

Manuscript Submission

International Journal of Science and Mathematics Education has a fully web-enabled review system. This system offers authors the option of tracking in real time the review process of their manuscripts. The online manuscript and review system offers easy and straightforward log-in and submission procedures. It supports a wide range of submission file formats, including Word, WordPerfect, RTF, TXT and LaTeX for article text and TIFF, EPS, PS, GIF, JPEG and PPT for figures. PDF is not a recommended format.

Manuscripts should be submitted to:

<http://ijma.edmgr.com/>

NOTE: By using the online manuscript submission and review system, it is NOT necessary to submit the manuscript also as printout + disk. In case you encounter any difficulties while submitting your manuscript online, please get in touch with the responsible Editorial Assistant by clicking on 'CONTACT US' from the toolbar.

Electronic figures

Electronic versions of your figures must be supplied. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures - 600 - 1200 dpi; photographs - 300 dpi; screen dumps - leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier and Helvetica.

Colour figures

Springer offers two options for reproducing colour illustrations in your article. Please let us know what you prefer: 1) Free online colour. The colour figure will only appear in colour on www.springer.com and not in the printed version of the journal. 2) Online and printed colour. The colour figures will appear in colour on our website and in the printed version of the journal. The charges are EUR 950/USD 1150 per article.

Language

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language.

Reviewing Procedure

International Journal of Science and Mathematics Education follows a double-blind reviewing procedure. Authors are therefore requested to omit their name and affiliation from the manuscript. Self-identifying citations and references in the article text should also be avoided or left blank when manuscripts are first submitted. Authors are responsible for reinserting their name, affiliation, self-identifying citations and references when manuscripts are prepared for final submission. This review process will normally take about 12-16 weeks.

Mentor to assist authors whose first language is not English

First authors whose first language is not English may be eligible for one-time free editorial assistance from a mentor assigned by the journal staff for a manuscript that is rejected but judged as being of sufficient research quality to be publishable with major revision.

Manuscript Presentation

Manuscripts should not exceed 30 pages of double-spaced printed or typewritten text, including references, tables and figures. Manuscripts should be printed or typewritten in font size 12 on A4 or US Letter bond paper, one side only, leaving 1 inch/2.54 cm margins on all sides. Appendices may be included in the manuscript submission; however, they will be fully reviewed and will only be published

online in Springer's Electronic Supplementary Materials (ESM) system. They will NOT appear in the journal's print version. Quotations of more than 40 words should be set off clearly, either by indenting the left-hand margin or by using a smaller typeface. Use double quotation marks for direct quotations and single quotation marks for quotations within quotations and for words or phrases used in a special sense.

Appendices and Electronic Supplementary Materials (ESM)

Supplementary material should be collected in an Appendix and placed before the Notes and References. To control the number of pages printed in the journal's paper edition, all appendices will ONLY be published online in the ESM system and not in the print version. Upon acceptance of an article, authors may need to move nonessential parts of the article to ESM at the request of editors. In such case, a note will be shown in the printed article where appropriate to indicate referral to ESM.

Number the pages consecutively with the first page containing:

- running head (shortened title)
- title
- author(s)
- affiliation(s)
- full address for correspondence, including telephone and fax number and e-mail address

Abstract

Please provide a short abstract of 100 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references.

Key Words

Please provide 5 to 10 key words or short phrases in alphabetical order.

Section Headings

First-, second-, third-, and fourth-order headings should be clearly distinguishable.

Notes

Please use endnotes rather than footnotes. Notes should be indicated by consecutive superscript numbers in the text and *listed at the end of the article before the References.* A source reference note should be indicated by means of an asterisk after the title. This note should be placed at the bottom of the first page.

Cross-Referencing

In the text, a reference identified by means of an authors name should be followed by the date of the reference in parentheses and page number(s) where appropriate. In the event that an author cited has had two or more works published during the same year, the reference, *both in the text and in the reference list*, should be identified by a **lower-case** letter like a and b after the date to distinguish the works.

Examples:

Winograd (1986, p. 204)

(Winograd, Milbrath, Buci, Briere, McIntosh & Reidbord, 1986a, 1986b)

(Winograd, 1986; Flores et al., 1988)

(Bullen & Bennett, 1990)

Acknowledgements

Acknowledgements of people, grants, funds, etc. should be placed in a separate section before the References.

References

References should follow the American Psychological Association (APA) (Fifth Edition) style in alphabetical order (see examples below). Personal communications should not be included in the reference list but should only be mentioned in the article text, e.g., K.W. Schaie (personal communication, April 18, 2003).

Examples:

Books

Andrews, R., Costello, P. & Clarke, S. (1993). *Improving the quality of argument, 5-16*. Hull, UK: The University of Hull.

Edited Books

Goh, S.C. & Khine, M.S. (Eds.). (2000). *Studies in education learning environments: An international perspective*. Singapore: World Scientific.

Article or Chapter in Edited Book

McGinnis, J.R. (2000). Walking the tightrope between the world of academia and the world of work. In T. Koballa & D.J. Tippins (Eds.), *The promises and dilemmas of teaching middle and secondary science: A classroom case handbook* (pp. 244-248). Upper Saddle Ridge, NJ: Merrill/Prentice-Hall.

Article in Conference Proceedings

Fisher, D.L., Rickards, T., Goh, C.S. & Wong, A. (1997). Perceptions of interpersonal teaching behaviour in secondary science classrooms: Comparisons between Australia and Singapore. In D.L. Fisher & T. Rickards (Eds.), *Proceedings of the 1997 International Conference on Science, Mathematics and Technology Education and National Development*. Hanoi, Vietnam (pp. 136-143). Perth: Curtin University of Technology.

Journals

Von Glaserfeld, E. (1989). Cognition, construction of knowledge, and teaching. *Synthese*, 80, 121-140.

References to Technical Reports or Doctoral Dissertation

Denton, J.J. & Metcalf, T. (1993). *Two school-university collaborations: Characteristics and findings from classroom observations*. Report No. EA 025227, Atlanta, GA.

Figures

All photographs, graphs and diagrams should be referred to as a Figure and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labelled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and note its approximate location in the margin. Please place the legends in the manuscript after the references.

Tables

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without abbreviations) to each table, refer to the table in the text and note its approximate location in the margin. Finally, please place the tables after the figure legends in the manuscript.

Proofs

Proofs will be sent to the corresponding author. Corrected proofs should be returned within three days of receipt .

Offprints

30 offprints of each article will be provided free of charge. Additional offprints can be ordered by means of an offprint order form supplied with the proofs.

Page Charges and Colour Figures

No page charges are levied on authors or their institutions except for colour pages. Please see the section labelled *Colour figures* in Manuscript Submission.

Copyright

Once the article is accepted and sent for typesetting an automatic email message will be sent requesting, amongst others, to sign a copyright transfer form.

Permission

It is the responsibility of the author to obtain written permission for a quotation from unpublished material, or for all quotations in excess of 250 words in one extract or 500 words in total from any work still in copyright, and for the reprinting of figures, tables or poems from unpublished or copyrighted material.

Springer Open Choice

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springer.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
