*Springer* request the submission of manuscripts and figures in electronic form in addition to a hard copy printout. The preferred storage medium for your electronic manuscript is a 3 ½ inch diskette. Please label your diskette properly, giving exact details on the name of the file(s), the operating system and software used. Always save your electronic manuscript in the wordprocessor format that you use. In general, use as few formatting codes as possible. For safety's sake, you should always retain a backup copy of your file(s). **After acceptance**, please make absolutely sure that you send the latest (i.e., revised) version of your manuscript, both as hard copy printout and on diskette.

*Springer* prefer articles submitted in wordprocessing packages such as MS Word, WordPerfect, etc. running under operating systems MS DOS, Windows and Apple Macintosh, or in the file format LaTeX. Articles submitted in other software programs can also be accepted.

For submission in LaTeX, *Springer* have developed special LaTeX style files, KLUWER.STY (LaTeX 2.09) and KLUWER.CLS (LaTeX 2e), which are used for all Kluwer journals, irrespective of the publication's size or layout. The specific journal formatting is done later during the production process. KLUWER.STY and KLUWER.CLS are offered by a number of servers around the world. Unfortunately, these copies are often unauthorised and authors are strongly advised not to use them. *Springer* can only guarantee the integrity of style files obtained directly from them. Authors can obtain KLUWER.STY and KLUWER.CLS and the accompanying instruction file KAPINS.TEX from the following website:

<http://www.springeronline.com/authors/jrnstylefiles>

Technical support on the usage of the style files is given via the e–mail address: [texhelp@springer-sbm.com](mailto:texhelp@springer-sbm.com)

## Manuscript Presentation

The journal's language is English. British English or American English spelling and terminology may be used, but either one should be followed consistently throughout the article. Manuscripts should be printed or typewritten on A4 or US Letter bond paper, one side only, leaving adequate margins on all sides to allow reviewers' remarks. Please double-space all material, including notes and references. Quotations of more than 40 words should be set off clearly, either by indenting the left-hand margin or by using a smaller typeface. Use double quotation marks for direct quotations and single quotation marks for quotations within quotations and for words or phrases used in a special sense.

Number the pages consecutively with the first page containing:

- running head (shortened title)
- article type (if applicable)
- title
- author(s)
- affiliation(s)
- full address for correspondence, including telephone and fax number and e-mail address

### Abstract

Please provide a short abstract of 100 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references.

### Key Words

Please provide 5 to 10 key words or short phrases in alphabetical order.

### Abbreviations

Abbreviations and their explanations should be collected in a list.

### Figures and Tables

In addition to hard copy printouts of figures, authors are requested to supply the electronic versions of figures in either Encapsulated PostScript or TIFF format. Many other formats, e.g., Microsoft Postscript, PiCT (Macintosh) and WMF (Windows), cannot be used and the hard copy will be scanned instead.

Figures should be saved in separate files without their captions, which should be included with the text of the article. Files should be named according to DOS conventions, e.g. 'figure1.eps'. For vector graphics Encapsulated PostScript is the preferred format. Lines should not be thinner than 0.25pts and in-fill patterns and screens should have a density of at least 10 percent. For bitmap graphics, TIFF is the preferred format. The following resolutions are optimal: black-and-white figures &ndash; 1200 dpi; line figures with some gray or coloured lines &ndash; 600 dpi; photographs &ndash; 300 dpi; screen dumps &ndash; leave as is.

If no electronic versions of figures are available, submit only high-quality artwork that can be reproduced as is, i.e., without any part having to be redrawn or re-typeset. The letter size of any text in the figures must be large enough to allow for reduction. Photographs should be in black-and-white on glossy paper. If a figure contains colour, make absolutely clear whether it should be printed in black-and-white or in colour. Figures that are to be printed in black-and-white should not be submitted in colour. Authors will be charged for

reproducing figures in colour.

Each figure and table should be numbered and mentioned in the text. The approximate position of figures and tables should be indicated in the margin of the manuscript. On the reverse side of each figure, the name of the (first) author and the figure number should be written in pencil; the top of the figure should be clearly indicated.

Figures and tables should be placed at the end of the manuscript following the Reference section. Each figure and table should be accompanied by an explanatory legend. The figure legends should be grouped and placed on a separate page. Figures are not returned to the author unless specifically requested.

In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table.

### **Section Headings**

First-, second-, third-, and fourth-order headings should be clearly distinguishable.

### **Appendices**

Supplementary material should be collected in an Appendix and placed before the Notes and Reference sections.

### **Notes**

Please use endnotes only. Notes should be indicated by consecutive superscript numbers in the text and listed at the end of the article before the References. A source reference note should be indicated by an asterisk after the title. This note should be placed at the bottom of the first page.

### **Cross-Referencing**

In the text, a reference identified by means of an author's name should be followed by the date of the reference in parentheses and page number(s) where appropriate. When there are more than two authors, only the first author's name should be mentioned, followed by &lsquo;et al.&rsquo;. In the event that an author cited has had two or more works published during the same year, the reference, both in the text and in the reference list, should be identified by a lower case letter like &lsquo;a&rsquo; and &lsquo;b&rsquo; after the date to distinguish the works.

*Examples:*

Winograd (1986, p. 204)

Winograd, 1986a, 1986b)

(Flores et al., 1988; Winograd, 1986)

(Bullen and Bennett, 1990)

### **Acknowledgements**

Acknowledgements of people, grants, funds, etc. should be placed in a separate section before the References.

### References

References to books, journal articles, articles in collections and conference or workshop proceedings, and technical reports should be listed at the end of the paper in **alphabetical** order. Articles in preparation or articles submitted for publication, unpublished observations, personal communications, etc. should not be included in the reference list but should only be mentioned in the article text (e.g., T. Moore, personal communication).

References to books should include the author's name; year of publication; title in full; page numbers where appropriate; publisher; place of publication, in the order given in the example below.

Daniels, N. (1985) *Just Health Care*. Cambridge: Cambridge University Press.

References to articles in an edited collection should include the author's name; year of publication; article title; editor's name; title of collection; first and last page numbers; publisher; place of publication, in the order given in the example below.

Goodin, R.E. (1988) Heroic Measures and False Hopes. In J.M. Bell and S. Mendus (Eds.), *Philosophy and Medical Welfare* (pp. 17--32). Cambridge: Cambridge University Press.

References to articles in conference proceedings should include the author's name; year of publication; article title; editor's name (if any); title of proceedings; first and last page numbers; place and date of conference; publisher and/or organization from which the proceedings can be obtained; place of publication.

References to articles in periodicals should include the author's name; year of publication; article title; full title of periodical; volume number (issue number where appropriate); first and last page numbers, in the order given in the example below.

Holm, S. (1993) The Spare Embryo &mdash; A Red Herring in the Embryo Experimentation Debate. *Health Care Analysis* 1, 63--66.

References to technical reports or doctoral dissertations should include the author's name; year of publication; title of report or dissertation; institution; location of institution, in the order given in the example below.

Moores, J. (1992) *Anti-foundationalism and Bioethical Praxis*, University of Wellington, Wellington, unpublished thesis.

### Proofs

Proofs will be sent to the corresponding author. One corrected proof, together with the original, edited manuscript, should be returned to the Publisher within three days of receipt by mail (airmail overseas).

### Offprints

Twenty-five offprints of each article will be provided free of charge. Additional offprints can be ordered by means of an offprint order form supplied with the proofs.

## **Page Charges and Colour Figures**

No page charges are levied on authors or their institutions. Colour figures are published at the author's expense only.

## **Copyright**

Authors will be asked, upon acceptance of an article, to transfer copyright of the article to the Publisher. This will ensure the widest possible dissemination of information under copyright laws.

## **Permissions**

It is the responsibility of the author to obtain written permission for a quotation from unpublished material, or for all quotations in excess of 250 words in one extract or 500 words in total from any work still in copyright, and for the reprinting of figures, tables or poems from unpublished or copyrighted material.

## **Springer Open Choice**

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springers online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit [www.springeronline.com/openchoice](http://www.springeronline.com/openchoice) to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
