4. DESIGNING A MANUSCRIPT	21
Contents of a Manuscript	21
5. DESIGNING AND WRITING A GRANT	25
Who Is Your Target Audience?	27
Budget	27
Curriculum Vitae	27
Resources	28
Outline and Specific Aims	28
Background and Significance	28
Preliminary Data	29
Experimental Design	29
Commercialization	30
Human and Animal Subjects	30
References	31
Consultants or Collaborators	31
6. DESIGNING AND WRITING A PATENT	33
Record of Invention and Priority Date	33
Patentability	34
Patent Alternatives	35
Exclusivity	35
Filing	36
Licensing	37
Implications for Academic and Industry Relations	37
7. THE FEDERAL BIOLOGICS/DRUG/DEVICE APPROVAL PROCESS	39

21	8. GOOD LABORATORY PRACTICES AND CURRENT GOOD MANUFACTURING PRACTICES	45
21	Definitions of GLP and cGMP	45
25	Documentation Procedures	47
27	Validation Protocols	49
27	Inventories	50
27	Notebooks	52
27	Federal Regulations	53
28	Inspection Process	54
28	9. EXPERIMENTAL PROTOCOLS	59
29	Proactive Design and Troubleshooting: Lessons from Engineers	59
31	10. EXPERIMENTAL REPORTS	63
31	Just the Facts, Please!	63
33	Organization and Content	64
33	11. EXPERIMENTAL METHODS	67
34	Details of Accepted Practice	67
35	12. STANDARD OPERATING PROCEDURES	71
36	13. HOW TO CHOOSE A POSTDOCTORAL POSITION	73
37	Define Your Goals	73
39	Identify Your Selection and Decision Criteria	74
	Negotiating the Deal	80

14. HOW TO CHOOSE A BIOTECHNOLOGY COMPANY	83
Defining Personal Goals	83
Selection Criteria	85
Cultural Level	89
Interpersonal Level	90
Negotiations	91
Exit Strategy	91
15. HOW TO SET UP A LABORATORY	93
Organizing	93
Inventories	93
Equipment and Manuals	95
Methods, Protocols, and Standard Operating Procedures	96
16. HOW TO ADMINISTER A LABORATORY	97
Personnel	97
Finances	104
Publication Expectations	107
Leaving the Laboratory	108
17. COLLABORATIONS	111
Steps to Facilitate Collaboration	111
Acknowledgment	112
18. HOW TO CLOSE A LABORATORY	113
Inventories, Cleanup, and Inspections	115
Equipment	116
Personnel	116

83	19. PROFESSIONAL EXPECTATIONS OF PhDs IN ACADEMIA AND INDUSTRY	119
83		
85	Publications	119
89	Grants	121
90	Peer Reviewing	121
91	Teaching	122
91	Community Service	123
	Honors and Speaking Engagements	123
	Academic Freedom	124
93	Biotech Industry Special Emphases	124
93	Patents	124
93		
95	20. PERSONNEL MANAGEMENT SKILLS	127
96		
	Recruiting	127
	Hiring	128
97	Mentoring	129
97	Promoting	131
104	Terminating	133
107		
108	21. CHANGING JOBS	135
	Transitioning from Academia to Industry (and Back)	135
111	Networking	136
111	Interviewing	136
112		
	22. PERSONAL LIFE	143
113		
	Child Care	143
115	Family and Friends	144
116	Outside Activities	144
116		

23. PERSONAL DEVELOPMENT	147
Micromanaging	147
Leadership Training	148
Managing Projects and Building Teams	152
Teaching	153
Communicating	154
Fostering Creativity	154
INDEX	157
