

# Manuscript submission

## Online Manuscript Submission

Springer now offers authors, editors and reviewers of *The Journal of Economic Inequality* the option of using our fully web-enabled online manuscript submission and review system. To keep the review time as short as possible (no postal delays!), we encourage authors to submit manuscripts online to the journal's editorial office. Our online manuscript submission and review system offers authors the option to track the progress of the review process of manuscripts in real time. Manuscripts should be submitted to: <http://joei.edmgr.com>

The online manuscript submission and review system for *The Journal of Economic Inequality* offers easy and straightforward log-in and submission procedures. This system supports a wide range of submission file formats: for manuscripts - Word, WordPerfect, RTF, TXT and LaTeX; for figures - TIFF, GIF, JPEG, EPS, PPT, and Postscript.

**NOTE:** By using the online manuscript submission and review system, it is NOT necessary to submit the manuscript also in printout + disk.

In case you encounter any difficulties while submitting your manuscript on line, please get in touch with the responsible Editorial Assistant by clicking on "CONTACT US" from the tool bar.

## Electronic figures

Electronic versions of your figures must be supplied. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures - 600 - 1200 dpi; photographs - 300 dpi; screen dumps - leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier and Helvetica.

## Colour figures

Colour figures may be printed at the author's expense. Please indicate at submission which figures should be printed in colour, the number of colour pages you prefer and to which address we can send the invoice. In addition, please specify if figures are to appear together on a colour page.

## Language

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language.

There is no strict length limit for manuscripts, but authors are reminded that excessively long papers can be returned to the authors for shortening. The advisable length limit for manuscripts is not more than 30 typewritten double-spaced A4 pages.

The English can be either British or American spelling variants, but not a mixture.

The entire manuscript (including abstract, keywords, references, captions, and notes) should be typed double spaced. Liberal margins (2,5 cm) should be left at the top and the bottom, as well as the sides of each page.

Manuscripts should be arranged in the following order with all pages numbered consecutively.

Page one should contain, in order:

(a) title of paper (words to be italicized should be underlined; do not terminate the title with a period or colon);

- (b) subtitle, if any;
- (c) full name of author(s);
- (d) authors' addresses (give full mailing addresses, including e-mail address, if more than one, add to one of these addresses 'for correspondence and/or offprints' between parentheses (if applicable); if more than one address (and author), use numbers (as superscript) after author and before address);
- (e) leave space for date of receipt of original manuscript and date of acceptance of revised manuscript (to be filled in by editors)

- (2) Page two; the key words (separated by commas, in alphabetical order) and the abstract (not exceeding 250 words), and the abbreviations alphabetically arranged;
- (3) Text (Introduction, Materials and Methods, Results, Discussions) and Acknowledgement (if applicable);
- (4) References;
- (5) Tables;
- (6) Figure legends;
- (7) Figures (high quality original drawings or photographic prints)

## **Abstract**

The abstract should highlight the major findings of the study. It should be written to attract readers to the paper and it should not contain any undefined abbreviations or unspecified references. The abstract must be able to stand alone.

## **Footnotes**

Avoid using too many footnotes. If used, they should be typed on appropriate pages, but clearly separated from the text with a line above them.

## **Units**

Please indicate clearly the differences between 0 (zero) and O, o (the letters), between the numeral 1 and the letter l, between a and alpha, k and kappa, p and rho, u and mu, v and nu, n and eta, epsilon (e) and , z and x, d and Q, a and [infty], X and etc.

The use of the exponent  $1/2$  is preferred to the sign  $\sqrt{\quad}$ .

The author should also see to it that the level of subscripts, subscripts to subscripts, exponents as well as exponents in exponents, cannot be misunderstood.

Fractions to be printed in the body of the text (not in display formulae) should make use of the solidus. The use of negative exponents (e.g.  $u^{-1}$  instead of  $1/u$ ) will save both space and typesetting costs.

Attention should be paid to the consistent use of braces, brackets, and parentheses.

## **Figures**

All photographs, graphs and diagrams should be referred to as a 'Figure' and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labelled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and note its approximate location in the margin. Please place the legends in the manuscript after the references.

## **Tables**

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without

abbreviations) to each table, refer to the table in the text and note its approximate location in the margin. Finally, please place the tables after the figure legends in the manuscript.

## Copyright

Authors will be asked, upon acceptance of an article, to transfer copyright of the articles to the publisher. Consent to Publish in this journal entails the author's irrevocable and exclusive authorisation of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17, paragraph 2, of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S.351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of court in connection herewith.

## Proofs

The author will receive two sets of page proofs of the article from the printer (with an annotated copy of the manuscript), and is requested to return one, corrected, with the manuscript to the publisher without delay.

In the case of proofs not being returned in time, they may be read by the Editor against a second copy of the manuscript and passed for publication without the author's comments.

## Offprints

Twenty-five offprints of each article will be provided free of charge to the first-named author of each paper. Additional offprints can be ordered at the current rate when proofs are returned to the publisher.

## **Page Charges**

No page charges are levied on authors or their institutions.

## **Springer Open Choice**

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springer's online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit [www.springer.com/openchoice](http://www.springer.com/openchoice) to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
