xiii

VOLUME 1

Part I GROWTH AND PHYSIOLOGIC CHANGES AT BIRTH

1: INTRAUTERINE GROWTH

—*Peter Gruenwald*

3

2: MATURATION, ADAPTATION AND BIRTH TOLERANCE

—*Uwe Stave*

29

Part II RESPIRATION, CIRCULATION, AND BLOOD

3: RESPIRATION AND THE RESPIRATORY SYSTEM

—*Herbert S. Harned*

43

4: PULMONARY FUNCTION

—*Robert T. Herrington*

109

5: BIOCHEMICAL ASPECTS OF ALVEOLAR FUNCTION

—*George W. Brumley*

123

6: THE DYNAMICS OF THE FETAL HEART AND CIRCULATION AND ITS ALTERATION AT BIRTH

—*S. Zoe Walsh and John Lind*

141

7: BLOOD VOLUME

—*Thomas R. C. Sisson*

209

8: FORMED ELEMENTS OF THE HUMAN BLOOD

—*Emanuel Kauder and Alvin M. Mauer*

229

9: THE HEMOGLOBINS

—*Enno Kleihauer*

255

10: RESPIRATORY GAS TRANSPORT CHARACTERISTICS OF BLOOD AND HEMOGLOBIN

—*K. P. Riegel*

299

11: IMMUNOGLOBULINS IN THE HUMAN FETUS AND NEWBORN

—*Gaspard de Muralt*

323

ix

Part III METABOLISM

12: DIGESTION AND ABSORPTION DURING DEVELOPMENT - <i>Otakar Koldovský</i>	379
13: CARBOHYDRATES - <i>F. J. Ballard</i>	417
14: PROTEIN AND AMINO ACID METABOLISM - <i>Selma E. Snyderman</i>	441
15: LIPIDS - <i>Peter Hahn</i>	457
16: HEAT PRODUCTION AND TEMPERATURE REGULATION - <i>Kurt Brück</i>	493
17: ENZYME DEVELOPMENT IN THE LIVER - <i>Uwe Stave</i>	559
18: BILIRUBIN METABOLISM - <i>David Yi-Yung Hsia and Sergio Porto</i>	595
19: DETOXIFICATION MECHANISMS IN THE LIVER - <i>David Yi-Yung Hsia and Sergio Porto</i>	625
Index	1

VOLUME 2**Part IV BODY FLUIDS AND RENAL FUNCTION**

20: ELECTROLYTE AND WATER METABOLISM - <i>Edmund Kerpel-Fronius</i>	643
21: PHYSIOLOGY OF THE PERINATAL KIDNEY - <i>Leonard I. Kleinman</i>	679
22: PERINATAL CALCIUM AND PHOSPHORUS METABOLISM - <i>William H. Bergstrom</i>	703

Part V NEURO-MUSCULAR SYSTEM

23: PHYSIOLOGY OF THE NEONATAL CENTRAL NERVOUS SYSTEM - <i>Williamina A. Himwich</i>	717
24: FUNCTION OF THE NERVOUS SYSTEM DURING PRENATAL LIFE - <i>Tryphena Humphrey</i>	751
25: NEONATAL BRAIN MECHANISMS AND THE DEVELOPMENT OF MOTOR BEHAVIOR - <i>F. J. Schulte</i>	797
26: BIOCHEMISTRY OF MUSCLE DEVELOPMENT - <i>Jean Claude Dreyfus and Fanny Schapira</i>	843

Part V NEURO-MUSCULAR SYSTEM (cont.)

- 27: THE AUTONOMIC NERVOUS SYSTEM
—*Alfred Steinschneider and Julius B. Richmond* 859
- 28: THE VISUAL SYSTEM
—*David S. Walton* 875
- 29: MORPHOLOGIC AND FUNCTIONAL DEVELOPMENT OF THE SKIN
—*J. Gleiss and G. Stüttgen* 889

Part VI ENDOCRINE SYSTEM

- 30: STEROID HORMONE FORMATION AND METABOLISM
—*Eduardo Orti* 909
- 31: THE ANTERIOR LOBE OF THE HYPOPHYSIS
—*José Cera* 935
- 32: INSULIN IN FETAL AND NEONATAL METABOLISM
—*James R. Tiernan* 959
- 33: THYROID HORMONES
—*James F. Marks* 973

Part VII HYPOXIA NEONATORUM

- 34: CHARACTERISTIC METABOLIC AND FUNCTIONAL RESPONSES TO OXYGEN DEFICIENCY IN THE CENTRAL NERVOUS SYSTEM
—*Lubor Jilek, Eliana Trávníčková, and Stanislav Trojan* 987
- 35: METABOLIC EFFECTS IN HYPOXIA NEONATORUM
—*Uwe Stave and Helmut Wolf* 1043
- Index 1091
