

CONTENTS

Title/Author	Page No.
Editorial Note	
An analysis of aeromycoflora at a vegetable market of Lucknow <i>Asha Khandelwal and Lily Misra</i>	1-10
Weed allergens of Paschim Medinipore District, West Bengal <i>Ashish Kumar Gupta</i>	11-18
Influence of spectral quality of light on <i>in vitro</i> pollen germination and tube elongation in pearl millet <i>B. Subba Rao and B. Krishna Murty Raju</i>	19-24
Pollinator fauna and foraging behaviour of honey bees in onion ecosystem <i>Basavaraj S. Kalmath and H.N. Sattigi</i>	25-28
Foraging activity of honeybees in onion ecosystem <i>Basavaraj S. Kalmath and H.N. Sattigi</i>	29-33
Effectiveness of different bee attractants in attracting bees in onion ecosystem <i>Basavaraj S. Kalmath and H.N. Sattigi</i>	35-39
Use of attractants in maximising the quantitative parameters of onion seed <i>Basavaraj S. Kalmath and H.N. Sattigi</i>	41-46
Aeromycology in urban air of Hyderabad <i>O.Bhagya Lakshmi and P.V.Saroja</i>	47-50

Fungal airspora over a polluted environment of garbage disposal plant, Pune

S.K. Bharati, T.N. More, S.B. Jogdand and S.T. Tilak '51-60

Quaternary Vegetational history of lateritic zones of West Bengal, India

Gorachand Bishayee and Kashinath Bhattacharya 61-76

Variability for pollen traits in *Gladiolus* Genotypes

T. Janakiram, M.V. Balaram, S. Ganeshan and E. Vasantha Kumar 77-84

Importance of pollen of horticultural crops for honey bees

K. L. Kakar 85-92

Airborne fungi of Poultry environment

Karuna S. Verma and Payal Shrivastava 93-94

Aeromycoflora of a vegetable and fruit market in relation to occurrence of market diseases

C. J. Khilare and B. D. Varpe 95-107

Pollen flora of honeybees in Visakhapatnam

P. Kiran Kumari, E. U.B. Reddi and A.J. Solomon Raju 109-118

Remote sensing of pollen and its related phenological environments

A. Narayana Swamy, A. Siva Parvathi and V. Naga Lakshmi 119-126

Effect of number of bee visits on fruit set and some fruit characters in *Cucumis sativus* L.

K.B. Prakash, S. M. Sajjanar, G. Kuberappa, H. P. Prabhuswamy and G. Eswarappa 127-130

Pollination potentiality of honeybees in increasing productivity of Guava in Karnataka

D. Rajagopal and G. Eswarappa 131-141

Pollinator activity on Guava flowers with special reference to colony status of *Apis cerana* in Karnataka

D. Rajagopal and G. Eswarappa 143-149

Fungal air spora of Mangavaram Village, Visakhapatnam District, Andhra Pradesh

K. Rangaiah and A.J. Solomon Raju 151-169

Ecofloristic survey of Agartala, Tripura with reference to aerobiology

Reema Saha and B.K. Datta 171-176

Foraging activity and pollinating efficiency of the Indian honeybee, *Apis cerana indica* in Spice Basil, *Ocimum gratissimum*

S. M. Sajjanar, H. P. Prabhuswamy, D. Rajagopal and G. C. Kuberappa 177-181

Pollen analysis of squeezed honey in the forest environs of Tirupati, Chittoor District, Andhra Pradesh

S. Saleem Basha, T. Md. Hussain, Md. Arifullah and G. Rama Gopal 183-193

Influence of bee attractants on pollinator visitation and yield parameters in Sesamum

B.S. Patil and Shashidhar Viraktamath 195-204

Explosive pollen release, pollination and seed dispersal mediated by birds in *Dendrophthoe falcata* Ettingsh. (Loranthaceae)

A.J. Solomon Raju and S. Purnachandra Rao 205-210

Pollen productivity in honeybee flora

A.J. Solomon Raju 211-220

Pollen and Environment

A.J. Solomon Raju 221-223

Pollen biology of some weed plants

N.C. Surya Prakasa Raju, Md. Arifullah and G. Rama Gopal 225-231
