1. Fate Determination of Mature Autoreactive B Cells

1

Yong-Rui Zou and Betty Diamond

1. Introduction	2
2. Formation of the Naive B Cell Repertoire	2
3. B Cell Activation	5
4. The Cellular Composition of GC	7
5. The GC Response	10
6. Regulating Autoreactivity Within the GC	14
7. Cellular Mediators of GC Selection	19
8. Regulation of Plasma Cells	23
9. Conclusion	23
References	24

2. Epigenetic Control of Cytokine Gene Expression: Regulation of the *TNF/LT* Locus and T Helper Cell Differentiation

37

James V. Falvo, Luke D. Jasenosky, Laurens Kruidenier, and Anne E. Goldfeld

1. The Components of Epigenetic Transcriptional Regulation	38
2. Cytokine Gene Regulation	58
3. Perspectives and Future Directions	96
Acknowledgments	101
References	101

3. Autoimmunity in Rheumatoid Arthritis: Citrulline Immunity and Beyond

129

Lars Klareskog, Karin Lundberg, and Vivianne Malmström

1. Introduction	130
2. Present State of the Art Concerning Genes, Environment, and Anticitrulline Immunity in RA	130
3. Unresolved Issues Concerning the Specificity and Genetic Basis of Autoimmune Reactions in RA: Focus on the Heterogeneity of the RA Syndrome	134
4. Unresolved Issues Concerning the Triggering of Various Autoimmune Reactions in RA: Focus on Events Outside the Joints	140

5. Unresolved Issues Concerning the Contributions of Various Autoimmune Reactions to Symptoms of RA: Focus on Events in Joints and in Sites of Extra-Articular Manifestations of RA	145
6. Conclusions Concerning Research Strategies and Efforts to Turn the Emerging Insights of Adaptive Immunity in RA into Personalized Prevention and Therapy	148
References	149
