

CONTENTS

BIOENERGETICS

New insight into the structure and mechanism of redox proton pumps S. PAPA, M. LORUSSO, N. CAPITANIO and G. VILLANI	3
The respiratory stimulation of hyperthyroid mitochondria G.F. AZZONE, M. CANTON, I. SCHMEHL and S. LUVISETTO	13
Regulation of electron transport and proton pumping of cytochrome c oxidase by nucleotides and thyroid hormones B. KADENBACH, R. FREUND, J. BARTH, R. AKGUN, D. LINDER and F. GOGLIA	19
Mitochondrial oxygen uptake as the expression of both the one-trans-membrane and the bi-trans-membrane electron transport chains N.E. LOFRUMENTO, D. MARZULLI, G. LA PIANA, L. CAFAGNO and E. FRANSVEA	25
Role of F_0 and F_1 subunits in the gating and coupling functions of the F_0 - F_1 ATP synthase F. GUERRIERI, F. ZANOTTI, G. CAPOZZA and S. PAPA	31
Interference of sulfite and phosphate on the activation of bacterial H^+ -ATP synthase by $\Delta\mu H^+$ V. FREGNI and B.A. MELANDRI	39
Interaction of coenzyme Q with the mitochondrial respiratory chain G. LENAIZ, R. FATO, M. CAVAZZONI, S. DI BERNARDO, M.L. GENOVA, M. MERLO PICH, A. BARACCA, S. BAROGI, C. CASTELLUCCIO, C. BOVINA, G. FORMIGGINI, G. PARENTI CASTELLI and M. MARCHETTI	45
Some male sex hormones, progesterone and 6-ketocholestanol counteract uncoupling effects of low concentrations of the most active protonophores A.A. STARKOV, V.I. DEDUKHOVA, D.A. BLOCH, I.I. SEVERINA and V.P. SKULACHEV	51
Structure and mechanism of the Quinol-oxidation site of the mitochondrial bc_1 complex U. BRANDT	57
TRANSPORT	
25 years gated pore mechanism - Where are we now? M. KLINGENBERG	65

Conformational changes of the beef heart and yeast mitochondrial ADP/ATP carrier	
G. BRANDOLIN, A. LE SAUX, P. ROUX, V. TREZEGUET, C. FIORE, C. SCHWIMMER, A.C. DIANOUX, G.J.M. LAUQUIN and P.V. VIGNAIS	71
The mitochondrial uncoupling protein UCP / genetic and structural studies	
D. RICQUIER, M. LAROSE, A-M. CASSARD-DOULCIER, C. FLEURY, C. LEVI-MEYRUEIS, S. RAIMBAULT and F. BOUILLAUD	77
Comparison of functional and structural aspects of the reconstituted phosphate and aspartate/glutamate carrier from mitochondria	
K. HERICK, R. STAPPEN and R. KRAMER	83
New aspects in mitochondrial transport and metabolism of metabolites and vitamin derivatives	
S. PASSARELLA, A. ATLANTE and M. BARILE	89
Further insight into the structural properties of the mitochondrial oxoglutarate carrier	
F. BISACCIA, L. CAPOBIANCO, M. MAZZEO, A. DE PALMA and F. PALMIERI	95
The purified and reconstituted ornithine carrier from rat liver mitochondria catalyzes three different transport modes	
C. INDIVERI, A. TONAZZI, L. PALMIERI and F. PALMIERI	101
The mitochondrial porins	
R. BENZ, B. POPP, P. WIESNER and A. SCHMID	107
The motor of mitochondrial protein import: a mitochondrial analog of the Sec63p-Kar2p system	
J. RASSOW and N. PFANNER	113
The permeability transition pore. History and perspectives of a cyclosporin A-sensitive mitochondrial channel	
P. BERNARDI	119
On the nature of the cyclosporin A binding component of the mitochondrial Ca^{2+} - dependent pore	
M. CROMPTON, L. ANDREEVA, A. TANVEER and A. LEYSSENS	125
BIOGENESIS	
Mitochondrial DNA evolution: facts and fantasy	
C. SACCONI, C. GISSI, G. PESOLE and E. SBISA'	131
The alternatively spliced form of human mitochondrial transcription factor A displays altered DNA binding properties	
D.J. DAIRAGHI, G.S. SHADEL and D.A. CLAYTON	137

Nuclear-mitochondrial coevolution of RNA processing enzymes and cellular function	
W.ROSSMANITH, A. TULLO, E.-M. IMRE, C. SACCONI, E. SBISA' and R. KARWAN	143
Mitochondrial genomes of anthozoa (Cnidaria)	
C.T. BEAGLEY, J.L. MACFARLANE, G.A. PONT-KINGDON, R. OKIMOTO, N.A. OKADA and D.R. WOLSTENHOLME	149
The mitochondrial genome in sea urchin	
C. DE GIORGI, A. MARTIRADONNA, C. LANAVE and C. SACCONI	155
Protein factors involved in the replication of sea urchin mitochondrial DNA	
P. CANTATORE, M. ROBERTI, P. LOGUERCIO POLOSA, C. MUSICCO and M.N. GADALETA	161
Yeast mitochondrial RNase P: an unusual member of the RNase P enzyme family	
G.-J. GAO, K.R. GROOM, M.C. STEFFEN and N.C. MARTIN	167
Nucleo-cytoplasmic interactions in the expression of mitochondrial tRNA genes in yeast	
T. RINALDI, C. PALLESCHI, B. CARDAZZO, S. FRANCISCI, E. ZENNARO, S. LORENZETTI, G. CARIGNANI and L. FRONTALI	173
Import of transfer RNAs into plant mitochondria	
A. COSSET, A. DIETRICH, L. MARECHAL-DROUARD, J.H. WEIL, V. CARNEIRO and I. SMALL	177
Different conservation of introns I and II in the mitochondrial coxII genes of several angiosperms	
C. DE BENEDETTO, M. ALBRIZIO, R. GALLERANI and L.R. CECI	183
Structure and expression of complex I in plant mitochondria	
L. GROHMANN, U. HERZ, O. THIECK, V. HEISER, K. SCHMIDT-BLEEK, T. LIN and A. BRENNICKE	189
Conserved clusters of tRNA genes in the mitochondrial genomes of dicotyledonous plants	
L.R. CECI, P. VERONICO, B. GATTULLI and R. GALLERANI	195
Rate variation in nucleotide substitutions among sites of the D-loop region of humans	
G. PESOLE, M. ATTIMONELLI, E. SBISA' and C. SACCONI	201

MITOCHONDRIAL DISEASES

Replication of a heteroplasmic population of normal and partially-deleted human mitochondrial genomes C.T. MORAES and E.A. SCHON	209
Morphological observations in mitochondrial diseases E. RICCI, S. SERVIDEI, G. SILVESTRI, A. SPINAZZOLA, A. BROCCOLINI and P. TONALI	217
Molecular pathogenesis of mitochondrial diseases M. ZEVIANI, F. TARONI, C. GELLERA and S. DIDONATO	223
Defects of mitochondrial membrane-bound transport proteins in human mitochondriopathies: a biochemical approach W. RUITENBEEK, M. HUIZING, V. DE PINTO, F.P. THINNES, J.M.F. TRIJBELS, U. WENDEL and R.C.A. SENGERS	225
Structure and expression of mitochondrial DNA in aging rat: DNA deletions and protein synthesis M.N. GADALETA, G. RAINALDI, A.M.S. LEZZA, L.C. MARANGI, F. MILELLA, L. DADDABBO, F. FRACASSO, P. LOGUERCIO POLOSA and P. CANTATORE	231
Bioenergetics of mitochondria determine cell survival in stressful conditions P. CORBISIER, O. TOUSSAINT and J. REMACLE	237
Molecular basis of the age-dependent decrease in the cytochrome oxidase activity in rat heart mitochondria G. PARADIES, G. PETROSILLO and F.M. RUGGERO	243
Mitochondrial diseases and aging D.C. WALLACE, M.T. LOTT, I. TROUNCE, M.D. BROWN, K. HUOPONEN, N. KRAWIECKI and J.M. SHOFFNER	249
INDEX OF AUTHORS	253
