laboratory safety procedures ix

general instructions ix

statement on the use of living and preserved

animals in the zoology laboratory xi

table to be completed: chief characteristics of
the animal phyla xii

PART ONE

INTRODUCTION TO THE LIVING ANIMAL

EXERCISE 1

The Microscope 3

Exercise 1A: Compound Light Microscope 3

Exercise 1B: Stereoscopic Dissecting
Microscope 8

Exercise 1C: Electron Microscope 9

EXERCISE 2

Cell Structure and Division 13

Exercise 2A: The Cell—Unit of
Protoplasmic Organization 13

Exercise 2B: Cell Division—Mitosis and
Cytokinesis 16

EXERCISE 3

Gametogenesis and Embryology 25

Exercise 3A: Meiosis—Maturation Division
of Germ Cells 25

Exercise 3B: Cleavage Patterns—Spiral and
Radial Cleavage 35

Exercise 3C: Frog Development 43

EXERCISE 4

Tissue Structure and Function 47

Exercise 4A: Tissues Combined
into Organs 54

PART TWO

THE DIVERSITY OF ANIMAL LIFE

EXERCISE 5

Ecological Relationships of Animals 63

Exercise 5A: A Study of Population Growth,
with Application of the Scientific
Method 63

Exercise 5B: Ecology of a Freshwater
Habitat 67

EXERCISE 6

Introduction to Animal Classification 75

Exercise 6A: Phylogeny Reconstruction—
How to Make a Cladogram 76

Exercise 6B: Use of a Taxonomic Key for
Organism Identification 80

EXERCISE 7

Unicellular Eukaryotes 87

Exercise 7A: Phylum Amoebozoa—*Amoeba*
and Others 87

Exercise 7B: Phyla Euglenozoa and
Viridiplantae—*Euglena*, *Volvox*,
and *Trypanosoma* 95

Exercise 7C: Phylum Apicomplexa—
Plasmodium and *Gregarina* 104

Exercise 7D: Phylum Ciliophora—
Paramecium and Other Ciliates 107

Experimenting in Zoology: Effect of
Temperature on the Locomotor Activity
of *Stentor* 113

Experimenting in Zoology: Genetic
Polymorphism in *Tetrahymena* 115

EXERCISE 8

The Sponges 119

Exercise 8: Class Calcarea—*Sycon* 119

EXERCISE 9

The Radiate Animals 129

Exercise 9A: Class Hydrozoa—

Hydra, *Obelia*, and *Gonionemus* 130

Exercise 9B: Class Scyphozoa—*Aurelia*, a
"True" Jellyfish 136

Exercise 9C: Class Anthozoa—

Metridium, a Sea Anemone, and

Astrangia, a Stony Coral 138

Experimenting in Zoology: Predator
Functional Response: Feeding Rate in
Hydra 145

EXERCISE 10

The Flatworms 147

Exercise 10A: Class Turbellaria—
Planarians 148

Exercise 10B: Class Trematoda—
Digenetic Flukes 151

Exercise 10C: Class Cestoda—
Tapeworms 156

Experimenting in Zoology:
Planaria Regeneration
Experiment 162

EXERCISE 11

Nematodes and Four Small Protostome Phyla 167

Exercise 11A: Phylum Nematoda—*Ascaris*
and Others 168

Exercise 11B: A Brief Look at Some Other
Protostomes 175

EXERCISE 12

The Molluscs 179

- Exercise 12A: Class Bivalvia =
Pelecypoda—Freshwater Clam 180
Exercise 12B: Class Gastropoda—Pulmonate
Land Snail 187
Exercise 12C: Class Polyplacophora—
Chitons 190
Exercise 12D: Class Cephalopoda—*Loligo*,
the Squid 191

EXERCISE 13

The Annelids 197

- Exercise 13A: Class Polychaeta—
Clamworm 198
Exercise 13B: Clitellata with Oligochaete
Body Plan—Earthworm 200
Exercise 13C: Class Hirudinida—Leech 209
Experimenting in Zoology: Behavior
of Medicinal Leeches,
Hirudo medicinalis 213

EXERCISE 14

The Chelicerate Arthropods 215

- Exercise 14A: Chelicerate Arthropods—
Horseshoe Crab and Garden Spider 216

EXERCISE 15

The Crustacean Arthropods 221

- Exercise 15A: Subphylum Crustacea—
Crayfish, Lobsters, and Other
Crustaceans 221
Experimenting in Zoology: The Phototactic
Behavior of *Daphnia* 231

EXERCISE 16

The Arthropods 233

- Exercise 16A: Myriapods—Centipedes and
Millipedes 233

- Exercise 16B: Insects—Grasshopper and

Honeybee 235

- Exercise 16C: Insects—House Cricket 243

- Exercise 16D: Metamorphosis of

Drosophila 246

- Exercise 16E: Collection and Classification
of Insects 247

EXERCISE 17

The Echinoderms 255

- Exercise 17A: Class Asteroidea—

Sea Stars 256

- Exercise 17B: Class Ophiuroidea—Brittle

Stars 260

- Exercise 17C: Class Echinoidea—Sea

Urchins 263

- Exercise 17D: Class Holothuroidea—Sea

Cucumbers 265

- Exercise 17E: Class Crinoidea—Feather

Stars and Sea Lilies 268

EXERCISE 18

Phylum Chordata: A Deuterostome Group 271

- Exercise 18A: Subphylum Urochordata—

Ciona, an Ascidian 273

- Exercise 18B: Subphylum

Cephalochordata—*Amphioxus* 275

EXERCISE 19

The Fishes—Lampreys, Sharks, and Bony Fishes 281

- Exercise 19A: Class Petromyzontida—

Lampreys (Ammocoete Larva and
Adult) 281

- Exercise 19B: Class Chondrichthyes—

Cartilaginous Fishes 285

- Exercise 19C: Class Actinopterygii—Bony

Fishes 290

- Experimenting in Zoology: Agonistic
Behavior in Paradise Fish, *Macropodus
opercularis* 297

- Experimenting in Zoology: Analysis of the
Multiple Hemoglobin System in *Carassius
auratus*, Common Goldfish 299

EXERCISE 20

The Amphibians: Frogs 303

- Exercise 20A: Behavior and Adaptations 303

- Exercise 20B: Skeleton 307

- Exercise 20C: Skeletal Muscles 309

- Exercise 20D: Digestive, Respiratory, and
Urogenital Systems 314

- Exercise 20E: Circulatory System 317

- Exercise 20F: Nervous System 323

EXERCISE 21

The Reptiles 325

- Exercise 21 Painted Turtle 325

EXERCISE 22

The Birds 331

- Exercise 22 Pigeon 331

EXERCISE 23

The Mammals: Fetal Pig 337

- Exercise 23A: Skeleton 338

- Exercise 23B: Muscular System 342

- Exercise 23C: Digestive System 350

- Exercise 23D: Urogenital System 355

- Exercise 23E: Circulatory System 359

- Exercise 23F: Nervous System 365

- Exercise 23G: Respiratory System 371

- Appendix A: Instructor's Resources for
Implementing Exercises 373

- Appendix B: Sources of Living Material
and Prepared Microslides 404

- Credits 405

- Index 406

- Definitions 418
