

BRIEF CONTENTS

Brief Contents

PREFACE xvi

CHAPTER ONE

An Introduction to Plants and Their Study 3

CHAPTER TWO

The Ecology and Natural Selection of Plants 29

CHAPTER THREE

Energy and Cell Chemistry 51

CHAPTER FOUR

Plant Cells and Tissues 79

CHAPTER FIVE

DNA, Genes, and Cell Division 107

CHAPTER SIX

Plant Growth and Development 132

CHAPTER SEVEN

Root Systems and Plant Mineral Nutrition 153

CHAPTER EIGHT

Stems and Secondary Growth 181

CHAPTER NINE

Leaves and the Movement of Water 205

CHAPTER TEN

Photosynthesis 231

CHAPTER ELEVEN

Respiration 255

CHAPTER TWELVE

Flowers and Fruits 271

CHAPTER THIRTEEN

Genetics 299

CHAPTER FOURTEEN

Evolution 327

CHAPTER FIFTEEN

The Diversity and Classification of Plants 355

CHAPTER SIXTEEN

Bacteria, Fungi, and Algae 381

CHAPTER SEVENTEEN

Bryophytes and Ferns: The Seedless Plants 409

CHAPTER EIGHTEEN

Gymnosperms and Angiosperms: The Seed Plants 439

CHAPTER NINETEEN

Ecology 469

APPENDICES

A What Is Genetic Engineering? 499

B Fundamentals of Chemistry for Botany Students 508

GLOSSARY 515
