

## CONTENTS

### I. INTRODUCTION

1. A Perspective on S-Layer Research . . . . . 3  
R. G. E. Murray

### II. STRUCTURAL ANALYSIS OF S-LAYERS

2. Crystallographic Image Processing Applications for S-Layers . . . . . 13  
Sven Hövmöller
3. Structures of Paracrystalline Protein Layers from the Hyperthermophilic  
*Archaeobacterium Pyrobaculum* . . . . . 23  
Barry M. Phipps
4. S-Layers Found on Clinical Isolates . . . . . 33  
Kari Lounatmaa, Markus Haapasalo, Eero Kerosuo, and  
Hannele Jousimies-Somer
5. A Common Structural Principle in the Surface Layers of the Archaeobacteria  
*Haloferax*, *Halobacterium*, and *Archaeoglobus* . . . . . 45  
Martin Kessel and Shlomo Trachtenberg

### III. S-LAYERS OF AGRICULTURAL AND ENVIRONMENTAL IMPORTANCE

6. Crystalline Surface-Layers of the Genus *Lactobacillus* . . . . . 57  
Sylvie Lortal
7. Ultrastructural and Chemical Characterization of a Cyanobacterial S-Layer Involved  
in Fine-Grain Mineral Formation . . . . . 67  
Susanne Schultze-Lam and Terry J. Beveridge
8. Advances in S-Layer Research of Chroococcal Cyanobacteria . . . . . 77  
Jan Šmarda and Jiří Komrská
9. Predation on Bacteria Possessing S-Layers . . . . . 85  
Susan F. Koval

#### IV. CHEMISTRY AND MOLECULAR BIOLOGY OF S-LAYERS

10. Glycoprotein Nature of Select Bacterial S-Layers . . . . . 95  
Paul Messner, Judith Schuster-Kolbe, Christina Schäffer, Uwe B. Sleytr, and  
Rudolf Cristian
11. S-Layer Glycoproteins from Moderately and Extremely Halophilic  
Archaeobacteria . . . . . 109  
Manfred Sumper
12. The Unique Chemical Formats and Biosynthetic Pathways of Methanogenic  
Surfaces . . . . . 119  
Helmut König, Evamarie Hartmann, Günther Bröckl, and Uwe Kärcher
13. Paracrystalline Layers of *Methanospirillum hungatei* GP1 . . . . . 129  
Gordon Southam, Terry J. Beveridge, and G. Dennis Sprott
14. Structural and Functional Analysis of the S-Layer Protein from *Bacillus*  
*stearothermophilus* . . . . . 143  
Beatrix Kuen, Werner Lubitz, and Geoffrey J. Barton
15. Structure-Function Aspects of the *Aeromonas salmonicida* S-Layer . . . . . 151  
William W. Kay, Julian C. Thornton, and Raphael A. Garduño
16. Molecular, Structural and Functional Properties of *Aeromonas* S-Layers . . . . . 159  
Trevor J. Trust
17. Biology of *Campylobacter fetus* S-Layer Proteins . . . . . 173  
Martin J. Blaser
18. Definition of Form and Function for the S-Layer of *Caulobacter crescentus* . . . . 181  
Wade H. Bingle, Stephen G. Walker, and John Smit

#### V. APPLICATIONS FOR S-LAYERS

19. S-Layers as Immobilization and Affinity Matrices . . . . . 195  
Margit Sára, Seta Küpcü, Christian Weiner, Stefan Weigert, and Uwe B. Sleytr
20. Molecular Nanotechnology with S-Layers . . . . . 205  
Dietmar Pum and Uwe B. Sleytr
21. Surface Layers from *Bacillus alvei* as a Carrier for *Streptococcus pneumoniae*  
Conjugate Vaccine . . . . . 219  
Andrew J. Malcolm, Michael W. Best, Roderick J. Szarka, Zina Mosleh,  
Frank M. Unger, Paul Messner, and Uwe B. Sleytr
22. Scale-up of S-Layer Protein Secretion by *Bacillus brevis* 47 . . . . . 235  
A. J. Daugulis, G. K. Whitney, A. Wong, C. P. Wight, and B. N. White

23. Investigation of Lattice Surface Layers by Scanning Probe Microscopy . . . . . 243  
 Max Firtel, Gordon Southam, Terry J. Beveridge, Wei Xu,  
 Manfred M. Jericho, Brad L. Blackford, and Peter J. Mulhern
24. Stable Liposomes Formed from Archaeal Ether Lipids . . . . . 257  
 Christian G. Choquet, Girischandra B. Patel, G. Dennis Sprott, and  
 Terry J. Beveridge

## VI. POSTER PRESENTATIONS

25. Structural Analysis of the Paracrystalline Layer of *Campylobacter fetus* subsp.  
*venerealis* UA809 . . . . . 271  
 Lori L. Graham and Terry J. Beveridge
26. Effect of Triton X-100 on the S-Layer of *Methanoculleus marisnigri* . . . . . 277  
 Douglas P. Bayley and Susan F. Koval
27. Characterization of the S-Layer Glycoproteins of Two Lactobacilli . . . . . 281  
 Alexander Möschl, Christina Schäffer, Uwe B. Sleytr, Paul Messner,  
 Rudolf Cristian, and Gerald Schultz
28. Does the S-Layer of *Aeromonas salmonicida* Exist in More Than One Functional  
 Organizational State? . . . . . 285  
 Raphael A. Garduño, Julian C. Thornton, and William W. Kay
29. Attachment of the S-Layer of *Caulobacter crescentus* to the Cell Surface . . . . . 289  
 Stephen G. Walker and John Smit
30. Linker Mutagenesis of the *Caulobacter crescentus* S-Layer Protein . . . . . 293  
 Wade H. Bingle, Peter Awram, and John Smit
31. Can S-Layers of Bacillaceae Control the Release of Their Own Exoproteins? . . . 297  
 Elke Sturm, Eva Egelseer, Margit Sára, and Uwe B. Sleytr
32. S-Layer of *Bacillus stearothermophilus* PV72 . . . . . 303  
 Bea Kuen, Werner Lubitz, Margit Sára, and Uwe B. Sleytr
33. Role of a C-Terminal Domain in the Structure and Surface Anchoring of the  
 Tetragonal S-Layer of *Aeromonas hydrophila* . . . . . 307  
 Stephen R. Thomas, John W. Austin, and Trevor J. Trust
34. Identification and Characterization of an *Aeromonas salmonicida* Gene which  
 Affects A-Protein Expression in *Escherichia coli* . . . . . 311  
 Shijian Chu and Trevor J. Trust
35. Localisation and Cloning of Genes Involved in the Export of the A-Protein of  
*Aeromonas salmonicida* . . . . . 315  
 Brian Noonan, Sonia Cavaignac, and Trevor J. Trust
