Profiles of Commercial Biotechnology Companies, Universities, Institutes & Research Organisations

- Within this section are companies and organisations that produce goods or services using a biotechnology process, or are involved in research in these areas.
- Profiles are sorted alphabetically by country, then within country alphabetically by commercial status and company or organisation name.
- To find a company or organisation by name, turn to the Company & Organisation Index at the back of the Directory on page 1019. This index will indicate the country as well as the page numbers of the entry, companies may often appear in more than one section.
- To find a company or organisation by activity, turn to the Activity Index at the start of the Profile section on page 3. These activities are arranged alphabetically and combine companies or organisations with common activities, showing their country and page number.
