Manuscript Submission

Online Manuscript Submission

Social Indicators Research has a fully web-enabled manuscript submission and review system. This system offers authors the option of tracking in real time the review process of their manuscripts. The online manuscript and review system offers easy and straightforward log-in and submission procedures. It supports a wide range of submission file formats, including Word, WordPerfect, RTF, TXT and LaTeX for article text and TIFF, EPS, PS, GIF, JPEG and PPT for figures. PDF is not a recommended format.

Manuscripts should be submitted to:

<http://soci.edmgr.com>

Authors are requested to download the Consent to Publish and Transfer of Copyright form from this system. Please send a completed and signed form either by mail or fax to the *Social Indicators Research* Office.

NOTE: By using the online manuscript submission and review system, it is NOT necessary to submit the manuscript also as printout + disk. In case you encounter any difficulties while submitting your manuscript online, please get in touch with the responsible Editorial Assistant by clicking on "CONTACT US" from the toolbar.

Electronic figures

Electronic versions of your figures must be supplied. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures – 600 – 1200 dpi; photographs – 300 dpi; screen dumps – leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier and Helvetica.

Colour figures

Colour figures may be printed at the author's expense. Please indicate at submission which figures should be printed in colour, the number of colour pages you prefer and to which address we can send the invoice. In addition, please specify if figures are to appear together on a colour page. Our standard prices are: for one page 795, for two pages 1250, for three pages 1480 and for each subsequent page an additional 230.

Language

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language.

Notes

Notes which do not belong to the head of the article should be numbered consecutively. They should be placed at the end of the article, not as footnotes. A note which refers to the head of the article should be indicated by an asterisk.

References

Should be listed at the end of the article in alphabetical and chronological order. A journal reference should comprise name, initials, year of publication, full title of paper, name of journal, volume number, and first and last pages in the following style: Kemeny, J.G.: 1953, 'The use of simplicity in induction', *The Philosophical Review* 62, pp. 391–408. A book reference should comprise name, initials, year, full title, publisher, place of publication, and page in the following style: Hare, R.M.: 1952, *The Language of Morals* (Clarendon Press, Oxford), p. 26. In the text, references to an article by more than two authors should be by the first name and 'et al.'; but the authors' names should all be given in the References section.

Figures

All photographs, graphs and diagrams should be referred to as a 'Figure' and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labelled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and note its approximate location in the margin. Please place the legends in the manuscript after the references.

Tables

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without abbreviations) to each table, refer to the table in the text and note its approximate location in the margin. Finally, please place the tables after the figure legends in the manuscript.

Proofs

Proofs will be sent to the corresponding author by e-mail (if no e-mail address is available or appears to be out of order, proofs will be sent by regular mail).

Your response, with or without corrections, should be sent within 72 hours. Please do not make any changes to the PDF file. Minor corrections (+/- 10) should be sent as an e-mail attachment to: proofscorrection@springer-sbm.com. Always quote the four-letter journal code and article number and the PIPS No. from your proof in the subject field of your e-mail. Extensive corrections must be clearly marked on a printout of the PDF file and should be sent by first-class mail (airmail overseas).

Offprints and page charges

The author will receive, without charge, 25 copies of the article. Additional offprints (both hard copies and PDF files) may be ordered when the proofs are returned to the publisher.

No page charges are levied on authors or their institutions.

Consent to publish

Consent to publish in this journal entails the author's irrevocable and exclusive authorisation of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17, paragraph 2, of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S.351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of court in connection herewith.

Springer Open Choice

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springers online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springeronline.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
