

CONTENTS

PART I. INTRODUCTION

1. Plant Diversity and Classification	3
Concepts of Classification	4
Categories of Classification	16
Kingdoms of Living Organisms	17
Subkingdoms, Divisions, and Classes of Plants	18
Botanical Research	26
Botanical Nomenclature	29
Suggested Reading	33
Student Exercises	33
Special Interest Essay 1-1	35
Special Interest Essay 1-2	37
2. Plant Diversity in Time and Space	39
The Fossil Record	42
Ecology and Plant Diversity	53
Life Cycles	58
Botany and Human Survival	63
Suggested Reading	64
Student Exercises	64
Special Interest Essay 2-1	65

PART II. THE RED LINE

3. Prokaryotes or Fission Plants	69
Class 1. Schizomycopsida	75
Class 2. Cyanophycopsida	96
Viruses	109
Suggested Reading	113
Student Exercises	113
4. Red Seaweeds	115
Class 1. Rhodophycopsida	116
Suggested Reading	141
Student Exercises	141
Special Interest Essay 4-1	143

5. Terrestrial Fungi: Molds and Mushrooms 145

Microkaryophytes	147
Class 1. Ascomycopsida	152
Fungi Imperfecti	172
Class 2. Zygomycopsida	178
Class 3. Basidiomycopsida	185
Suggested Reading	204
Student Exercises	204
Special Interest Essay 5-1	205
Special Interest Essay 5-2	207

6. Lichens and Other Symbiotic Plants 209

Lichens	210
Mycorrhizae	228
Other Symbioses	232
Suggested Reading	233
Student Exercises	233

PART III. THE BROWN LINE

7. Fire Plants and Cryptophytes 237

Class 1. Cryptophycopsida	239
Class 2. Dinophycopsida	248
Suggested Reading	256
Student Exercises	256
Special Interest Essay 7-1	257

8. Slime Molds 261

Class 1. Acrasiomycopsida	264
Class 2. Labyrinthulomycopsida	269
Class 3. Myxomycopsida	273
Suggested Reading	282
Student Exercises	283

9. The Ubiquitous Algae: Diatoms and Other Chrysophytes 285

Class 1. Xanthophycopsida	288
Class 2. Chrysophycopsida	294
Class 3. Bacillariophycopsida	299
Suggested Reading	310
Student Exercises	311
Special Interest Essay 9-1	311
Special Interest Essay 9-2	312

10. Flagellated Fungi	315
Class 4. Mastigomycopsida	316
Suggested Reading	325
Student Exercises	325
Special Interest Essay 10-1	326
11. Kelps and Other Brown Seaweeds	329
Class 1. Phaeophycopsida	330
Suggested Reading	347
Student Exercises	347
Special Interest Essay 11-1	348

PART IV. THE GREEN LINE

12. Euglenids	353
Class 1. Euglenophycopsida	354
Suggested Reading	362
Student Exercises	362
13. The Pond "Mosses", Siphonophytes, and Stoneworts	365
Class 1. Chlorophycopsida	366
Class 2. Siphonophycopsida	383
Class 3. Charophycopsida	391
Suggested Reading	396
Student Exercises	397
Special Interest Essay 13-1	398
Special Interest Essay 13-2	400
14. Mosses and Liverworts	401
Class 1. Hepaticopsida	404
Class 2. Bryopsida	416
Suggested Reading	430
Student Exercises	431
15. The Fern Allies and Origin of the Vascular Plants	433
General Characteristics of the Tracheophyta	435
Class 1. Psilopsida	447
Class 2. Lycopsida	452
Class 3. Sphenopsida	460
Suggested Reading	465
Student Exercises	465
Special Interest Essay 15-1	466

16. Ferns	469
Class 4. Filicopsida	470
Suggested Reading	484
Student Exercises	484
17. Plants with Seeds: the Gymnosperms	487
Class 5. Pinopsida	490
Class 6. Gnetopsida	512
Suggested Reading	518
Student Exercises	518
Special Interest Essay 17-1	519
18. Plants with Seeds: the Flowering Plants	523
Class 7. Anthopsida	524
Suggested Reading	573
Student Exercises	573
Glossary	575
Bibliography	587
Index	607
