Introduction

291 Chromosome Architecture and Segregation in Prokaryotic Cells

Graumann, P.L. (Marburg)

Review Articles

301 Dynamic Organization: Chromosome Domains in *Escherichia coli*

Messerschmidt, S.J.; Waldminghaus, T. (Marburg)

316 Function of Nucleoid-Associated Proteins in Chromosome Structuring and Transcriptional Regulation

Dorman, C.J. (Dublin)

332 Order from the Order: How a Spatiotemporal Genetic Program Is Encoded in a 2-D Genetic Map of the Bacterial Chromosome

Muskhelishvili, G. (Bremen); Travers, A. (Cambridge)

344 Genomic Looping: A Key Principle of Chromatin Organization

van der Valk, R.A. (Leiden); Vreede, J. (Amsterdam); Crémazy, F.; Dame, R.T. (Leiden)

360 Chromosome Segregation in *Vibrio cholerae*

Ramachandran, R.; Jha, J.; Chatteraj, D.K. (Bethesda, Md.)

371 MukBEF, a Chromosomal Organizer

Rybenkov, V.V.; Herrera, V.; Petrushenko, Z.M.; Zhao, H. (Norman, Okla.)

384 Structural Maintenance of Chromosome Complex in Bacteria

Kleine Borgmann, L.A.K. (La Jolla, Calif.); Graumann, P.L. (Marburg)

396 The FtsK Family of DNA Translocases Finds the Ends of Circles

Crozat, E.; Rousseau, P.; Fournes, F.; Cornet, F. (Toulouse)

409 Polyploidy in Archaea and Bacteria: About Desiccation Resistance, Giant Cell Size, Long-Term Survival, Enforcement by a Eukaryotic Host and Additional Aspects

Soppa, J. (Frankfurt)

420 Archaeal Chromosome Biology

Samson, R.Y.; Bell, S.D. (Bloomington, Ind.)

428 Author Index/Subject Index
