1. Cytokinin Signaling During Root Development	1
Anthony Bishopp, Hanna Help, and Ykä Helariutta	
1. Introduction	2
2. The Two-Component Signal Transduction Pathway	4
3. The Role of Cytokinin Signaling Specific to Certain Developmental Pathways	22
4. Concluding Remarks	38
References	39
2. Live-Cell Imaging in the Study of Neurodegeneration	49
Lidia Bakota and Roland Brandt	
1. Introduction	51
2. Live Imaging of Cell Lines	54
3. Live Imaging of Primary Neurons	64
4. Live Imaging of Organotypic Cultures	71
5. Live Imaging of Animals	84
6. Multiphoton Versus One-Photon Microscopy—Potential and Limitation	91
7. Combined Approaches	92
8. Concluding Remarks	94
Acknowledgment	95
References	95
3. Interactions Between Heparan Sulfate and Proteins—Design and Functional Implications	105
Ulf Lindahl and Jin-ping Li	
1. Introduction	106
2. HS Proteoglycans	107
3. Structure and Biosynthesis of HS	109
4. Interactions of HS with Proteins	120
5. Interference with HS Function	129
6. Is There a "Sulfation Code"?	134

7. HS and Disease	136
8. Concluding Remarks	142
References	143
4. Fibroblasts—A Diverse Population at the Center of It All	161
J. Michael Sorrell and Arnold I. Caplan	
1. Introduction	162
2. General Characteristics of Fibroblasts	163
3. Fibroblast Diversity	169
4. Functional Significance of Fibroblast Heterogeneity	176
5. Fibroblast Interactions with Epithelial Cells	179
6. Fibroblasts, the Architects of Tissues	189
7. Thy-1 ⁺ and Thy-1 ⁻ Subpopulations of Fibroblasts	194
8. Fibroblasts as Sentinel Cells	196
9. Fibroblasts in Aging	198
10. Concluding Remarks	202
Acknowledgments	202
References	202
5. Imprinting and Extraembryonic Tissues—Mom Takes Control	215
Kamelia Miri and Susannah Varmuza	
1. Introduction	216
2. Genomic Imprinting—What is It?	217
3. Genomic Imprinting as a Maternal Effect	220
4. Placenta as Target of Imprinting	225
5. Conclusions	246
Acknowledgments	246
References	247
6. Cell and Molecular Biology of ATP-Binding Cassette Proteins in Plants	263
Kazufumi Yazaki, Nobukazu Shitan, Akifumi Sugiyama, and Kojiro Takanashi	
1. Introduction	264
2. ABC Proteins Localized to Plasma Membranes	265
3. ABC Proteins Localized to Other Organelles	283
4. Soluble-Type ABC Proteins in Plants	290
5. Conclusion	291
References	292

7. Cell and Molecular Biology of the Fastest Myosins	301
Sugie Higashi-Fujime and Akio Nakamura	
1. Introduction	302
2. <i>In Vitro</i> Motility	303
3. Myosins in Plants	305
4. Molecular Structure of Plant Myosins	311
5. Three-Dimensional Structure of Chara Myosin	321
6. Mechanism of Chara Myosin Motility	328
7. Concluding Remarks	336
Acknowledgments	338
References	338
 Index	 349
