

CONTENTS

chapter	page
1 Biology—The Study of Life	1
DISTINCTIVE FEATURES OF LIVING MATTER • THE VIRUSES • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	
2 The Place of Biology in Science	14
THE KINDS OF SCIENCE • THE SCIENTIFIC METHOD • CON- TROLS IN SCIENTIFIC EXPERIMENTS • THE SCIENTIFIC METHOD IN ACTION • THE SCIENTIFIC ATTITUDE • THE PRACTICALITY OF SCIENTIFIC RESEARCH • SUBDIVISIONS OF BIOLOGY • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	
3 The Systematic Arrangement of Living Things	28
THE BEGINNING OF MODERN TAXONOMY • ADVANTAGES OF SCIENTIFIC NAMES • METHOD OF CLASSIFICATION • THE DIS- TINCTION OF A SPECIES • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	
4 The Plant Kingdom	36
SIMPLE GREEN PLANTS, THE ALGAE • PLANTS WITHOUT CHLO- ROPHYLL, THE FUNGI • THE LIVERWORTS AND MOSSES • THE FERNS AND THEIR ALLIES • SEED PLANTS • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	
5 The Animal Kingdom	49
ONE-CELLED ANIMALS • SPONGES • COELENTERATES • FLAT- WORMS • ROUNDWORMS • THE SEGMENTED WORMS • THE ECHINODERMS • THE MOLLUSKS • THE ARTHROPODS • THE CHORDATES • REVIEW QUESTIONS AND PROBLEMS • REFER- ENCES	
6 The Evolution of Life on Earth	67
ANCIENT BELIEFS ON THE DEVELOPMENT OF LIFE • DEVELOP- MENT OF MODERN CONCEPTS • EVOLUTION TODAY • EVIDENCES OF EVOLUTION • REVIEW QUESTIONS AND PROBLEMS • REFER- ENCES	
7 The Atomic Basis of Life	88
THE NATURE OF ATOMS • ISOTOPES OF ATOMS • MOLECULES • ORGANIC AND INORGANIC COMPOUNDS • IONIZATION OF MOLE- CULES • ACIDS, BASES, AND SALTS • KINDS OF MIXTURES • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	

chapter

page

8 The Origin of Life**108**

THE EARLY EARTH • CHEMICAL PRECURSORS OF LIVING MATTER
• FORMATION OF EARLY ORGANIC COMPOUNDS • THE EMER-
GENCE OF LIFE • THE DEVELOPMENT OF ENZYMES • THE DE-
VELOPMENT OF CELLS • CELL GROWTH AND DUPLICATION • A
PROBLEM IN NUTRITION • DEVELOPMENT OF PHOTOSYNTHESIS
• IMPORTANCE OF ATMOSPHERIC OXYGEN • REVIEW QUESTIONS
AND PROBLEMS • REFERENCES

9 The Cell as a Unit of Living Matter**123**

NEW TECHNIQUES FOR STUDYING CELLS • THE SIZE AND
SHAPE OF CELLS • THE STRUCTURE OF AN ANIMAL CELL • THE
STRUCTURE OF PLANT CELLS • CELLS AND TISSUES • REVIEW
QUESTIONS AND PROBLEMS • REFERENCES

10 Movement of Materials Into and Out of The Cell**134**

DIFFUSION • DIFFUSION THROUGH A MEMBRANE • OSMOSIS •
FILTRATION • SELECTIVE NATURE OF LIVING MEMBRANE •
PINOCYTOSIS • THE SURFACE-VOLUME RATIO • REVIEW QUES-
TIONS AND PROBLEMS • REFERENCES

11 Gene and Cell Duplication**144**

THE STRUCTURE OF GENES • THE DUPLICATION OF GENES •
CELL MITOSIS • REGULATION OF MITOSIS • THE CHROMOSOME
NUMBER • REVIEW QUESTIONS AND PROBLEMS • REFERENCES

12 Gene Control of Cell Activity**158**

THE MESSENGERS OF THE GENES • PROTEIN SYNTHESIS IN THE
RIBOSOMES • TRANSFER RNA • GENE MUTATION • GENES
AND ENZYMES • AN ENZYME SERIES IN MAN • CONTROL OF
GENE ACTION • REVIEW QUESTIONS AND PROBLEMS • REFER-
ENCES

13 Energy Conversion in the Cell**169**

ENERGY REQUIREMENTS OF LIVING THINGS • AEROBIC RESPIRA-
TION • EFFICIENCY OF AEROBIC METABOLISM IN ENERGY YIELD
• BASAL METABOLIC RATE • METABOLIC PATHWAYS OF OTHER
FOODS • ANAEROBIC RESPIRATION • REVIEW QUESTIONS AND
PROBLEMS • REFERENCES

14 Photosynthesis**181**

THE SUN'S ENERGY • RAW MATERIALS OF PHOTOSYNTHESIS •
CAPTURE OF THE LIGHT ENERGY • LIMITATIONS ON PHOTO-
SYNTHESIS • EFFICIENCY OF DIFFERENT COLORS OF LIGHT •
INTERDEPENDENCE OF PLANTS AND ANIMALS • REVIEW QUES-
TIONS AND PROBLEMS • REFERENCES

chapter

page

15	Homeostasis—Maintaining the Steady State	198
	Thermostatic regulation • Feedback regulation • Water balance in leaves • Genetic homeostasis • Ecological homeostasis • Review questions and problems • References	
16	Obtaining Raw Materials and Eliminating Wastes	212
	Water and mineral absorption by roots • Food procurement in animals • Gas exchange in animals • The transportation of gases in the body • The control of breathing • Excretion in animals • Review questions and problems • References	
17	Transportation	228
	Transport in plants • Transport in invertebrate animals • Transport in vertebrate animals • Heart beat and blood pressure • The blood • Tissue fluid and lymph • The blood types • The Rh factor • Review questions and problems • References	
18	Support and Movement	247
	Support in plants • Movement in plants • Support and movement in invertebrates • The vertebrate skeletal systems • Movement in vertebrates • Isolated muscle-nerve preparations • The physiology of muscle contraction • Review questions and problems • References	
19	Coordination of Animal Activity	264
	Invertebrate nervous systems • The vertebrate nervous system • The nerve impulse • The sense organs of man • Review questions and problems • References	
20	Regulation by Hormones in Animals	283
	Hormones in invertebrates • Hormones in vertebrates • Thyroid hormones • Parathyroid hormone • Pancreatic hormones • The adrenal hormones • Hormones of the testes • Hormones of the ovaries • The pituitary gland • Other hormones • Review questions and problems • References	
21	Regulation by Hormones in Plants	297
	Regulation of growth • Synthetic auxins as weed killers • Response to light, phototropism • Auxins and root production • Auxins and spring growth • Auxins and fruit production • Photoperiodism • Vernalization • The gibberellins • The kinins • Review questions and problems • References	

chapter		page
22	Continuation of the Species ASEXUAL REPRODUCTION • SEXUAL REPRODUCTION • MEIOSIS AND GAMETE PRODUCTION • FERTILIZATION IN ANIMALS • ALTERNATION OF GENERATIONS IN PLANTS • REVIEW QUES- TIONS AND PROBLEMS • REFERENCES	312
23	The Principles of Heredity MONOHYBRID INHERITANCE • GENES AND CHROMOSOMES • GENETIC RATIOS • INTERMEDIATE GENES AND HETEROZYGOUS EXPRESSIONS • INDEPENDENT SEGREGATION OF GENES • LINKED GENES AND CROSSING OVER • SEX DETERMINATION • NON-DIS- JUNCTION OF OTHER CHROMOSOMES • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	332
24	Gene Action MULTIPLE ALLELES • MULTIPLE GENES • GENES AND ENZYMES • HEMOGLOBIN FORMATION IN MAN • ENVIRONMENTAL MOD- IFICATION OF GENE EXPRESSION • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	350
25	The Development of an Organism EARLY SPECULATION ABOUT DEVELOPMENT • THE METHOD OF ANIMAL EMBRYONIC DEVELOPMENT • THE EMBRYONIC MEMBRANES • EXPERIMENTS ON EMBRYONIC DEVELOPMENT • REGENERATION IN ANIMALS • CONTROL OF REGENERATION • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	366
26	Associations of Living Things POPULATIONS • SOCIETIES • SOCIAL HIERARCHIES • COMMUNI- TIES • SYMBIOSIS • ECOSYSTEMS OF THE EARTH • MOUN- TAIN ECOSYSTEMS • OCEAN ECOSYSTEMS • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	384
27	Man and Biological Communities of the Future PROBLEMS OF HUMAN POPULATION • PROBLEMS OF LAND ERO- SION • PROBLEMS DEPLETION OF NATURAL RESOURCES • WATER CONSERVATION • PROBLEMS OF INDUSTRIAL WASTES • PROB- LEMS OF CONTROL OF INSECT PESTS • PUBLIC HEALTH AND DISEASE • PROBLEMS OF HIGH-ENERGY RADIATION • REVIEW QUESTIONS AND PROBLEMS • REFERENCES	406
	Glossary	425
	Index	441
