

Online Manuscript Submission

Springer now offers authors, editors and reviewers of *Group Decision and Negotiation* the option of using our fully web-enabled online manuscript submission and review system. To keep the review time as short as possible (no postal delays!), we encourage authors to submit manuscripts online to the journal's editorial office. Our online manuscript submission and review system offers authors the option to track the progress of the review process of manuscripts in real time. Manuscripts should be submitted to: <http://grup.edmgr.com>

The online manuscript submission and review system for *Group Decision and Negotiation* offers easy and straightforward log-in and submission procedures. This system supports a wide range of submission file formats: for manuscripts - Word, WordPerfect, RTF, TXT and LaTeX; for figures - TIFF, GIF, JPEG, EPS, PPT, and Postscript.

NOTE: By using the online manuscript submission and review system, it is NOT necessary to submit the manuscript also in printout + disk.

In case you encounter any difficulties while submitting your manuscript on line, please get in touch with the responsible Editorial Assistant by clicking on "CONTACT US" from the tool bar.

Electronic figures

Electronic versions of your figures must be supplied. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures - 600 - 1200 dpi; photographs - 300 dpi; screen dumps - leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier and Helvetica.

Colour figures

Springer offers two options for reproducing colour illustrations in your article. Please let us know what you prefer: 1) Free online colour. The colour figure will only appear in colour on www.springer.com and not in the printed version of the journal. 2) Online and printed colour. The colour figures will appear in colour on our website and in the printed version of the journal. The charges are EUR 950/USD 1150 per article.

Language

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language.

Manuscript Requirements

The first page of the manuscript should contain the author's name, affiliation and mailing address, article title, and a running head (condensed title) which should not exceed 45 characters, including spaces. Each page of the manuscript should be consecutively numbered, including pages of references and captions.

Abstract

Include an Abstract of 100-200 words.

Keywords

Give 5-10 Keywords.

Symbols

Unusual symbols should be identified in the margin, and an alternative or equivalent symbol or sign should be provided if the one required is rare. Special care should be taken to distinguish between the

letter O and zero, the letter l and the number one, k (kappa) and k, (mu) and u, n (nu) and v, h (eta) and n. Subscripts and superscripts should be marked if not clear. The use of italics is to be indicated by single underlining; bold-face by wavy underlining.

Notes

Notes which do not belong to the head of the article should be numbered consecutively. They should be placed at the end of the article, before the references, not as footnotes. A note which refers to the head of the article should be indicated by an asterisk. Notes should be kept to an absolute minimum.

Figures

All photographs, graphs and diagrams should be referred to as a 'Figure' and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labelled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and note its approximate location in the margin. Please place the legends in the manuscript after the references.

Tables

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without abbreviations) to each table, refer to the table in the text and note its approximate location in the margin. Finally, please place the tables after the figure legends in the manuscript.

Proofs

Proofs will be sent to the corresponding author by e-mail. Your response, with or without corrections, should be sent within 72 hours.

Offprints

Fifty offprints of each article will be provided free of charge. Additional offprints (both hard copies and PDF files) can be ordered by means of an offprint order form supplied with the proofs.

Page Charges

No page charges are levied on the authors or their institutions (except for colour figures).

Springer Open Choice

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springer.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
