'help' icon in the top left-hand menu on the page. Online submission considerably shortens overall

Please upload source files (.doc, etc.) and *not* .pdf files.

For figures, please see below. Any figure files should be uploaded separately, and should have a high density of at least 300 dpi at a size suitable for printing.

The revised document is uploaded the same way as the initial submission. The system automatically generates an electronic (PDF) proof, which is then used for reviewing purposes. All correspondence, including the editor's request for revision and final decision, is sent by e-mail.
