Acknowledgments	xv

INTRODUCTION

The Scientific Contributions of Ralph L. Brinster to Understanding Mammalian Embryo Development and Eukaryotic Gene Expression	
Robert E. Hammer	1
Comment	
R.L. Brinster	31
Leroy C. Stevens: An Appreciation	
G. Barry Pierce	33

SECTION 1. MODELS TO STUDY GENE EXPRESSION DURING DIFFERENTIATION-STEROID HORMONES

The Studies of COUP Transcription Factor From HeLa Cells: Purification and Partial Characterization	
Lee-Ho Wang, Sophia Y. Tsai, Heng Wang, Ikuko Sagami, Ming-Jer Tsai, and Bert W. O'Malley	37
Mapping <i>cis</i>-DNA Regulatory Elements in Seminal Vesicle Secretion Genes, Prostate C3(1) Gene, and the Mouse Mammary Tumor Virus-Long Terminal Repeat DNA	
S.E. Harris, M.G. Parker, P. Webb, M. Needham, Roger White, J. Ham, and M.A. Harris	53

SECTION 2. THE MAMMALIAN EGG

Egg-Induced Modifications of the Mouse <i>Zona Pellucida</i>	
Richard M. Schultz, Yoshihiro Endo, Peter Mattei, Shigeaki Kurasawa, and Gregory S. Kopf	77

SECTION 3. THE BIOLOGY OF THE EMBRYO**Organization of Homeodomain Proteins**

Michael Kessel, Mathias Fibi, and Peter Gruss 93

The Location, Modification, and Function of the *fushi tarazu* Protein During *Drosophila* Embryogenesis

Henry M. Krause and Walter J. Gehring 105

SECTION 4. TERATOCARCINOMAS**Recombinant Retrovirus, Cell Lineage, and Gene Expression in the Mouse Embryo**

Jean-François Nicolas and Claire Bonnerot 125

Analysis of a Lethal Mutation (*t^{w18}*) in the Mouse *t*-Complex

Gail R. Martin, Alexandra Joyner, Lee M. Silver, Hans Lehrach, and Maja Bucan 147

SECTION 5. MANIPULATION OF GENES AND EMBRYOS**The Expression of Viral and Cellular Genes in Papillomas of the Choroid Plexus Induced in Transgenic Mice**

J. Marks, J. Lin, D. Miller, G. Lozano, J. Herbert, and A.J. Levine 163

SECTION 6. *cis*/TRANS-ACTING FACTORS DURING GENE ACTIVATION**Involvement of *fos* as a *Trans*-Acting Factor in Adipogenic Gene Expression**

Robert J. Distel and Bruce M. Spiegelman 187

Characterization of the *cis* and *Trans* Elements Essential for Rat Insulin II Gene Expression

David T. Crowe, Young-Ping Hwung, Sophia Y. Tsai, and Ming-Jer Tsai 211

Transcriptional Regulation of Competence Genes in Balb/c-3T3 Cells

Brent H. Cochran, John Townes, and Timothy E. Hayes 225

Index 243
