

Contents

Preface.....	vii
Editors.....	ix
Contributors.....	xi
Chapter 1 Endosomal and Lysosomal Electrophysiology.....	1
<i>Xiaoli Zhang, Mingxue Gu, Meiqin Hu, Yexin Yang, and Haoxing Xu</i>	
Chapter 2 Chloride Transport across the Lysosomal Membrane.....	19
<i>Sonali Saha, Anja Blessing, and Thomas J. Jentsch</i>	
Chapter 3 Endolysosomal Patch Clamping: Approaches to Measure Vesicular Ion Channel Activities.....	45
<i>Cheng-Chang Chen, Christian Grimm, Christian Wahl-Schott, and Martin Biel</i>	
Chapter 4 TRPML Subfamily of Endolysosomal Channels: Concepts and Methods.....	77
<i>Nicholas E. Karagas, Morgan A. Rousseau, and Kartik Venkatachalam</i>	
Chapter 5 Investigating the Role of Two-Pore Channel 2 (TPC2) in Zebrafish Neuromuscular Development.....	103
<i>Sarah E. Webb, Jeffrey J. Kelu, and Andrew L. Miller</i>	
Chapter 6 Functional Study of Lysosomal Nutrient Transporters.....	135
<i>Xavier Leray, Corinne Sagné, and Bruno Gasnier</i>	
Chapter 7 Lysosomal Vitamin B12 Trafficking.....	161
<i>Sean Froese and Matthias R. Baumgartner</i>	
Chapter 8 Detection of Lysosomal Membrane Permeabilization.....	177
<i>Anne-Marie Ellegaard, Line Groth-Pedersen, and Marja Jäättelä</i>	

Chapter 9	Rapid Isolation of Lysosomes from Cultured Cells Using a Twin Strep Tag	199
	<i>Jian Xiong, Jingquan He, Michael X. Zhu, and Guangwei Du</i>	
Chapter 10	A Transcriptomic Analysis and shRNA Screen for Intracellular Ion Channels and Transporters Regulating Pigmentation	209
	<i>Donald C. Koroma, Salwa Y. Hafez, and Elena Oancea</i>	
Index	233
