

TABLE OF CONTENTS

Volume I

Introduction	1
Ladislav Robert and William Hornebeck	
SECTION A: ELASTIN	
I. MORPHOLOGY-ULTRASTRUCTURE	
Chapter 1	
Use of Pycnogenols in the Histological Staining of Elastic Fibers and Their Quantification in Several Tissues by Automated Image Analysis	7
Gaston Godeau and Alexandre-Michel Robert	
Chapter 2	
Ultrastructural Properties of Elastin	21
Anna Kádár	
Chapter 3	
The Microfibrillar Component of Elastic Tissue	31
Edward G. Cleary, Mark A. Gibson, and J. C. Fanning	
II. BIOCHEMICAL PROPERTIES OF ELASTIN	
Chapter 4	
Isolation, Characterization, and Biochemical Properties of Elastin	49
Marie Paule Jacob and Ladislav Robert	
Chapter 5	
Biosynthesis and Regulation: Structure of the Bovine and Human Elastin Genes	67
Helena Yeh, Norma Ornstein-Goldstein, Zena Indik, and Joel Rosenbloom	
Chapter 6	
Regulation of Elastin Gene Expression	83
Jeffrey M. Davidson	
Chapter 7	
Regulation of Elastin Biosynthesis by Vitamins and Hormones	91
Carl Franzblau, Peter J. Mogayzel, Jr., Barbara Faris, Leesa M. Barone, and Peter R. Bergethon	
Chapter 8	
Posttranslational Modification of Elastin: Lysine Oxidation and Cross-Linking	109
Herbert M. Kagan	
Chapter 9	
Cross-Linking in Elastin	127
S. Miles Partridge	
Chapter 10	
Physicochemical Properties of Elastin and Constituent Peptides	141
Dan W. Urry	

Chapter 11	
Elastin Structure as Determined by Solid Phase, Liquid, and GAS Microsequencing...	175
Lawrence B. Sandberg, Russell W. Blacher, Charles T. Leach, Donald Wilder Smith, and Robert B. Rucker	
Chapter 12	
Immunological Properties of Elastin.....	187
Marie Paule Jacob, Tamás Fülöp, Jr., and Ladislav Robert	
Chapter 13	
Biological Effects of Elastin Peptides	201
Tamás Fülöp, Jr., Marie Paule Jacob, and Ladislav Robert	
III. ELASTIC FIBERS IN CELL-MATRIX INTERACTIONS	
Chapter 14	
Influence of Extracellular Matrix on Elastin Biosynthesis	213
William C. Parks and Robert P. Mecham	
Chapter 15	
Glycoproteins Associated with Elastic Tissues and Microfibrils	229
Madeleine Moczar, J. Labat-Robert, and Ladislav Robert	
Chapter 16	
Characterization of Glycoproteins in Cell Cultures from Elastic Tissues	245
Shirley Ayad and Michael E. Grant	
Chapter 17	
Interactions Between Lipids and Elastin.....	257
Ladislav Robert and Marie Paule Jacob	
Chapter 18	
Elastonectins: Inducible Proteins(s) Which Mediates the Attachment of Elastin to Mesenchymal Cells	287
William Hornebeck, Jean-Michel Tixier, and Ladislav Robert	
Chapter 19	
Interactions Between Blood-Borne Cells and Elastic Fibers	297
Yves Legrand, Françoise Fauvel-Lafeve, and Suzanne Menashi	
INDEX.....	305

TABLE OF CONTENTS

Volume II

SECTION A: ELASTASES

I. MECHANISMS OF ACTION

Chapter 1

- Mechanisms Involved in Elastin-Elastase Interaction 3
Jean M. Wallach and William Hornebeck

Chapter 2

- Mechanism of Action of Elastases 13
Joseph G. Bieth

II. ELASTASES: CHARACTERIZATION AND BIOLOGICAL ROLES

Chapter 3

- Human Neutrophil Elastase 23
Joseph G. Bieth

Chapter 4

- Human Platelet-Derived Elastase (EC.3.4.21-) 33
William Hornebeck and Yves J. Legrand

Chapter 5

- Macrophage Elastase 39
Chantal Lafuma and William Hornebeck

Chapter 6

- Aortic Elastase 49
William Hornebeck and Ladislav Robert

Chapter 7

- Fibroblast Elastase(s) 57
Rania Homsy, Pascale Pelletier-Lebon, Ladislav Robert, and William Hornebeck

Chapter 8

- On the Nature of the Elastase Activity of Human Serum 63
Rania Homsy, Maryse Ayrault-Jarrier, Ladislav Robert, and William Hornebeck

Chapter 9

- Pseudomonas aeruginosa* Elastase 73
Kazuyuki Morihara

III. BIOLOGICAL CONTROL OF ELASTOLYSIS AND THERAPEUTIC USE OF ELASTASE INHIBITORS

Chapter 10

- Control of Elastolysis by Elastase Inhibitors: Kinetic Aspects 87
Joseph G. Bieth

Chapter 11

- Properties of Naturally Occurring Elastase Inhibitors 95
Guy Salvesen and Jim Travis

Chapter 12	
Design and Properties of Synthetic Elastase Inhibitors	109
Morris Zimmerman and James C. Powers	
Chapter 13	
Targeted Bifunctional Elastase Inhibitors	125
William Hornebeck, Elemer Moczar, and Ladislav Robert	
Chapter 14	
Properties and Therapeutic Potential of Eglin C.	137
Hans-Peter Schnebli and Manfred H. Liersch	
SECTION B: ELASTIN AND ELASTASES IN PATHOLOGY	
Chapter 15	
Ultrastructure of Elastic Fibers in Pathology	147
Anna Kádár	
Chapter 16	
Elastin and Elastases in Lung Disease	159
Jerome O. Cantor and Gerard M. Turino	
Chapter 17	
Elastin and Elastases in the Pathology of the Arterial Wall	169
Fred W. Keeley, Livia Todorovich, and Marlene Rabinovitch	
Chapter 18	
Elastin and Elastic Fibers in Normal and Pathological Skins: Modifications with Aging	185
C. Frances, C. Robert, and Ladislav Robert	
Chapter 19	
Elastin in Human Breast Tumors	203
William Hornebeck, Anna Kádár, Jean-Jacques Adnet, Ladislav Robert, and Judit Mohácsy	
Chapter 20	
Neosynthesis of Elastin in Response to Vascular Injury	217
Madeleine Moczar	
Chapter 21	
The Temporal Arteritis/Polymyalgia Rheumatica Syndrome	227
John P. O'Brien	
Chapter 22	
Bovine Elastin A, B, and C	243
Rashid A. Anwar and Kaliannan Raju	
INDEX	257
